Program Notes

This year's oral session titles are the Program Committee's salute to the transition of CPDD's Executive Officers. Hail to the Chiefs!

Please be advised that no photographing of presentations or data is permitted.

Badges must be worn at all times and are required for admission into all events and sessions.

BOARD OF DIRECTORS

Eric Strain, M.D., President
Frank Vocci, Jr., PhD, Past-President
Sandra Comer, PhD, President-Elect
Linda B. Cottler, PhD, MPH, Treasurer
Michael T. Bardo, PhD
Alan J. Budney, PhD
Howard Chilcoat, ScD
Timothy P. Condon, PhD
Linda P. Dwoskin, PhD
Linda A. Dykstra, PhD

Toby Eisenstein, PhD
Margaret Haney, PhD
Carl L. Hart, PhD
Sarah H. Heil, PhD
Stephen T. Higgins, PhD
Marc J. Kaufman, PhD
A. Thomas McLellan, PhD
Gregory M. Miller, PhD
Charles O’Keeffe, MBA
Thomas E. Prisinzano, PhD

EXECUTIVE OFFICER

Martin W. Adler, PhD

EXECUTIVE OFFICER - ELECT

Loretta P. Finnegan, MD

DIRECTOR, EXECUTIVE OFFICE

Ellen B. Geller, MA

SCIENTIFIC PROGRAM COMMITTEE

Elise Weerts, PhD, Chair
Martin W. Adler, PhD, *ex officio*
Loretta P. Finnegan, MD, *ex officio*
Ellen B. Geller, MA, *ex officio*
Michael Bardo, PhD
Ziva Cooper, PhD
Linda Cottler, PhD, MPH
Kelly Dunn, PhD
Linda P. Dwoskin, PhD
Deborah Hasin, PhD
Michael Kuhar, PhD
Matthew Johnson, PhD
Kathryn McHugh, PhD
F. Gerald Moeller, MD

PRE-MEETING SATELLITES

8th Meeting of the International Women's and Children's and Gender Group
Chaired by Wendee Wechsberg

Frank Lloyd Wright
June 12

The 2015 NIDA International Forum: Building International Collaborative Research on Drug Abuse
Chaired by Steven Gust

McArthur Ballroom 1-4
June 12 and June 13

The International Study Group Investigating Drugs as Reinforcers (ISGIDAR)
Chaired by Morgan Drake

McArthur Ballroom 5/6
June 13

NDSN Professional Development Workshop

Sedona
June 12 (8:00 AM - 5:00 PM)

CPDD REGISTRATION

Saturday, June 13	West Foyer Conference Center	1:30 PM - 5:30 PM
Sunday, June 14 - Wednesday June 17	West Foyer Conference Center	8:00 AM - 5:00 PM
Thursday, June 18	West Foyer Conference Center	8:00 AM - 3:00 PM

OPENING RECEPTION
Gold and Aztec Rooms
(Cash Bar)

Saturday, June 13

7:00 PM - 9:00 PM
(Pre-registrants can pick up badges only)

Plenary Session

**AZ Biltmore Ballroom
9:00 - 11:15 AM**

- 9:00 *Welcome*
CPDD President Eric C. Strain
- 9:10 *Presentation of the Stephen G. Holtzman Travel Award for Preclinical Investigation to Chloe J. Jordan*
Introduction by Yung-Fong Sung
- 9:25 *Presentation of the CPDD/NIDA Media Award to Jeff Foote, Nicole Kosanke and Carrie Wilkens*
Introduction by Bertha Madras
- 9:40 *Presentation of the Martin and Toby Adler Distinguished Service Award to Cora Lee Wetherington*
Introduction by Loretta Finnegan
- 9:50 *Presentation of the Joseph Cochin Young Investigator Award to Adam Leventhal*
Introduction by Jennifer Tidey
- 10:00 *Presentation of the Mentorship Award to Michael Nader*
Introduction by Joshua Lile
- 10:10 *Presentation of the Nathan B. Eddy Award to Roland Griffiths*
Introduction by Eric C. Strain
- 10:25 *Nathan B. Eddy Award Lecture: My fascination with mood-altering drugs: Hypnotics, caffeine and psilocybin*
Roland R. Griffiths, Johns Hopkins University, Baltimore, MD

**CPDD Early Career Travel Awards Luncheon
(By Invitation Only)**

**Aztec
11:30 - 1:00 PM**

President's Lecture

**AZ Biltmore Ballroom
1:30 - 2:30 PM**

A Tale of Two C's
Dr. Martin W. Adler, Temple University School of Medicine

Symposium I

**AZ Biltmore Ballroom
3:00 - 5:00 PM**

**FEMALES AND FLOWERS: SEX DIFFERENCES IN THE
DEPENDENCE-RELATED EFFECTS OF Δ^9 -THC**

Chairs: Jenny Wiley and Cora Lee Wetherington

- 3:00 *Sex differences in antinociceptive tolerance to THC*
Rebecca Craft, Washington State University, Pullman, WA
- 3:25 *Sex-dependent effects of cannabis in the human laboratory*
Ziva D. Cooper, Columbia University and NYSPI, New York, NY
- 3:50 *Evaluation of sex differences in a rodent model of cannabinoid dependence*
Julie A. Marusich, RTI International, Research Triangle Park, NC

4:15 *Affective, psychosocial, and neuropsychological sex differences in adolescent and young adult marijuana users*

Natania A. Crane, University of Illinois at Chicago, Chicago, IL

4:40 *DISCUSSANT: What's sex got to do with it?*

Jenny Wiley, RTI International, Research Triangle Park, NC

Symposium II

McArthur Ballroom 1/2

3:00 - 5:00 PM

NALOXONE FOR OVERDOSE PREVENTION: EXPANSION TO MULTIPLE SETTINGS AND POPULATIONS

Chairs: Caleb J. Banta-Green and Phillip O. Coffin

3:00 *Naloxone provision to pain patients in primary care practice: Results from the naloxone for opioid safety evaluation*

Phillip O. Coffin, University of California San Francisco, San Francisco, CA

3:25 *Overdose risk characteristics of opiate users enrolled in an overdose prevention trial in an emergency department*

Caleb J. Banta-Green, Boston University School of Medicine, Boston, MA

3:50 *Implementation of naloxone rescue kit distribution in addiction treatment settings in Massachusetts*

Alexander Y. Walley, Boston University School of Medicine, Boston, MA

4:15 *Two paths forward for overdose prevention: Implementing pharmacy-based naloxone and naloxone at release from prison in Rhode Island*

Traci C. Green, Warrant Alpert Medical School at Brown University, Providence, RI

4:40 *DISCUSSANT: The importance of integrating naloxone distribution in diverse clinical and non-clinical settings*

Redonna K. Chandler, National Institute on Drug Abuse, Bethesda, MD

Oral Communications I

McArthur Ballroom 4

3:00 - 5:00 PM

MIXING ADDICTIONS: POLYDRUG ABUSE

Chairs: Roger D. Spealman and Michelle R. Lofwall

3:00 *Modulation of reinstated polydrug (cocaine/heroin) seeking by noradrenergic α_2 agonists*

R. D. Spealman¹, J. Bergman², ¹New England Primate Research Center, Harvard Medical School, Southborough, MA, ²McLean Hospital, Harvard Medical School, Belmont, MA

3:15 *Modeling the opioid system's effects on cocaine reinforcement in environmentally enriched and impoverished rats using an economic demand function*

R. S. Hofford¹, J. S. Beckmann¹, M. T. Bardo², ¹Psychology, University of Kentucky, Lexington, KY, ²Psychology, University of Kentucky, Lexington, KY

3:30 *Identifying predictive profiles of amphetamine, heroin, and polysubstance dependence using machine learning approaches*

W. Ahn¹, G. Vasilev², F. Moeller¹, J. Vassileva¹, ¹Institute for Drug and Alcohol Studies, Virginia Commonwealth University, Richmond, VA, ²Bulgarian Addictions Institute, Sofia, Bulgaria

- 3:45 *Alcohol and tobacco use in cocaine-dependent participants provided treatment with buprenorphine/naloxone and naltrexone*
A. Hasson, M. Hillhouse, C. Thomas, L. Mooney, W. Ling, UCLA, Los Angeles, CA
- 4:00 *A pilot trial of vigabatrin for the treatment of cocaine and alcohol dependence*
K. M. Kampman¹, H. M. Pettinati², K. G. Lynch³, J. G. Plebani², K. Williams², ¹University of Pennsylvania, Philadelphia, PA, ²Psychiatry, University of Pennsylvania, Philadelphia, PA, ³Psychiatry, University of Pennsylvania, Philadelphia, PA
- 4:15 *Can dronabinol, a CBI agonist, suppress opioid withdrawal in humans?*
M. R. Lofwall¹, S. Babalonis¹, C. Elayi², P. A. Nuzzo¹, K. E. Gill¹, S. L. Walsh¹, ¹Behavioral Science, Center on Drug and Alcohol Abuse, University of Kentucky, Lexington, KY, ²Internal Medicine, University of Kentucky, Lexington, KY
- 4:30 *Effects of cannabis use on opioid injection frequency*
K. F. Corsi², J. M. Davis², A. Kral¹, R. Bluthenthal³, R. E. Booth², ¹RTI International, San Francisco, CA, ²Psychiatry, University of Colorado Denver, Denver, CO, ³Preventive Medicine, University of Southern California, Los Angeles, CA
- 4:45 *Symmetrical discounting of the future and the past in heavy smokers and alcohol drinkers*
L. Moody^{2,1}, W. K. Bickel², ¹Virginia Tech, Roanoke, VA, ²Addiction Recovery and Research Center, Virginia Tech Carilion Research Institute, Roanoke, VA

Oral Communications 2

McArthur Ballroom 5/6

3:00 - 5:00 PM

MEASURING ANGUISH: TRAUMA & STRESS

Chairs: Philip H. Smith and David V. Flores

- 3:00 *Trauma exacerbates the effect of genetic variants in the dopamine system on cannabis use*
J. L. Meyers¹, M. Uddin², S. Galea¹, A. Aiello³, D. Wildman², K. C. Koenen¹, ¹Epidemiology, Columbia University, New York, NY, ²University of Champagne-Urbana, Urbana, IL, ³University of North Carolina Chapel Hill, Chapel Hill, NC
- 3:15 *Distress tolerance moderates the relationship between trauma symptoms and depression in substance users*
A. M. Heads¹, J. Schmitz², C. Amador¹, A. Vujanovic¹, J. Hamilton¹, J. Vincent¹, ¹Psychiatry and Behavioral Sciences, University of Texas Health Science Center at Houston, Houston, TX, ²University of Texas Houston, Houston, TX
- 3:30 *Field evidence for stress-induced drug use*
M. A. Furnari, W. J. Kowalczyk, M. L. Jobes, K. A. Phillips, D. Epstein, K. L. Preston, NIDA, Baltimore, MD
- 3:45 *Childhood trauma and initiation of drug use in adolescence*
H. Carliner¹, E. Dunn², K. Keyes¹, S. S. Martins¹, ¹Epidemiology, Columbia University, New York City, NY, ²Psychiatry, Massachusetts General Hospital, Boston, MA
- 4:00 *History of trauma associated with post-deployment relationship dysfunction in military veterans with concurrent PTSD and substance use disorders*
K. L. Ayers¹, S. E. Back^{1,3}, F. Beylotte², K. Koon¹, ¹Psychiatry, Medical University of South Carolina, Charleston, SC, ²Psychiatry, Medical University of South Carolina, Charleston, SC, ³Psychiatry, Ralph H. Johnson VA Medical Center, Charleston, SC

- 4:15 *Perpetrator vs. victim substance use associated elder abuse*
D. V. Flores¹, J. Burnett², J. Booker³, ¹Graduate College of Social Work, University of Houston, Houston, TX, ²Internal Medicine, Geriatric and Palliative Care, University of Texas Medical School at Houston, Houston, TX, ³Adult Protective Services, Department of Family and Protective Services, Houston, TX
- 4:30 *Childhood adversity, stress-sensitization, and lower likelihood of cigarette smoking cessation in a U.S. nationally representative sample: A study of sex differences*
P. H. Smith², L. Oberleitner¹, K. Z. Smith², S. Mckee², ¹School of Medicine, DSA, Yale University, New Haven, CT, ²Psychiatry, Yale University School of Medicine, New Haven, CT
- 4:45 *Childhood maltreatment and alcohol use in young adulthood: The role of self-regulation*
S. Shin¹, L. Peasley¹, T. Wills², ¹Virginia Commonwealth University, Richmond, VA, ²Cancer Center, University of Hawaii, Honolulu, HI

Primm-Singleton Awardees Reception

**AZ Biltmore History Room
5:00 - 6:00 PM**

Members-In-Training Committee Meeting

**AZ Biltmore Ballroom
6:00 - 7:00 PM**

Workshop I

**McArthur Ballroom 1/2
7:00 - 9:00 PM**

EPIDEMIOLOGY AND PUBLIC HEALTH RESEARCH METHODS (CO-SPONSORED BY CPDD INTERNATIONAL PROGRAMS COMMITTEE)

Chairs: James C. Anthony and Jan Copeland

Dr. James Anthony will introduce speakers and will moderate and encourage discussions, Q&A from the floor

James C. Anthony, Michigan State University, East Lansing, MI

Dr. Jan Copeland will moderate and encourage discussions and Q&A from the floor

Jan Copeland, University of New South Wales, Sydney, NSW, Australia

“Queremos aprender” – Issues of clinical intervention research with Mexican heritage families

Ruben Parra-Cardona, Michigan State University, East Lansing, MI

myEpi: Applications in e-technology-enhanced life history research

Georgiy Bobashev, Center for Data Science RTI International, Research Triangle Park, NC

Workshop II

**McArthur Ballroom 4
7:00 - 9:00 PM**

TURNING ELECTRONIC HEALTH RECORDS INTO ACTIONABLE KNOWLEDGE IN ADDICTION RESEARCH

Chairs: Yih-Ing Hser and Steven Sparenborg

Prescription opioid use in an integrated health system

Cynthia Campbell, Kaiser Permanente, Oakland, CA

What can electronic health records tell us about the clinical course of patients with cannabis-use disorders treated in primary care settings

Elizabeth Evans, Integrated Substance Abuse Program, UCLA, Los Angeles, CA

Substance use disorders and hepatitis screening in the safety net population: A practice-based research network study

Traci R. Rieckmann, OHSU and UCLA ISAP, Portland, OR

Schizophrenia and affective psychosis in patients with addiction

Fung-Chang Sung, China Medical University, Taichung, Taiwan

Electronic health records and addiction research: Opportunities and challenges

Yih-Ing Hser, Integrated Substance Abuse Program, UCLA, Los Angeles, CA

Workshop III

McArthur Ballroom 5/6

7:00 - 9:00 PM

CLINICAL OUTCOMES AND COST EVALUATION IN CLINICAL TRIALS: FROM ABSTINENCE TO DOLLARS AND CENTS

Chairs: Sterling McPherson and Susan K. Mikulich-Gilbertson

What should I do when my substance use outcome is not normal?

Susan K. Mikulich-Gilbertson, University of Colorado Anschutz Medical Center, Aurora, CO

Much ado about 'Missing'? : The importance of missing data sensitivity analyses to evaluate treatment effects

Sterling McPherson, Washington State University, Spokane, WA

Economic evaluation methods for randomized clinical trials

Sean M. Murphy, Washington State University, Spokane, WA

Examining measurement invariance across treatment groups, gender, and time in clinical trials

Celestina Barbosa-Leiker, Washington State University, College of Nursing, Spokane, WA

Workshop IV

AZ Biltmore Ballroom

7:00 - 9:00 PM

NAVIGATING KEY STAGES OF A CAREER IN ADDICTION SCIENCE

Chairs: Denise C. Vidot and Cristina B. Bares

Navigating the pre-doctoral stage

Denise C. Vidot, University of Miami Miller School of Medicine, Miami, FL

Navigating the post-doctoral stage

Thomas J. White, University of Vermont College of Medicine, Burlington, VT

Navigating the early career stage and NIH funding

Cristina B. Bares, Virginia Commonwealth University School of Social Work, Richmond, VA

Media Forum

McArthur Ballroom 4
8:00 - 9:30 AM

WHAT'S HOT: 2015 ORAL ABSTRACT NOMINATIONS

Chairs: Bertha K. Madras and Anna Rose Childress

Introduction to each speaker

Anna Rose Childress, University of Pennsylvania, Philadelphia, PA

Introduction to media and format

Bertha K. Madras, Harvard Medical School, Southborough, MA

MARIJUANA: CHILDREN AT RISK

Trends in use of and attitudes toward marijuana among youth before and after decriminalization: The case of California 2007-2013. Authors: L.A. Johnston, P. O'Malley, J. Bachman, J. Schulenberg, M. Patrick

Richard Miech, University of Michigan, Ann Arbor, MI

Surveying lactation professionals regarding breastfeeding and marijuana use

Cecilia Bergeria, University of Vermont, Burlington, VT

Maternal age and trajectories of marijuana use over 17 years. Authors: L. Goldschmidt, N. Day, M. Cornelius

Natacha De Genna, University of Pittsburgh School of Medicine, Pittsburgh, PA

California Federal Judge rules that marijuana should not be rescheduled from Schedule I (no current medical use) to Schedule II (medical use)

Bertha K. Madras, Mclean Hospital, Belmont, MD

OPIOIDS: PRESCRIBING, DEATH AND RESCUE

Mortality and guideline-concordant long-term opioid therapy for pain. Authors: J. Goulet, W. Becker, S. Crystal, E. Edelman, K. Gordon, R. Kerns, D. Rimland, M. Skanderson, A. Justice and D. Feillin

J. R. Gaither, Yale, New Haven, CT

Prescription opioid death rates are greater for females than males. Authors: M.C. LeLait, S.G. Severtson, B. Bucher-Bartelson and R.C. Dart

J. Iwanicki, Rocky Mountain Poison and Drug Center, Denver, CO

Implementing routine emergency department naloxone rescue kits for patients at risk of opioid overdose. Authors: J. Ellison, E. Koppelman, P. Mitchell, J. Feldman, E. Bernstein and A. Walley

Mari-Lynn Drainoni, Boston University, Boston, MA

E-CIGARETTES: USE PATTERNS

Use patterns, perceptions of relative harm, and gender effects in dual users of electronic and tobacco cigarettes Authors: O. Rass, L.R. Pacek, P.S. Johnson and M.W. Johnson

Matthew W. Johnson, Johns Hopkins University, Baltimore, MD

Use of electronic cigarettes among smokers in addiction treatment. Authors: T.Le, B. Tajima, B. Andrews, E. Passalacqua and J. Guydish

Noah Gubner, USCF, San Francisco, CA

Monday, June 15, 2015

ALCOHOL: TELEHEALTH IN TREATMENT

Impact of telehealth in-home-messaging devices on alcohol use in dually diagnosed veterans

Authors: S. Martino and M. Gebregziabher

Elizabeth J. Santa Ana, Charleston VA Medical Center, Charleston, SC

FAMILIES AT RISK

Effects of parental alcohol vs. tobacco and marijuana use on early adolescent onset of alcohol use

Authors: S.S. Tobero and K.C. Pears

Deborah Capaldi, Oregon Social Learning Center, Eugene, OR

Symposium III

McArthur Ballroom 1/2

10:00 - 12:00 PM

POSTTRAUMATIC STRESS AND SUBSTANCE USE DISORDERS: TREATMENT INITIATIVES AND CHALLENGES

Chairs: Anka Vujanovic and Joy Schmitz

- 10:00 *Combining treatments for PTSD and alcohol with antidepressants and CBT*
Denise Hien, University of NY & Columbia University College of Physicians and Surgeons, New York, NY
- 10:25 *Use of mobile technologies to enhance substance abuse outcomes among individuals with posttraumatic stress disorder*
Eric Dedert, Durham VA and Duke University Medical Centers, Durham, NC
- 10:50 *Treatment of PTSD and substance use disorders: An integrated model using prolonged exposure*
Sudie E. Back, Medical University of South Carolina, Charleston, SC
- 11:15 *A novel integrated cognitive-behavioral treatment for posttraumatic stress and substance use disorders: Overview and preliminary results*
Anka Vujanovic, University of Texas Health Science, Houston, TX
- 11:40 *DISCUSSANT: Treating addiction in the context of trauma*
Dace Svikis, Virginia Commonwealth University, Richmond, VA

Symposium IV

McArthur Ballroom 4

10:00 - 12:00 PM

EMERGING EVIDENCE ON OPIOID-RELATED OVERDOSE RISK AND INTERVENTION

Chairs: Howard Chilcoat and Nabarun Dasgupta

- 10:00 *Risk of opioid overdose death in North Carolina by type of opioid and other controlled substances prescribed*
Nabarun Dasgupta, University of North Carolina, Raleigh, NC
- 10:25 *Comparison of risk factors for opioid overdose in the United Kingdom and the United States: Role of opioid dosage strength, multiple opioids, and age*
Paul Coplan, Purdue Pharma, Stamford, CT
- 10:50 *Opioid overdoses: A mixed-methods analysis of intentional vs. unintentional events*
Carla Green, Center for Health Research, Kaiser Permanente Northwest, Portland, OR

- 11:15 *Project Lazarus: Effective community-based strategy for intervention and prevention of prescription opioid misuse and overdose*
Fred W. Brason, Project Lazarus, Moravian Falls, NC
- 11:40 *DISCUSSANT: Implications for practice and prevention*
Wilson Compton, National Institute on Drug Abuse, Bethesda, MD

Oral Communications 3

McArthur Ballroom 5/6
10:00 - 12:00 PM

MEN/WOMEN ADDICTIONS: SEX DIFFERENCES

Chairs: Jennifer W. Tidey and Sarah A. Kromrey

- 10:00 *Taurine effectively inhibits cocaine preference in male and female rats: Candidate for SUD treatment*
K. Salas-Ramirez¹, K. Uribe², E. Friedman³, S. Banerjee¹, ¹Physiology, Pharmacology and Neuroscience, The City College of New York, New York, NY, ²Biology, The City College of New York, New York, NY, ³Physiology, Pharmacology and Neuroscience, The City College of New York, New York, NY
- 10:15 *Cocaine self-administration in male and female monkeys, treatment with progesterone and enriched environment*
M. E. Carroll, M. Collins, B. Dougen, Psychiatry, University of Minnesota, Minneapolis, MN
- 10:30 *Influence of reproductive hormones on social rank and vulnerability to cocaine reinforcement in female cynomolgus monkeys*
S. Kromrey, P. W. Czoty, M. A. Nader, Physiology & Pharmacology, Wake Forest Univ School of Medicine, Winston-Salem, NC
- 10:45 *Gender differences in craving and internalizing symptoms in methamphetamine dependence*
E. E. Hartwell^{1,2}, L. A. Ray¹, ¹Psychology, University of California, Los Angeles, Los Angeles, CA, ²Integrated Substance Abuse Programs, University of California, Los Angeles, Los Angeles, CA
- 11:00 *Smoking topography in men and women with and without current depression: Findings from a 10-site clinical trial*
J. W. Tidey¹, A. Strasser², E. Donny³, D. Hatsukami⁴, ¹Center for Alcohol & Addictions Studies, Brown University, Providence, RI, ²University of Pennsylvania, Philadelphia, PA, ³University of Pittsburgh, Pittsburgh, PA, ⁴University of Minnesota Medical School, Minneapolis, MN
- 11:15 *Gender differences in cannabis withdrawal symptoms among treatment-seeking cannabis users*
E. S. Herrmann¹, E. Weerts¹, R. Vandrey², ¹Psychiatry and Behavioral Sciences, Johns Hopkins School of Medicine, Baltimore, MD, ²Johns Hopkins University, Baltimore, MD
- 11:30 *Prescription opioid death rates are greater for females than males*
J. L. Iwanicki, M. C. Le Lait, S. G. Severtson, B. Bucher-Bartelson, R. C. Dart, RADARS® System, RMPDC, DHHA, Denver, CO
- 11:45 *Gender differences in history of sexual and physical abuse in relation to addiction severity*
J. E. Korte¹, T. Killeen¹, S. Sonne¹, L. Haynes¹, A. Malek¹, K. T. Brady^{1,2}, ¹Medical University of South Carolina, Charleston, SC, ²Ralph H. Johnson VA Medical Center, Charleston, SC

Oral Communications 4**AZ Biltmore Ballroom
10:00 - 12:00 PM****MODERN ALCHEMY: MEDICATIONS DEVELOPMENT**

Chairs: Bronwyn M. Kivell and Ryan K. Lanier

- 10:00 *Kappa opioid agonist Mesyl Sal B attenuates behavioral sensitization to cocaine with few side-effects*
B. M. Kivell^{1,2}, A. Culverhouse^{1,2}, A. Morani¹, T. E. Prisinzano³, ¹School of Biological Sciences, Victoria University of Wellington, Wellington, New Zealand, ²Centre for Biodiscovery, Wellington, New Zealand, ³Medicinal Chemistry, University of Kansas, Lawrence, KS
- 10:15 *In vivo* evaluation of novel serotonin 5-HT_{2C} receptor positive allosteric modulator CYD-1-79
C. E. McAllister¹, R. M. Hartley¹, G. Zhang¹, R. G. Fox¹, N. C. Anastasio^{1,2}, C. Wild¹, J. Zhou^{1,2}, K. A. Cunningham^{1,2}, ¹Center for Addiction Research, University of Texas Medical Branch, Galveston, TX, ²Department of Pharmacology and Toxicology, University of Texas Medical Branch, Galveston, TX
- 10:30 *Effects of the trace amine associated receptor 1 agonist RO5263397 on behavioral indices of methamphetamine in rats*
J. Li¹, L. Jing¹, Y. Zhang², ¹Pharmacology and Toxicology, University at Buffalo, Buffalo, NY, ²Research Triangle Institute, Research Triangle Park, NC
- 10:30 *Systemic and intraaccumbens mGluR2/3 agonism attenuate ethanol-reinforced appetitive responding*
K. A. Windisch^{2,1}, C. L. Czachowski², ¹Rockefeller University, Indianapolis, IN, ²Psychology, IUPUI, Indianapolis, IN
- 10:45 *Effects of varenicline and GZ-793A on methamphetamine and food self-administration under a multiple schedule of reinforcement in rats*
D. J. Stairs¹, M. Kangiser¹, M. N. Pfaff¹, S. Ewin¹, L. P. Dwoskin², ¹Psychology, Creighton University, Omaha, NE, ²Pharmaceutical Sciences, University of Kentucky, Lexington, KY
- 11:00 *The angiotensin receptor blocker candesartan attenuates the subjective effects of methamphetamine in humans*
C. N. Haile³, C. D. Verrico¹, D. G. Thompson-Lake³, J. J. Mahoney², T. Kosten¹, R. De La Garza¹, T. F. Newton¹, ¹Baylor College of Medicine, Houston, TX, ²Baylor College of Medicine, Pearland, TX, ³Psychiatry, Baylor College of Medicine, Houston, TX
- 11:15 *Varenicline versus nicotine patch plus brief advice for sober smokers in substance treatment*
D. Rohsenow¹, J. W. Tidey^{1,2}, R. A. Martin¹, S. Colby¹, P. M. Monti¹, ¹Center for Alcohol & Addictions Studies, Brown University, Providence, RI, ²Providence Veterans Affairs Medical Center, Providence, RI
- 11:30 *Effects of an anatabine and yerba maté lozenge on craving in smokeless tobacco users and heavy smokers*
R. K. Lanier, A. Cohen, K. Gibson, M. Varga, C. Wright, Rock Creek Pharmaceuticals, Inc., Sarasota, FL, FL

**Please be advised that no photographing of presentations or data is permitted.
Badges must be worn at all times and are required for admission into all events
and sessions.**

Poster Session I

(Lunch)

Odd-numbered posters manned first hour;
Even-numbered, second hour

Frank Lloyd Wright Ballroom

12:00 - 2:00 PM

Set-up time begins Sunday 3:00 PM

Must be removed at 2:00 PM Monday

FOOD

- 1 *The validity of DSM-5 criteria for substance-related and addictive disorders adapted for “Food Addiction”*
L. R. Reis², M. C. Rosa¹, F. H. P. Kessler¹, E. Ferreira e Ferreira², F. P. Pechansky¹,
¹Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil,
²Department of Social and Preventive Dentistry, Federal University of Minas Gerais, Belo Horizonte, Minas Gerais, Brazil, Belo Horizonte, Brazil
- 2 *Overlap between food addiction and DSM-5 eating disorders in a treatment seeking sample*
M. C. Rosa^{2,1}, J. Collombat², C. M. Denis^{3,2}, J. Alexandre², F. Serre², M. Auriacombe²,
M. Fatseas², ¹Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ²Addiction Psychiatry (CNRS USR 3413), Universite Bordeaux, Bordeaux, France, ³University of Pennsylvania, Philadelphia, PA
- 3 *Measuring “craving” in food addiction: Type, frequency, intensity*
M. Fatseas¹, J. Collombat¹, M. C. Rosa^{1,2}, C. M. Denis^{3,1}, J. Alexandre¹, R. Debrabant¹,
F. Serre¹, M. Auriacombe¹, ¹Addiction Psychiatry (CNRS USR 3413), Universite Bordeaux, Bordeaux, France, ²Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ³University of Pennsylvania, Philadelphia, PA
- 4 *Validity of the eating section for the modified Addiction Severity Index*
M. Auriacombe³, C. M. Denis^{3,4}, M. C. Rosa^{3,2}, J. Collombat³, F. Serre³, J. Daulouede^{1,3},
M. Fatseas³, ¹BIZIA, Bayonne, France, ²Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ³Addiction Psychiatry (CNRS USR 3413), Universite Bordeaux, Bordeaux, France, ⁴University of Pennsylvania, Philadelphia, PA
- 5 *Topiramate effect on weight gain during methadone maintenance*
A. Umbricht¹, J. R. Schroeder², D. G. Antoine¹, D. A. Tompkins¹, C. Barnhouser¹,
E. C. Strain¹, G. Bigelow¹, ¹Johns Hopkins University School of Medicine, Baltimore, MD,
²Schroeder Statistical Consulting, Ellicott City, MD
- 6 *Associations between isomeric serum methadone levels, total sugar intake, and orexin-A*
D. G. Antoine¹, E. C. Strain¹, A. Umbricht², ¹Behavioral Pharmacology Research Unit, Johns Hopkins Bayview, Baltimore, MD, ²Johns Hopkins University School of Medicine, Baltimore, MD
- 7 *Examining different choice procedures to study cocaine vs. food reward*
J. J. Chow¹, J. S. Beckmann², ¹Psychology, University of Kentucky, Lexington, KY,
²Psychology, University of Kentucky, Lexington, KY
- 8 *The role of serotonin 2A (5-HT_{2A}) and 2C (5-HT_{2C}) receptors in the association between binge eating and impulsive action*
S. J. Stutz¹, N. C. Anastasio^{1,2}, K. A. Cunningham^{1,2}, ¹Center for Addiction Research, University of Texas Medical Branch, Galveston, TX, ²Department of Pharmacology and Toxicology, University of Texas Medical Branch, Galveston, TX

- 9 *Aversive effects of drugs: A comparison of conditioned taste and place avoidance*
J. K. Gore-Langton, S. M. Flax, R. Pomfrey, B. B. Wetzell, A. L. Riley, Psychopharmacology Laboratory, American University, Washington, DC
- 10 *An assessment of MDPV-induced place preference in adult Sprague-Dawley rats*
H. E. King¹, B. B. Wetzell², K. Rice³, A. L. Riley¹, ¹Psychology, American University, Washington, DC, ²Psychopharmacology Laboratory, American University, Washington, DC, ³Chemical Biology Research Branch, NIDA, Bethesda, MD

STIMULANTS - ANIMALS

- 11 *The effects of estrous cycling on cocaine self-administration in socially housed male-female dyads*
R. Lacy, M. Feinstein, J. C. Strickland, M. A. Smith, Department of Psychology, Davidson College, Davidson, NC
- 12 *A computation opponent process model describes and predicts cocaine self-administration among naïve rats*
G. Bobashev¹, N. Seider², S. Ahmed³, ¹RTI International, Durham, NC, ²Psychology, UNC Chapel Hill, Chapel Hill, NC, ³University of Bordeaux, Bordeaux, France
- 13 *Comparison of cocaine reinforcement in lean and obese Zucker rats: Dose-sensitivity and reinstatement of extinguished operant responding*
D. Townsend¹, K. Freeman², ¹Program in Neuroscience, University of Mississippi Medical Center, Jackson, MS, ²Dept. of Psychiatry and Human Behavior, University of Mississippi Medical Center, Jackson, MS
- 14 *CaMKII inhibition affects cocaine-cue memory processes to attenuate reinstatement*
M. T. Rich¹, M. M. Torregrossa², ¹University of Pittsburgh, Pittsburgh, PA, ²Psychiatry, University of Pittsburgh, Pittsburgh, PA
- 15 *CamKII and β -actin are activated both in striatum and hippocampus in opioid-induced conditioned place preference*
J. M. Andersen, F. Boix Escolan, Division of Forensic Sciences, Norwegian Institute of Public Health, Oslo, Norway
- 16 *Serotonin (5-HT) 5-HT_{2C} receptor (5-HT_{2C}R) agonist lorcaserin suppresses cocaine or oxycodone cue reactivity*
R. G. Fox¹, S. J. Stutz¹, S. Comer², M. Haney², N. C. Anastasio^{1,3}, F. G. Moeller⁴, K. A. CRIMINAL JUSTICE

- 94 *Substance use and offenses among juvenile offenders*
C. G. Leukefeld¹, M. Staton-Tindall³, M. F. Dickson³, M. Webster¹, C. B. Oser²,
H. K. Knudsen¹, E. Pullen¹, J. R. Havens⁴, ¹Behavioral Science, Univ of Kentucky,
Lexington, KY, ²Sociology, Univ of Kentucky, Lexington, KY, ³Center on Drug and Alcohol
Research, University of Kentucky, Lexington, KY
- 95 *Identifying and addressing unmet medical needs: A call to broaden the scope of drug courts*
K. L. Dugosh, D. Festinger, Section on Law and Ethics, Treatment Research Institute,
Philadelphia, PA
- 96 *Sex, drugs, and violence: An analysis of women in drug court*
A. Acheampong², C. W. Striley³, D. O. Fakunle¹, L. Cottler³, ¹Mental Health, Johns Hopkins
Bloomberg School of Public Health, Baltimore, MD, ²University of Florida, Gainesville, FL,
³Epidemiology, University of Florida, Gainesville, FL
- 97 *Predictors of HIV risk among ex-offenders entering Sober Living Recovery Residences for drug
problems*
D. L. Polcin¹, T. Nemoto², R. Korcha¹, A. Mericle¹, E. Mahoney¹, ¹Alcohol Research Group,
Emeryville, CA, ²Public Health Institute, Oakland, CA
- 98 *Moved to Thursday, Poster Session IV, Poster 137*
- 99 *Meeting the HIV and hepatitis C needs of female drug court participants in the context of their
trauma*
D. Morse¹, C. Cerulli¹, P. Bedell¹, J. L. Wilson¹, H. Amaro², ¹Psychiatry, University of
Rochester School of Medicine, Rochester, NY, ²Social Work and Preventive Medicine,
University of Southern California, Los Angeles, CA
- 100 *Healthcare utilization and insurance status of substance using ex-offenders in primary care*
J. E. Chambers¹, A. C. Brooks¹, C. M. Carpenedo¹, J. Lauby², D. Metzger^{1,3}, K. C. Kirby¹,
¹Treatment Research Institute, Philadelphia, PA, ²Public Health Management Corporation,
Philadelphia, PA, ³Department of Psychiatry, University of Pennsylvania, Philadelphia, PA

PREVENTION

- 101 *Criminal arrests among drug-using assault-injured youth seeking ED care: A prospective
cohort study*
R. M. Cunningham¹, P. M. Carter¹, M. Zimmerman¹, F. Blow¹, M. A. Walton¹, ¹Univ. of
Michigan, Ann Arbor, MI
- 102 *Event-level analysis of antecedents to firearm violence among drug-using ED youth*
P. M. Carter¹, M. A. Walton¹, Q. Epstein-Ngo¹, E. A. Austic¹, M. Zimmerman¹, F. Blow¹,
S. Chermack¹, A. Buu², R. M. Cunningham¹, ¹Univ. of Michigan, Ann Arbor, MI, ²Indiana
University, Bloomington, IN
- 103 *Lifetime victimization and sexual relationship power among substance-abusing African-
American women*
C. Ahuama-Jonas, K. Burlew, University of Cincinnati, Taylor Mill, KY

- 104 *The risks of gang association among drug-using women in Cape Town, South Africa*
T. Carney², B. Myers^{1,3}, F. Browne⁴, P. Wechsberg^{4,5,6}, D. Kline⁴, ¹Alcohol, Tobacco and Other Drug Research Unit, South African Medical Research Council, Tygerberg, South Africa, ²Alcohol, Tobacco and Other Drug Research Unit, South African Medical Research Council, Cape Town, South Africa, ³Psychiatry and Mental Health, University of Cape Town, Rondebosch, South Africa, ⁴Research Triangle Institute International, Raleigh/Durham, NC, ⁵Psychology in the Public Interest, North Carolina State University, Raleigh, NC, ⁶Psychiatry and Behavioral Sciences, Duke University, Durham, NC
- 105 *Testing differential implementation feasibility and initial efficacy in a culturally adapted parenting intervention for Latino/a immigrants*
R. Parra-Cardona, D. Bybee, Michigan State University, East Lansing, MI
- 106 *Parents as interventionists to address adolescent drug abuse*
K. Winters, ¹University of Minnesota Medical School, Minneapolis, MN, ²Treatment Research Institute, Philadelphia, PA
- 107 *Prevalence and correlates of drug use in women patients of community health centers in Tijuana, Mexico and Los Angeles, USA*
M. Arroyo¹, G. Natera¹, L. Gelberg², R. Andersen³, M. Rico², ¹National Institute of Psychiatry Ramón de la Fuente Muñiz, Mexico City, Mexico, ²Family Medicine; Public Health, UCLA, Los Angeles, CA, ³UCLA School of Public Health, Los Angeles, CA
- 108 *Comparing attitudes toward addressing patient drug use among health professionals in training*
J. A. Johnson⁶, U. Kelly¹, A. Tindol³, D. Macmillan², F. Payne³, S. Chalmers⁴, S. Shellenberger³, K. Le⁵, P. Seale³, ¹Emory Univ., Atlanta, GA, ²Georgia College & State Univ., Milledgeville, GA, ³Mercer Univ., Macon, GA, ⁴Univ. of North Georgia, Dahlonega, GA, ⁵Wake Forest Univ., Winston-Salem, NC, ⁶Georgia Regents Univ., Augusta, GA
- 109 *Adolescent input on a web-based prescription opioid abuse prevention tool*
S. K. Moore¹, L. A. Marsch², M. Grabinski³, S. Semino⁴, ¹Capital Health Medical Center, Hopewell, NJ, ²Center for Technology and Behavioral Health, Dartmouth College, Hanover, NH, ³HealthSim, LLC, New York, NY, ⁴NY Public Library, New York, NY
- 110 *Exploring the feasibility to quantify prescription drug misuse and abuse: Focus group findings*
D. S. Varma¹, L. Hoffer², L. Cottler¹, ¹Epidemiology, University of Florida, Gainesville, FL, ²Anthropology, Case Western Reserve University, Cleveland, OH
- 111 *Perceptions among healthcare professionals of prescription drug misuse*
A. Porath-Waller, S. Geregthy, P. Robeson, Canadian Centre on Substance Abuse, Ottawa, ON, Canada
- 112 *Predictors of transition to opioid dependence among illicit pharmaceutical opioid users*
R. Carlson², R. Nahhas², S. S. Martins¹, R. Daniulaityte², ¹Epidemiology, Columbia University, New York City, NY, ²Community Health, Wright State University, Dayton, OH
- 113 *Patterns of opioid use and co-morbidity in non-treatment-seeking individuals with opioid use disorder*
J. M. Manubay, S. Comer, S. Mogali, J. D. Jones, V. Metz, G. Madera, R. Luba, J. Vogelman, M. A. Sullivan, Columbia University NYSPI, New York, NY
- 114 *A randomized clinical trial of a behavioral intervention to reduce opioid overdose risk behavior*
A. S. Bohnert^{1,3}, F. Blow^{1,3}, R. Cunningham¹, L. Thomas¹, M. K. Greenwald², S. Chermack^{1,3}, E. E. Bonar¹, M. Walton¹, ¹University of Michigan, Ann Arbor, MI, ²Psychiatry, Wayne State University, Detroit, MI, ³VA Center for Clinical Management Research, Ann Arbor, MI

- 115 *Non-fatal overdose among recent veterans: Lessons learned from a mixed methods analysis*
A. S. Bennett¹, L. Elliott¹, A. Golub², E. R. Pouget², A. Rosenblum³, P. Britton⁴, ¹National Development and Research Institutes, New York City, NY, ²NDRI, Burlington, VT, ³Institute for Treatment and Services Research, National Development and Research Institutes, Inc., New York, NY, ⁴Center of Excellence for Suicide Prevention Canandaigua VAMC University of Rochester Medical Center, Rochester, NY
- 116 *Overdose education and naloxone for patients prescribed opioids in primary care: A qualitative study*
I. A. Binswanger^{1,3}, S. Koester², S. Mueller¹, E. Gardner³, K. Goddard⁴, J. Glanz^{4,5}, ¹Division of General Internal Medicine, University of Colorado School of Medicine, Aurora, CO, ²University of Colorado Denver, Denver, CO, ³Denver Health, Denver, CO, ⁴Institute for Health Research, Kaiser Permanente Colorado, Denver, CO, ⁵Colorado School of Public Health, Aurora, CO
- 117 *Screening and brief intervention for low risk drug use in primary care: A pilot randomized trial*
S. Meli¹, T. Palfai², D. M. Cheng³, D. Alford⁴, J. Bernstein¹, J. Samet⁴, R. Saitz¹, ¹Community Health Sciences, Boston University, Boston, MA, ²Psychological and Brain Sciences, Boston University, Boston, MA, ³Biostatistics, Boston University, Boston, MA, ⁴Medicine, Boston University, Boston, MA
- 118 *Participation in the binational QUIT trial for reducing problem drug use among patients of community health centers in East Los Angeles and Tijuana: The role of cross-border migration*
M. Vahidi¹, G. Natera³, M. Rico¹, M. Arroyo³, R. Andersen⁴, J. Yacenda¹, L. Gelberg², ¹Family Medicine, UCLA, Woodland Hills, CA, ²Family Medicine; Public Health, UCLA, Los Angeles, CA, ³National Institute of Psychiatry Ramón de la Fuente Muñiz, Mexico City, Mexico, ⁴UCLA School of Public Health, Los Angeles, CA
- 119 *Cannabis, Lord Shiva and holy men: Cannabis use among sadhus in Nepal*
J. Copeland², S. Acharaya¹, J. Howard², ¹Ministry of Health and Population, Kathmandu, Nepal, ²National Cannabis Prevention and Information Centre, University of NSW, Sydney, NSW, Australia
- 120 *Moderators of electronic screening and brief intervention for marijuana among students in a health center: eCHECKUP TO GO bolsters efforts of those who are already trying to change*
T. Palfai¹, R. Saitz², M. R. Winter³, ¹Psychological and Brain Sciences, Boston University, Boston, MA, ²Community Health Sciences, Boston University and Boston Medical Center, Boston, MA, ³Data Coordinating Center, Boston University, Boston, MA
- 121 *Evaluating the documentation of risky substance use in federally qualified health centers*
A. Reddy¹, M. Vahidi², N. Cox¹, H. Alden¹, R. Andersen⁴, L. Gelberg³, ¹Department of Family Medicine, UCLA, Los Angeles, CA, ²Family Medicine, UCLA, Woodland Hills, CA, ³Family Medicine; Public Health, UCLA, Los Angeles, CA, ⁴UCLA School of Public Health, Los Angeles, CA
- 122 *Underreporting of risky drug use among prime care patients in federally qualified health centers*
M. Vahidi¹, C. Bone¹, R. Andersen³, J. Yacenda¹, L. Gelberg², ¹Family Medicine, UCLA, Woodland Hills, CA, ²Family Medicine; Public Health, UCLA, Los Angeles, CA, ³UCLA School of Public Health, Los Angeles, CA
- 123 *Reporting errors on combined use of caffeine and alcohol questions in a qualitative questionnaire*
K. M. Polak², D. Svikis¹, L. Hancock², D. Pomm², ¹Virginia Commonwealth Univ., Richmond, VA, ²Psychology, Virginia Commonwealth University, Henrico, VA

- 124 *Effects of cultural congruity on alcohol use severity among Hispanic emerging adults in college*
M. Cano¹, E. Vaughan³, M. de Dios⁴, Y. Castro², A. Roncancio⁵, L. Ojeda⁶, ¹Epidemiology, Florida International University, Miami, FL, ²School of Social Work, University of Texas at Austin, Austin, TX, ³Indiana University, Bloomington, IN, ⁴MD Anderson Cancer Center, Houston, TX, ⁵UT Health Science Center, Houston, TX, ⁶Texas A&M University, College Station, TX
- 125 *Correlates of specific personality and alcohol use with nonmedical use of prescription stimulants in college students*
S. Bierma¹, S. J. Lookatch², K. Ritter¹, G. Kurdziel², T. Moore¹, E. C. Katz³, ¹University of Tennessee, Knoxville, TN, ²Department of Psychology, University of Tennessee, Knoxville, TN, ³Towson University, Towson, MD

POLICY

- 126 *Impacts of drinking-age legislation on arrests for alcohol-impaired driving among young people in Canada, 2009-2012*
R. C. Callaghan¹, J. Gatley¹, M. Sanches², ¹Northern Medical Program, University of Northern British Columbia, Prince George, BC, Canada, ²Biostatistical Consulting Unit, Centre for Addiction and Mental Health, Toronto, ON, Canada
- 127 *How are private health plans providing drug and alcohol services in an age of parity and health reform?*
C. M. Horgan, M. Stewart, S. Reif, D. W. Garnick, D. Hodgkin, E. L. Merrick, A. Quinn, Brandeis University, Waltham, MA
- 128 *Hospital discharges for marijuana dependence over time in Colorado*
J. M. Davis, K. Suleta, K. F. Corsi, R. Booth, University of Colorado Denver, Denver, CO
- 129 *“Smoking pot helps me focus”: A qualitative analysis of Internet forum discussions of ADHD and cannabis use*
J. T. Mitchell, M. Sweitzer, A. Tunno, C. Hagmann, S. H. Kollins, J. McClernon, Psychiatry and Behavioral Sciences, Duke University Medical Center, Durham, NC
- 130 *Medical marijuana laws and annual opioid analgesic sales in the United States*
J. H. Kim², J. Santaella¹, M. Cerda¹, S. S. Martins¹, ¹Epidemiology, Columbia University, New York City, NY, ²Epidemiology, Mailman School of Public Health, New York, NY
- 131 *The spatial-temporal relationship of policing in areas with high drug activity*
T. Gaines¹, D. Werb¹, J. Arredondo¹, V. M. Alaniz³, L. Beletsky², ¹Medicine, University of California San Diego, La Jolla, CA, ²School of Law, Northeastern University, Boston, MA, ³Tijuana Police Department, Tijuana, Mexico
- 132 *Scaling up SBIRT: Statewide implementation in the Oregon Health Plan*
D. McCarty¹, T. R. Rieckmann¹, S. Renfro², J. McConnell², ¹Public Health, OHSU, Portland, OR, ²Center for Health Systems Effectiveness, Oregon Health & Science University, Portland, OR
- 133 *A pre-post comparison in healthcare service utilization among heroin-using women in the methadone maintenance treatment in Taiwan*
Y. Lien², H. H. Yeh¹, S. Fang², C. Chen², ¹Epidemiology, Michigan State University, East Lansing, MI, ²Institute of Public Health, National Yang-Ming University, Taipei, Taiwan
- 134 *Impact of prescription monitoring on care of opioid-dependent patients*
H. Hansen^{1,2}, S. Mendoza⁴, E. V. Nunes³, J. Rotrosen⁴, ¹Psychiatry and Anthropology, New York University, New York, NY, ²Statistics and Services Research Division, Nathan Kline Institute for Psychiatric Research, Orangeburg, NY, ³Psychiatry, Columbia University, New York, NY, ⁴Psychiatry, NYU, New York, NY

- 135 *Naloxone distribution to drug users in California and opioid-related overdose death rates*
P. J. Davidson¹, E. Wheeler², J. Proudfoot³, R. Xu³, K. D. Wagner¹, ¹Medicine, University of California San Diego, La Jolla, CA, ²Harm Reduction Coalition, Oakland, CA, ³Clinical & Translational Research Institute, University of California, San Diego, La Jolla, CA
- 136 *Factors associated with illicit methadone injecting in a Canadian setting*
D. Tucker¹, M. Milloy^{1,2}, K. Hayashi^{1,2}, R. Lung¹, P. Nguyen¹, T. Kerr^{1,2}, E. Wood^{1,2}, ¹BC Centre for Excellence in HIV/AIDS, St Paul's Hospital, Vancouver, BC, Canada, ²Department of Medicine, University of British Columbia, Vancouver, BC, Canada
- 137 *Limitations to participation in opioid maintenance treatment in Europe*
L. Brandt¹, A. Unger², L. Moser¹, G. Fischer^{2,1}, R. Jagsch³, ¹Center for Public Health and ²Department of Psychiatry and Psychotherapy, Medical University of Vienna, Vienna, Austria, ³Faculty for Psychology, University of Vienna, Vienna, Austria
- 138 *Access to buprenorphine treatment: Is the patient limit a barrier?*
H. K. Knudsen¹, M. R. Lofwall², ¹Behavioral Science, University of Kentucky, Lexington, KY, ²Behavioral Science & Center on Drug and Alcohol Research, University of Kentucky, Lexington, KY
- 139 *U.S. federal cocaine essential ("precursor") chemical regulation impacts on U.S. cocaine availability: An intervention time series analysis with temporal replication*
J. K. Cunningham¹, R. C. Callaghan², L. Liu³, ¹Family and Community Medicine, University of Arizona, Tucson, AZ, ²Northern Medical Program, University of Northern British Columbia, Prince George, BC, Canada, ³Economics, National Taiwan University, Taipei, Taiwan
- 140 *Crack users with conduct disorder have more association with violence, trauma and psychiatric comorbidities*
M. P. Pachado¹, D. S. Souza⁴, J. N. Scherer⁵, F. P. Pechansky³, F. Kessler³, S. Faller², ¹Psychiatric Dept, Center for Drug and Alcohol Research, Porto Alegre, Brazil, ²Center for Drug and Alcohol Research (CPAD) - Federal University of Rio Grande do Sul (UFRGS), Porto Alegre, Brazil, ³Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil, ⁴Psychiatric Dept, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ⁵Universidade Federal do Rio Grande do Sul, Porto Alegre, Brazil
- 141 *Brazilian crack/cocaine inpatients show more legal and family social problems than outpatients*
D. S. Souza, J. N. Scherer, M. P. Pachado, S. Halpern, L. von Diemen, F. P. Pechansky, F. Kessler, Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil
- 142 *The impacts of graphic warning labels in an addiction treatment population*
B. Tajima, D. Garina, T. Le, A. Batchelder, J. Guydish, University of California San Francisco, San Francisco, CA
- 143 *Reactions to the FDA proposed graphic warning labels among smokers in addiction treatment centers*
T. Le, B. Tajima, E. Passalacqua, J. Guydish, Philip R. Lee Institute for Health Policy Studies, UCSF, San Francisco, CA
- 144 *State-level tobacco-related norms and policies show differential effects on cigarette smoking in population subgroups*
D. Shmulewitz, M. Stohl, K. M. Keyes, Q. Brown, D. Hasin, Columbia University, New York, NY

- 145 *Assessing the cost-effectiveness of a contingency-management intervention for stimulant use among community mental health patients with serious mental illness*
S. M. Murphy^{1,2}, M. G. McDonell³, S. McPherson², D. Srebnik⁴, J. M. Roll², R. Ries³, ¹Health Policy & Administration, Washington State University, Spokane, WA, ²Program of Excellence in Addictions Research (PEAR), Washington State University, Spokane, WA, ³Medical School, University of Washington, Seattle, WA, ⁴King County Mental Health, Seattle, WA

Symposium V

McArthur Ballroom 1/2
2:00 - 4:00 PM

CANNABIDIOL AND DRUGS OF ABUSE: PRECLINICAL AND CLINICAL STUDIES OF CANNABIDIOL AND COCAINE, ETHANOL, OPIOIDS AND CANNABINOIDS

Chairs: Margaret Haney and Yasmin L. Hurd

- 2:00 *Cannabidiol: Long-lasting amelioration of vulnerability states associated with relapse risk as determined in animal models of drug seeking, anxiety, and impulsivity*
Friedbert Weiss, The Scripps Research Institute, La Jolla, CA
- 2:25 *Study to test the safety and efficacy of cannabidiol as a treatment intervention for opioid relapse*
Didier Jutras-Aswad, University of Montreal, Montreal, QC, Canada
- 2:50 *The interactions of cannabidiol and delta-9-tetrahydrocannabinol in healthy humans*
Mohini Ranganathan, Yale School of Medicine, New Haven, CT
- 3:15 *Influence of oral cannabidiol on the subjective, reinforcing and cardiovascular effects of smoked marijuana*
Margaret Haney, Columbia University Medical Center, New York, NY
- 3:40 *DISCUSSANT: Preclinical and clinical experience testing cannabidiol for opioid dependence*
Yasmin Hurd, Mount Sinai Hospital, New York, NY

Oral Communications 5

Grand Ballroom
2:00 - 4:00 PM

MAINTAINING ABSTINENCE: TREATMENTS FOR OPIOID DEPENDENCE

Chairs: Mark A. Smith and Andrew Rosenblum

- 2:00 *The effects of strength training on heroin self-administration*
M. A. Smith, G. Fronk, S. Bills, R. Lacy, Davidson College, Davidson, NC
- 2:15 *Casein kinase-1 inhibitors as a novel treatment for substance use disorders*
D. B. Horton¹, E. Dunn-Sims¹, T. T. Wager³, C. Chang², A. Doran², A. Rosado¹, A. N. Mead¹,
¹Global Safety Pharmacology, DSRD, Pfizer, Inc, Groton, CT, ²PDM - NCE, Pfizer, Inc., Groton, CT, ³Neuroscience Research Unit, Pfizer, Inc., Cambridge, MA
- 2:30 *Hapten selection for heroin vaccines*
G. R. Matyas², F. Li^{1,3}, J. Antoline^{1,3}, R. Jalah⁴, O. Torres⁴, Z. Beck⁴, A. Jacobson^{1,3},
C. Alving², K. Rice^{1,3}, ¹Drug Design and Synthesis Section, National Institute on Drug Abuse, NIH, Bethesda, MD, ²US Military HIV Research Program, Walter Reed Army Institute of Research, Silver Spring, MD, ³National Institute on Alcohol Abuse and Alcoholism, NIH, Bethesda, MD, ⁴US Military HIV Research Program, Herny M. Jackson Foundation for the Advancement of Military Medicine, Bethesda, MD

- 2:45 *Effects of ibudilast on the reinforcing, subjective and analgesic effects of oxycodone – preliminary results*
V. Metz, J. D. Jones, M. A. Sullivan, S. Mogali, J. M. Manubay, B. Vaughan, S. D. Comer, Psychiatry, Columbia University and NYSPI, New York, NY
- 3:00 *Reducing the cost of free time: Treatment success in a randomized trial of clonidine as adjunct to buprenorphine maintenance is associated with more leisure activities in the clonidine condition*
W. J. Kowalczyk, M. A. Furnari, K. A. Phillips, M. L. Jobes, U. Ghitza, D. Epstein, K. L. Preston, NIDA, NIH, Bethesda, MD
- 3:15 *Extended-release naltrexone for opioid relapse prevention among opioid-dependent, criminal justice-involved adults*
J. D. Lee¹, P. D. Friedmann², T. W. Kinlock³, E. V. Nunes⁴, M. S. Gordon³, C. P. O'Brien⁵, ¹Population Health, New York University, New York, NY, ²Medicine, Rhode Island Hospital, Providence, RI, ³Friends Research Institute, Baltimore, MD, ⁴Columbia University, New York, NY, ⁵Psychiatry, University of Pennsylvania, Philadelphia, PA
- 3:30 *Reduction in prescription opioid misuse among enrollees into opioid treatment programs*
A. Rosenblum, C. Fong, H. Matusow, ITSR, National Development and Research Institutes, New York, NY
- 3:45 *Implementing routine emergency department naloxone rescue kits for patients at risk of opioid overdose*
M. Drainoni^{3,2}, J. Ellison³, E. Koppelman³, P. Mitchell^{2,1}, J. Feldman^{2,1}, E. Bernstein^{2,1}, A. Walley^{2,1}, ¹Boston Medical Center, Boston, MA, ²Medicine, Boston Univ, Boston, MA, ³Public Health, Boston Univ, Boston, MA

Oral Communications 6

McArthur Ballroom 4
2:00 - 4:00 PM

ADLERESCENTS: ADOLESCENT DRUG ABUSE

Chairs: Richard Miech and Chloe J. Jordan

- 2:00 *Trends in use of and attitudes toward marijuana among youth before and after decriminalization: The case of California 2007-2013*
R. Miech, L. A. Johnston, P. O'Malley, J. Bachman, J. Schulenberg, M. Patrick, University of Michigan, Ann Arbor, MI
- 2:15 *Adolescent d-amphetamine treatment in a rodent model of ADHD: Pro-cognitive effects during adolescence and cocaine abuse risk during adulthood*
C. J. Jordan¹, D. M. Taylor¹, S. Jeon¹, B. M. Baskin¹, L. P. Dwoskin², K. M. Kantak¹, ¹Psychological & Brain Sciences, Boston University, Boston, MA, ²Pharmaceutical Sciences, University of Kentucky, Lexington, KY
- 2:30 *Amphetamine exposure during adolescence alters anxiety- and depression-like behaviors and prefrontal cortex dopamine receptor expression in adulthood*
S. Kang², M. Wu¹, R. Galvez^{1,2}, J. M. Gulley^{1,2}, ¹Psychology Department, University of Illinois, Urbana-Champaign, Champaign, IL, ²Neuroscience program, University of Illinois, Urbana-Champaign, Champaign, IL

- 2:45 *Adaptive reward learning is intact in young adults with remitted substance use and depressive disorders*
S. A. Langenecker², N. A. Crane³, S. DelDonno², L. Gabriel², J. Gowins², C. Nagel², B. Mickey⁴, J. Zubieta⁴, R. Mermelstein³, E. Martin¹, ¹Psychiatry, Rush University Medical Center, Chicago, IL, ²Psychiatry and Psychology, The University of Illinois at Chicago, Chicago, IL, ³Psychology, University of Illinois at Chicago, Chicago, IL, ⁴Psychiatry, The University of Michigan, Ann Arbor, MI
- 3:00 *Adolescent C57Bl/6J mice self-administer more oxycodone than adult mice in an extended-access paradigm (4hrs)*
S. P. Rahm, A. Ho, M. Kreek, Y. Zhang, The Laboratory of the Biology of the Addictive Diseases, The Rockefeller University, New York, NY
- 3:15 *Effects of environmental enrichment on microRNA-221 expression and ERK phosphorylation in the rat prefrontal cortex following nicotine-induced sensitization or nicotine self-administration*
J. Zhu^{1,2}, A. M. Gomez¹, W. Sun¹, D. Altomare¹, K. E. Creek¹, S. B. Harrod², ¹Dept. of Drug Discovery and Biomedical Sciences, University of South Carolina, Columbia, SC, ²Psychology, University of South Carolina, Columbia, SC
- 3:30 *Effects of withdrawal from chronic nicotine on emotional and cognitive behaviors in adult and adolescent mice*
P. A. Nucero², E. Holliday¹, M. G. Kutlu¹, T. Gould¹, E. Unterwald², ¹Psychology, Temple University, Philadelphia, PA, ²Center for Substance Abuse Research, Temple University School of Medicine, Philadelphia, PA
- 3:45 *Effects of parental alcohol vs. tobacco and marijuana use on early adolescent onset of alcohol use*
D. Capaldi², S. S. Tiberio², D. C. Kerr^{1,2}, K. C. Pears², ¹School of Psychological Science, Oregon State University, Corvallis, OR, ²Oregon Social Learning Center, Eugene, OR

Oral Communications 7

McArthur Ballroom 5/6
2:00 - 4:00 PM

MARTY'S AMINES: MONOAMINES

Chairs: Ronald Cowan and Sarah E. Swinford-Jackson

- 2:00 *Combined enhancement of acetylcholine and monoamines causes persistent reductions in cocaine reward*
K. Grasing, F. Yang, H. Xu, Kansas City VA Medical Center, Kansas City, MO
- 2:15 *Drug-seeking following extinction of MDMA self-administration: Role of dopamine and serotonin*
S. Schenk, Psychology, Victoria University Wellington, Wellington, New Zealand
- 2:30 *Subjective responses to acute cocaine are moderated by variants of the serotonergic system*
D. A. Nielsen¹, S. C. Hamon², M. H. Harding¹, E. M. Nielsen¹, T. Kosten¹, T. F. Newton¹, R. De La Garza¹, ¹Psychiatry, Baylor College of Medicine, Houston, TX, ²Statistical and Genetic Consulting LLC, Darien, CT, Darien, CT
- 2:45 *Neuropharmacology of replacement analogs of the designer drug 3,4-methylenedioxymethcathinone*
M. H. Baumann, O. Dillon-Carter, M. O. Bukhari, R. B. Rothman, J. S. Partilla, IRP, NIDA, NIH, Baltimore, MD
- 3:00 *Effects of the 5-HT1B receptor agonist CP 94253 on methamphetamine self-administration*
R. Garcia, N. Pentkowski, J. Venault, K. Leslie, J. Bonadonna, A. Cotter, M. F. Olive, J. L. Neisewander, School of Life Sciences, Arizona State University, Tempe, AZ

- 3:15 *Ceftriaxone attenuates acute cocaine evoked motor activity and dopaminergic neurotransmission in the dorsal and ventral striatum*
J. L. Barr¹, B. A. Rassmussen¹, C. S. Tallarida¹, J. L. Scholl², G. L. Forster², E. Unterwald¹, S. Rawls¹, ¹Pharmacology and Center for Substance Abuse Research, Temple University, Philadelphia, PA, ²Center for Brain and Behavior Research, The University of South Dakota, Vermillion, SD
- 3:30 *Differential modulation of cocaine-related behaviors consequent to knockdown of serotonin 5-HT_{2C} receptor in the nucleus accumbens shell vs. ventral tegmental area*
S. E. Swinford-Jackson¹, N. C. Anastasio^{1,2}, S. J. Stutz¹, R. G. Fox¹, K. A. Cunningham^{1,2}, ¹Center Addiction Res, University of Texas Medical Branch, Galveston, TX, ²Dept. Pharmacology, University of Texas Medical Branch, Galveston, TX
- 3:45 *Increased cortical excitability in human MDMA users*
R. Cowan¹, M. Dietrich¹, J. Kim², D. Zald², ¹Psychiatric Neuroimaging Program, Vanderbilt University, Nashville, TN, ²Psychology, Vanderbilt University, Nashville, TN

Marian W. Fischman Memorial Award Lecture

**McArthur Ballroom 4
4:30 - 5:30 PM**

Presentation of the Marian W. Fischman Award to Kathleen Brady

Introduction by Sudie Back

Stress and addictions
Kathleen T. Brady

Pre- and Post Doctoral Trainees Networking Event

**Gold
5:30 - 7:00 PM**

Workshop V

**McArthur Ballroom 1/2
7:00 - 9:00 PM**

THE CASE FOR RESCHEDULING PSILOCYBIN AS A TREATMENT MEDICATION: REGULATORY RATIONALE, ABUSE LIABILITY, SAFETY, AND TREATMENT EFFICACY

Chairs: Roland R. Griffiths and Matthew W. Johnson

Psilocybin: Efficacy in treatment of psychological distress in cancer patients and eight-factor analysis of abuse liability under the Controlled Substances Act

Roland R. Griffiths, Johns Hopkins University School of Medicine, Baltimore, MD

National household survey data on suicide-associated correlates of psilocybin use

Peter S. Hendricks, University of Alabama at Birmingham, Birmingham, AL

Psilocybin treatment of tobacco and other addictions

Matthew W. Johnson, Johns Hopkins University, Baltimore, MD

Can there be a role for psilocybin as a medical intervention?

H. Westley Clark, Center for Substance Abuse Treatment, Santa Clara, CA

Workshop VI

McArthur Ballroom 4
7:00 - 9:00 PM

USE OF SBIRT TO ADDRESS ADOLESCENT DRUG ABUSE

Chairs: Ken Winters and Michael L. Dennis

Efficacy study of a SBIRT program in a school setting

Ken Winters, University of Minnesota, Minneapolis, MN

Adolescent SBIRT implementation in pediatric primary care: Patient outcomes in a randomized trial in an integrated health care delivery system

Stacy Sterling, Kaiser Permanente Division of Research, Oakland, CA

A small, randomized comparison of two SBIRT models for increasing treatment engagement among treatment-referred adolescents

Douglas C. Smith, University of Illinois at Urbana-Champaign, Chicago, IL

Brief alcohol interventions for adolescents and young adults: A systematic review and meta-analysis

Emily Tanner-Smith, Vanderbilt University, Nashville, TN

Implications of SBIRT in health service delivery

Michael L. Dennis, Chestnut Health Systems, Normal, IL

Workshop VII

McArthur Ballroom 5/6
7:00 - 9:00 PM

SUBSTANCE ABUSE TREATMENT CLINICAL TRIALS: DOES GENDER MATTER?

Chairs: Shelly F. Greenfield and Carmen Rosa

Stimulant reduction intervention using dosed exercise: Gender differences and treatment acceptability

Therese Killeen, Medical University of South Carolina, Charleston, SC

Gender differences in response to a 12-step engagement intervention: Results of a national drug abuse treatment clinical trials network study

Mary Hatch-Maillette, University of Washington, Seattle, WA

Web-based psychosocial treatment for outpatient substance abuse treatment seekers: Gender differences in acceptability and treatment outcomes

Aimee Campbell, Columbia University College Medical Center, New York, NY

Gender differences in accessing substance abuse treatment following an emergency department SBIRT intervention

Audrey Brooks, University of Arizona, Tucson, AZ

DISCUSSANT: Recent results in the NIDA clinical trials network: Does gender matter?

Shelly F. Greenfield, Harvard Medical School, Boston, MA

Workshop VIII

Grand Ballroom

7:00 - 9:00 PM

INTERVENTION 2.0: USING SOCIAL DIGITAL TOOLS TO REACH DIFFICULT-TO-TREAT SUBSTANCE USERS

Chairs: Danielle Ramo and Suzette Glasner-Edwards

Mobile phone technology targeting relapse prevention and medication adherence among HIV+ substance users

Suzette Glasner-Edwards, University of California Los Angeles Integrated Substance Abuse Programs, Los Angeles, CA

Integrating online monitoring, treatment and social networking into managing binge drinking and depression in young Australians

Frances Kay-Lambkin, University of New South Wales National Drug, Randwick, NSW, Australia

Using social media to recruit parents to a family program to prevent teen drug use

Sabrina Oesterle, University of Washington, Seattle, WA

One-year outcomes from a smoking cessation intervention on Facebook

Danielle Ramo, University of California San Francisco, San Francisco, CA

DISCUSSANT:

Alan J. Budney, Geisel School of Medicine at Dartmouth, Lebanon, NH

Please be advised that no photographing of presentations or data is permitted. Badges must be worn at all times and are required for admission into all events and sessions.

Basic Science

- 100 *Characterization of the lethality and biological safety profiles on rodents of a 10-valent opiate vaccine, the M-TT vaccine*
A. Benito, J. Hernandez-Calderon, R. Acevedo, S. Jacinto, D. Meneses, R. Hernandez-Miramontes, E. Ramos-Ochoa, S. Jacinto, S. Barbosa, J. Calva, M. Matus, A. Flores, A. Salazar. National Institute of Psychiatry, Ramón de la Fuente, Mexico
- 101 *Haloperidol and ketanserine prevent psychosis-like behaviors induced by toluene in rats*
S. Cruz, M. Rivera-García, C. López-Rubalcava. Cinvestav, Mexico
- 102 *Kappa opioid receptor agonist 16-bromosalvinorin A reduces cocaine-seeking in rats*
A. Ewald¹, J. Miller¹, T. Prisinzano², B. Kivell¹. ¹Centre for Biodiscovery, Victoria University of Wellington, New Zealand; ²Department of Medicinal Chemistry, The University of Kansas, United States
- 103 *Abuse liability evaluation of mephedrone in humans*
M. Farré^{1,2}, C. Pérez-Mañá^{1,2}, J. Mateus^{1,2}, M. Pujadas¹, F. Fonseca¹, M. Torrens^{1,2}, R. de la Torre^{1,3}, E. Papaseit^{1,2}. ¹Hospital del Mar Medical Research Institute-IMIM and Drug Addiction Unit, Parc de Salut Mar, Spain; ²Universidad Autónoma de Barcelona, Spain; ³Universidad Pompeu Fabra, Spain
- 104 *Evaluation of dried urine spot method for detection of cotinine among tobacco users*
R. Jain, R. Quraishi, A. Verma. National Drug Dependence Treatment Center, All India Institute of Medical Sciences, India
- 105 *Heterogeneity of heroin dependence and genetic polymorphism of dopamine system*
A. O. Kibitov, V. M. Brodyansky, N. A. Chuprova. National Research Centre on Addictions, Russia
- 106 *Kappa opioid receptor agonist Mesyl Sal B attenuates behavioral sensitization to cocaine with fewer aversive side effects*
B. M. Kivell¹, A. S. Morani¹, A. Culverhouse¹, T. E. Prisinzano². ¹School of Biological Science, Centre for Biodiscovery, Victoria University of Wellington, New Zealand; ²Department of Medicinal Chemistry, The University of Kansas, United States
- 107 *Decreased thalamocortical connectivity in chronic ketamine users: Implications for schizophrenia*
Y. Liao¹, M. Song², J. Tang¹, J. Liu³, M. Yang^{1,4,5}, M. Ma⁶, X. Wang¹, Q. Deng¹, H. Chen¹, X. Xiang¹, T. Liu¹, X. Chen¹, W. Hao¹. ¹Mental Health Institute, the Second Xiangya Hospital of Central South University, China; ²Brainnetome Center and National Laboratory of Pattern Recognition, Institute of Automation, Chinese Academy of Sciences, China; ³The People's Hospital of Hunan Province, China; ⁴Department of Addiction Medicine, Hunan Brain Hospital, China; ⁵School of Public Health, Central South University, China; ⁶The Kangda Voluntary Drug Rehabilitation Centers in Hunan Province, China
- 108 *The M-TT vaccine preserves its immunogenic efficacy to trigger humoral immune responses in compromised opiate-immunodepressed rodents*
S. Martiñon, R. Hernandez-Miramontes, R. Acevedo, E. Ramos-Ochoa, J. Hernandez-Calderon, S. Jacinto, J-C. Calva, M. Matus, B. Anton. National Institute of Psychiatry, Ramón de la Fuente, Mexico

- 109 *Development of a combination heroin-HIV vaccine*
G. R. Matyas¹, R. Jalah², O. B. Torres², F. Li^{3,4}, J. F. G. Antoline^{3,4}, Z. Beck², A. E. Jacobson^{3,4}, K. C. Rice^{3,4}, C. R. Alving¹. ¹U.S. Military HIV Research Program, Walter Reed Army Institute of Research, United States; ²U.S. Military HIV Research Program, Henry M. Jackson Foundation for the Advancement of Military Medicine, United States; ³National Institute on Drug Abuse, National Institutes of Health (NIH), United States; ⁴National Institute on Alcohol Abuse and Alcoholism, NIH, United States
- 110 *Association between crack addiction and the intron 8 variable number of tandem repeats polymorphism of the DAT1 gene*
D. Müller¹, A. R. Stolf², G. C. Akutagava-Martins¹, L. S. P. Guimaraes², F. H. P. Kessler², F. Pechansky², T. Roman¹. ¹Department of Genetics, Federal University of Rio Grande do Sul, Brazil; ²Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Brazil
- 111 *Reacquisition of cocaine-conditioned place preference and its inhibition by previous social interaction preferentially affect D1-medium spiny neurons in the accumbens corridor*
J. M. Prast¹, A. Schardl¹, C. Schwarzer¹, G. Dechant¹, A. Saria¹, G. Zernig^{1,2}. ¹Innsbruck Medical University, Austria; ²Leopold-Franzens University of Innsbruck, Austria
- 112 *Effect of nalbuphine on plasma corticosterone levels and opiate withdrawals*
R. Raghav, R. Jain, T. S. Roy, A. Dhawan, P. Kumar. National Drug Dependence Treatment Centre, All India Institute of Medical Sciences, India
- 113 *Cannabis users show increased susceptibility to false memories*
J. Riba¹, F. Sampedro², A. Rodríguez-Pujadas¹, S. Martínez-Horta¹, J. Kulisevsky¹, J. Pérez de los Cobos³, A. Rodríguez-Fornells², M. Valle¹. ¹Human Neuropsychopharmacology Group, Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, Spain; ²Universidad de Barcelona, Spain; ³Hospital de la Santa Creu i Sant Pau, Spain
- 114 *Overexpression of GRP78 confers protection against neurocognitive impairment in HIV-infected polydrug users*
M. Rodriguez, S. Lopez, M. Rivera, K. Narvaez, L. Cubano, E. Rios, N. Boukli. Universidad Central del Caribe Medical School, United States
- 115 *Role of DJ1 gene in cocaine addiction and HIV-associated cognitive impairment*
U. Roy, V. Atluri, M. Agudelo, M. Nair. Herbert Wertheim College of Medicine, Florida International University, United States
- 116 *Khat synergizes gentamicin-induced nephrotoxicity in rats: Drug of abuse beyond addiction*
Z. S. Sabe¹, E. Engidawork². ¹College of Medicine and Health Sciences, University of Gondar, Ethiopia; ²College of Medicine and Health Sciences, Addis Ababa University, Ethiopia
- 117 *Immunopharmacological characterization of combination use of two structurally related tetanus toxoid-based morphine vaccines*
A. Salazar, J. Hernandez-Calderon, S. Barbosa, R. Hernandez-Miramontes, R. Acevedo, E. Ramos-Ochoa, S. Jacinto, J. Calva, D. Meneses, I. Feregrino Marta, C. Martinez, M. Matus, A. Flores, S. Martiñon, A. Benito. National Institute of Psychiatry, Ramón de la Fuente, Mexico
- 118 *Effects of khat (Catha edulis Forsk) on electrophysiologic properties of the heart and of lung function indices*
Y. M. Sewiye. Jimma University, Ethiopia

- 119 *Clinical characteristics and genotype frequencies of the dopamine transporter gene (DAT1/SLC6A3) 3'UTR variable number of tandem repeats in crack cocaine users*
A. R. Stolf¹, G. C. Akutagava-Martins², D. Müller², L. S. P. Guimaraes¹, F. Pechansky¹, T. Roman², F. H. P. Kessler¹. ¹Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Brazil; ²Department of Genetics, Federal University of Rio Grande do Sul, Brazil
- 120 *Effect of hapten density on the induction of antibodies to heroin hapten-protein conjugates*
O. B. Torres^{1,2}, R. Jalah^{1,2}, F. Li^{3,4}, J. F. G. Antoline^{3,4}, Z. Beck^{1,2}, A. E. Jacobson^{3,4}, C. R. Alving¹, K. C. Rice^{3,4}, G. R. Matyas¹. ¹U.S. Military HIV Research Program, Walter Reed Army Institute of Research, United States; ²U.S. Military HIV Research Program, Henry M. Jackson Foundation for the Advancement of Military Medicine, United States; ³National Institute on Drug Abuse, National Institutes of Health (NIH), United States; ⁴National Institute on Alcohol Abuse and Alcoholism, NIH, United States
- 121 *Assessment of Oxidative DNA damage biomarker 8-hydroxy-2'-deoxyguanosine among adolescent inhalant users*
A. Verma¹, R. Jain¹, A. Dhawan¹, R. Lakshmy². ¹National Drug Dependence Treatment Center, All India Institute of Medical Sciences, India; ²Department of Cardiac Biochemistry, All India Institute of Medical Sciences, India
- 122 *VTA glutamate neurons that co-release GABA can be excitatory or inhibitory*
V. Zell, J. H. Yoo, N. Guterrez-Reed, K. Fife, T. S. Hnasko. University of California San Diego, United States

Epidemiology

- 200 *Screening substance use among college and faculty students in Bucharest*
A. O. Abagiu, M. I. Maftai, A. Atomoaie, I. T. Niculescu. National Institute for Infectious Diseases Prof. Dr. Matei Bals, Romania
- 201 *Differences in tobacco use, attitude, and knowledge among young Jordanians*
M. Abdoh¹, R. M. Jones². ¹Humphrey Fellowship Program, Virginia Commonwealth University, United States; ²School of Medicine and Massey Cancer Center, Virginia Commonwealth University, United States
- 202 *Low threshold methadone protects against HIV incidence in a Canadian setting*
K. Ahamad^{1,2}, K. Hayashi², P. Nguyen², S. Dobrer², T. Kerr^{1,2}, J. Montaner², E. Wood^{1,2}. ¹University of British Columbia, Canada; ²British Columbia Centre for Excellence in HIV/AIDS, Canada
- 203 *Effect of Gaza 2014 war on use of smoking, tramadol, and psychoactive drugs among university students*
M. F. Afifi¹, M. Sakka², M. Shehada¹, R. Afifi¹. ¹Substance Abuse Research Center, Palestinian Territories; ²Al-Azhar University, Palestinian Territories
- 204 *Findings from the Inaugural Iraqi Community Epidemiological Workgroup on Substance Use*
N. Al Hemiary¹, A. Abutiheen², E. Abdulrazzaq³, M. Al-Hachami¹, R. Dabbagh⁴, A. Hasson⁴, V. Antonini⁴, R. Rawson⁴. ¹College of Medicine, University of Baghdad, Iraq; ²College of Medicine, Karbala University, Iraq; ³Ministry of Health, Iraq; ⁴Integrated Substance Abuse Programs, University of California, Los Angeles, United States
- 205 *Age of first use and drug dependence: Data from 617 consecutively ascertained subjects*
S. Bacciardi^{1,2}, A. G. I. Maremmanni^{1,2}, E. Butelman², B. Ray², E. Ducat², M. J. Kreek². ¹“VP Dole” Dual Diagnosis Unit, Santa Chiara University Hospital of Pisa, Italy; ²Laboratory of the Biology of Addictive Diseases, The Rockefeller University, United States

- 206 *Size estimation of injecting drug users in Sri Lanka*
A. I. Bandara. National Dangerous Drugs Control Board (retired), Sri Lanka
- 207 *Second online survey on drug use in college students at a private university in El Salvador*
F. Bautista Pérez. Universidad Evangélica de El Salvador, El Salvador
- 208 *The use of new psychoactive substances in Belgium: A worrying phenomenon*
P. Blanckaert¹, T. Windelinckx², K. Maudens³. ¹Belgian Early Warning System Drugs, Belgium; ²Free Clinic Needle Exchange–Antwerp, Belgium; ³Toxicological Center, Antwerp University, Belgium
- 209 *Pharmaceutical opioid use and dependence among people living with chronic pain: Associations observed within the Pain and Opioids IN Treatment (POINT) cohort*
G. Campbell¹, S. Nielsen^{1,2}, B. Larance¹, R. Bruno^{1,3}, R. Mattick¹, W. Hall⁴, N. Lintzeris^{2,5}, M. Cohen⁶, K. Smith¹, L. Degenhardt^{1,7,8,9}. ¹National Drug and Alcohol Research Centre, University of New South Wales (UNSW), Australia; ²School of Medicine, University of Tasmania, Australia; ³The Langton Centre, South East Sydney Local Health District Drug and Alcohol Services, Australia; ⁴St. Vincent's Clinical School, UNSW Medicine, Australia; ⁵Sydney Medical School, Sydney University, Australia; ⁶Black Dog Institute, UNSW, Australia; ⁷Centre for Youth Substance Abuse Research, University of Queensland, Australia; ⁸National Addiction Centre, King's College London, England; ⁹School of Population and Global Health, University of Melbourne, Australia
- 210 *Characteristics of pregnant women who smoke in Guadalajara, Mexico*
O. Campollo^{1,2}, F. Hernandez Mora², E. Angulo², A. Guzman², A. Munguía², M. García², J. K. Cunningham³. ¹Center of Studies on Alcohol and Addictions, CUCS, Universidad de Guadalajara, Mexico; ²Hospital Civil de Guadalajara, Mexico; ³Department of Family and Community Medicine, University of Arizona, United States
- 211 *Dimensional and categorical phenotypes of opioid use disorder criteria among frequent nonmedical prescription opioid users: Investigating sociodemographic, psychiatric, and source correlates*
J. M. Castaldelli-Maia^{1,2,3}, L. H. Andrade¹, K. M. Keyes⁴, M. Cerdá⁴, D. J. Pilowsky^{4,5}, S. S. Martins⁴. ¹Section of Psychiatric Epidemiology, Department and Institute of Psychiatry, University of São Paulo Medical School, Brazil; ²Interdisciplinary Group of Studies on Alcohol and Drugs, Department and Institute of Psychiatry, University of São Paulo Medical School, Brazil; ³Department of Neuroscience, Medical School, Fundação do ABC, Brazil; ⁴Department of Epidemiology, Mailman School of Public Health, Columbia University, United States; ⁵New York State Psychiatric Institute, United States
- 212 *Study of socio-demographic profile and correlates of injection drug use among children in India*
B. Chatterjee, A. Dhawan, A. Chopra, R. Bhargawa, R. D. Pattanayak. National Drug Dependence Treatment Centre and Department of Psychiatry, All India Institute of Medical Sciences, India
- 213 *New epidemiological evidence on coca leaf chewing and a dependence syndrome in 2008*
V. Cruz^{1,2,3}, J. C. Anthony^{1,2}. ¹Department of Epidemiology, Michigan State University, United States; ²School of Public Health, Cayetano Heredia University, Peru; ³Peruvian National Institute of Mental Health, Peru

- 214 *Substance use and adherence among HIV-infected persons receiving antiretroviral therapy in Latin America*
R. B. De Boni¹, B. E. Shepherd², B. Grinsztejn¹, C. Cesar³, C. Cortés⁴, D. Padgett⁵, E. Gotuzzo⁶, F. Belaunzarán⁷, S. Duda², C. McGowan², The Caribbean, Central and South America Network for HIV Research (CCASAnet)⁸. ¹Instituto de Pesquisa Clínica Evandro Chagas - Fundação Oswaldo Cruz, Brazil; ²Vanderbilt University, United States; ³Fundación Huésped, Argentina; ⁴Fundación Arriaran, Chile; ⁵Instituto Hondureño de Seguridad Social and Hospital Escuela, Tegucigalpa, Honduras; ⁶Universidad Peruana Cayetano Heredia, Lima; ⁷Instituto Nacional de Ciencias Médicas y Nutrición Salvador Zubirán, Mexico; ⁸CCASAnet, Vanderbilt University, United States
- 215 *Experience of adjunctive cannabis use for chronic noncancer pain: Findings from the Pain and Opioids IN Treatment (POINT) study*
L. Degenhardt^{1,2}, N. Lintzeris^{3,4}, G. Campbell¹, R. Bruno^{1,5}, M. Cohen⁶, M. Farrell¹, W. Hall^{7,8}. ¹National Drug and Alcohol Research Centre, University of New South Wales, Australia; ²School of Population and Global Health, University of Melbourne, Australia; ³Discipline of Addiction Medicine, University of Sydney (UNSW), Australia; ⁴The Langton Centre, South East Sydney Local Health District Drug and Alcohol Services, Australia; ⁵School of Medicine, University of Tasmania, Australia; ⁶St. Vincent's Clinical School, UNSW Medicine, Australia; ⁷Centre for Youth Substance Abuse Research, University of Queensland, Australia; ⁸National Addiction Centre, King's College London, England
- 216 *Increase in prevalence of marijuana use among university students in Bolivia, Colombia, Ecuador, and Peru*
M. Demarco¹, M. Hynes¹, J. C. Araneda², F. Cumsille¹. ¹Inter-American Observatory on Drugs, Inter-American Drug Abuse Control Commission, Organization of American States, United States; ²Global Synthetics Monitoring: Analyses, Reporting and Trends Programme (SMART)-Latin America, United Nations Office on Drugs and Crime, Switzerland
- 217 *Study of socio-demographic profiles and correlates of inhalant use among children in India*
A. Dhawan, B. Chatterjee, A. Chopra, R. Bhargawa, R. D. Pattanayak. National Drug Dependence Treatment Centre and Department of Psychiatry, All India Institute of Medical Sciences, India
- 218 *Three rounds of integrated bio-behavioral surveillance confirm declining HIV prevalence among people who inject drugs (PWID) in Ukraine*
K. Dumchev¹, T. Salyuk², Y. Sazonova². ¹Institute on Public Health Policy, Ukraine; ²International HIV/AIDS Alliance-Ukraine, Ukraine
- 219 *Use patterns of tobacco and nicotine-containing products among college students in the United States*
O. El-Shahawy¹, S. Cho², A. McGann³, K. Hill³. ¹School of Medicine, Virginia Commonwealth University, United States; ²Virginia Institute for Psychiatric and Behavioral Genetics, Virginia Commonwealth University, United States; ³Wellness Resource Center, Virginia Commonwealth University, United States
- 220 *Aspects of substance abuse among adolescents detained in a juvenile delinquency institution in Upper Egypt*
A. A. Elkoussi¹, T. S. Bakheet², S. H. Bakheet². ¹Department of Pharmacology, College of Medicine, Assiut University, Egypt; ²Department of Sociology, College of Arts, Assiut University, Egypt

- 221 *Mortality and cannabis detection in a cohort of patients with opiate, cocaine, and alcohol dependence*
D. Fuster^{1,2}, A. Sanvisens^{1,2}, P. Zuluaga^{1,2}, J. Tor^{1,2}, I. Rivas³, R. Muga^{1,2}. ¹Internal Medicine Service. Hospital Germans Trias i Pujol, Spain; ²Universitat Autònoma de Barcelona, Spain; ³Municipal Centre for Substance Abuse Treatment, Centro Delta, IMSP, Spain
- 222 *Mixed drug intake and its dosage as a predictor of mental health status, Bahir-Dar, North West Ethiopia*
A. G. Gebresilus. College of Education and Behavioral Studies, Addis Ababa University, Ethiopia
- 223 *ASSIST in HIV/AIDS service settings: Comparison of self-screening and peer-support screening method*
L. M. Giang¹, H. Nguyen¹, H. Tran¹, G. Bart², T. Rieckmann³, H. Tran¹, K. Darfler⁴, R. Rawson⁴. ¹Hanoi Medical University, Viet Nam; ²Department of Medicine, Hennepin County Medical Center, United States; ³School of Public Health, Oregon Health & Science University, United States; ⁴Integrated Substance Abuse Programs, University of California, Los Angeles, United States
- 224 *Occupational and demographic factors associated with drug use among female sex workers in Burma (Myanmar)*
K. Hail-Jares¹, S. Choi¹, J. Huang¹, L. Duo², Z. Luo². ¹Department of International Health, School of Nursing and Health Studies, Georgetown University, United States; ²Yundi Harm Reduction Network, China
- 225 *Naloxone in Egypt—availability and challenges*
W. Hassan^{1,2}, R. Naguib¹. ¹Institute of Psychiatry, Ain Shams University, Egypt; ²Hubert H. Humphrey Fellowship Program, Virginia Commonwealth University, United States
- 226 *Drug use trends among Israeli school dropouts based on gender and country of origin status: A 10-year study (2004–2013)*
R. Isralowitz, A. Reznik. Regional Alcohol and Drug Abuse Research Center, Spitzer Department of Social Work, Ben Gurion University, Israel
- 227 *Piloting of ASSIST screening tool for identification of alcohol, tobacco, and drug use in pregnancy in two cities of Ukraine*
T. Kiriazova¹, T. Tarasova², O. Makarenko¹, O. Zeziulin¹, V. Martsinovskaya³, S. Dvoriak¹. ¹Ukrainian Institute on Public Health Policy, Ukraine; ²UNICEF, Ukraine; ³Ukrainian Center for Socially Dangerous Disease Control, Ministry of Health, Ukraine
- 228 *Transition from heroin use to dependence and treatment seeking among an opioid-dependent sample*
B. Larance¹, E. Cama¹, N. Gisev¹, E. Nelson², L. Degenhardt¹. ¹National Drug and Alcohol Research Centre, University of New South Wales, Australia; ²Washington University in St. Louis, United States
- 229 *Diagnosis of hepatitis C virus infection after entry to opioid substitution therapy: A 15-year observational cohort study*
S. Larney¹, J. Grebely², M. Falster^{3,4}, A. Swart⁴, J. Amin², L. Degenhardt¹, L. Burns¹, C. M. Vajdic⁴. ¹National Drug and Alcohol Research Centre, University of New South Wales (UNSW), Australia; ²The Kirby Institute, UNSW, Australia; ³Centre for Health Research, University of Western Sydney, Australia; ⁴Prince of Wales Clinical School, UNSW, Australia
- 230 *Risk of schizophrenia in marijuana users: Findings from a nationwide sample of drug users in Chile*
N. Libuy, V. Angel, C. Ibáñez. Department of Psychiatry and Mental Health North, Clinical Hospital, University of Chile, Chile

- 231 *A pre-post comparison in health care service utilization among heroin-using women in methadone maintenance treatment in Taiwan*
Y-T. Lien^{1,2}, H-H. Yeh³, S-Y. Fang^{1,2}, C-Y. Chen^{1,2}. ¹Institute of Public Health, National Yang-Ming University, Taiwan; ²Center for Neuropsychiatric Research, National Health Research Institutes, Taiwan; ³Department of Epidemiology and Biostatistics, Michigan State University, United States
- 232 *Performance of lay outreach workers in a needle exchange program in China*
W. Liu^{1,2}, H. Li³, L. Duo⁴, Z. Luo², J. Yang², H. Xue², L. Yang², Z. K. Hail-Jares⁵, J. Huang⁵. ¹School of Public Health, Kunming Medical University, China; ²Kunming Yundi Behavior and Health Research Center, China; ³Yunnan Provincial Center for Disease Prevention and Control, China; ⁴Second People's Hospital of Yunnan Province, China; ⁵Department of International Health, Georgetown University, United States
- 233 *Gender differences in methamphetamine use in a Mexico-U.S. border city*
O. Loza¹, J. Ferreira-Pinto¹, R. Ramos², M. E. Ramos Rodriguez³. ¹University of Texas-El Paso, United States; ²Alliance Border Collaboratives, United States; ³Instituto Nacional de Psiquiatría, Ramón de la Fuente Muñiz, México
- 234 *Substance-related disorders among patients with human immunodeficiency virus: An analytical study*
S. T. Mahmud. Bogra Anti-Drug Society, Bangladesh
- 235 *Psychiatric diagnoses in a cohort of normal volunteers and drug-dependent subjects: Comparative data from 617 consecutive subjects*
A. G. I. Maremmani^{1,2}, S. Bacciardi^{1,2}, E. Butelman², B. Ray², E. Ducat², M. J. Kreek². ¹“VP Dole” Dual Diagnosis Unit, Santa Chiara University Hospital of Pisa, Italy; ²Laboratory of the Biology of Addictive Diseases, The Rockefeller University, United States
- 236 *Application of outreach strategies to international collaborative research*
H. V. McCoy¹, A. J. M. Bengoa², A. J. Mendez², J. M. Shultz², D. C. McBride³, R. Achi⁴, S. Lai⁵, M. Zhao⁶, J. Cordova¹. ¹Florida International University, United States; ²University of Miami, United States; ³Andrews University, United States; ⁴University of Costa Rica, Costa Rica; ⁵Johns Hopkins University, United States; ⁶Shanghai Mental Health Center, China
- 237 *Pathways from Gini (index) and neighborhood characteristics to children's drug use: Multinational study*
K. Miyamoto^{1,2}. ¹School of Medicine, University of Tokyo, Japan; ²School of Public Health, Drexel University, United States
- 238 *Drug abuse in Afghanistan also includes problems with children under 15*
A. S. Momand^{1,2}. ¹Hubert H. Humphrey Fellowship Program, Virginia Commonwealth University, United States; ²Drug Demand Reduction Consultant, Afghanistan
- 239 *Predictors of early relapse in adolescent crack users after hospital discharge*
H. Moura¹, R. Rosa¹, F. Kessler¹, T. G. Pianca¹, L. Guimarães¹, P. Ferronato¹, E. Pagnussat², F. Pechansky¹, L. von Diemen¹. ¹Center for Drug and Alcohol Research Hospital de Clínicas de Porto Alegre, Federal University of Rio Grande do Sul, Brazil; ²Pontifical Catholic University of Rio Grande do Sul, Brazil
- 240 *Sex-specific disease outcomes of HIV-positive patients in a methadone treatment program with access to cART*
R. Muga^{1,2}, I. Rivas³, E. Faure³, D. Fuster^{1,2}, P. Zuluaga^{1,2}, J. L. García-Medina^{1,4}, J. Tor^{1,2}, A. Sanvisens¹. ¹Department of Internal Medicine, Hospital Universitari Germans Trias i Pujol, Spain; ²Universitat Autònoma de Barcelona, Spain; ³Municipal Center for Substance Abuse Treatment, Centro Delta, IMSP, Spain; ⁴Escuela Superior de Medicina, Instituto Politécnico Nacional, México

- 241 *Measuring stigma associated with opioid drug use*
T. Mukherjee¹, J. Wickersham², V. Earnshaw², F. L. Altice^{1,2,3}, A. B. Kamarulzaman^{2,3}.
¹School of Public Health, Yale University, United States; ²School of Medicine, Section of Infectious Diseases, AIDS Program, Yale University, United States; ³Universiti of Malaya, Centre of Excellence for Research in AIDS, Malaysia
- 242 *Effect of negative affect regulation and impulsivity on food addiction in a sample of Egyptian females*
R. Naguib, A. Omar, A. ElRasheed, H. Azzam, D. ElSerafi. University of Ain Shams, Egypt
- 243 *Substance abuse prevalence in Karachi and services by Drug Free Pakistan Foundation*
F. Naveed^{1,2}. ¹Drug Free Pakistan Foundation, Pakistan; ²Hubert H. Humphrey Fellowship Program, Virginia Commonwealth University, United States
- 244 *Internalizing and externalizing disorders as risk factors for the increase of cannabis use and the onset and stability of cannabis use disorders: A systematic review of cohort studies from the general population*
M. Neumann¹, S. Behrendt¹, A. Perkonig², G. Bühringer¹. ¹Addiction Research Unit, Institute for Clinical Psychology and Psychotherapy, Dresden University of Technology, Germany; ²Psychopathology and Clinical Intervention Unit, Department of Psychology, University of Zurich, Switzerland
- 245 *Substance dependence criteria, not substance use, associated with HIV virologic control*
S. Nolan¹, A. Y. Walley², T. C. Heeren², G. J. Patts², A. S. Ventura², M. Sullivan², J. H. Samet², R. Saitz². ¹Department of Medicine, University of British Columbia, Canada; ²Boston University, United States
- 246 *Use of substance “h” (heroin) among students in Ecuador: Findings from qualitative research in five school systems in Guayaquil and two school systems in Santa Elena*
D. Oceña¹, J. Paspuel¹, S. Almeida¹, P. Jacobs². ¹National Observatory, Consejo Nacional de Sustancias Estupefacientes y Psicotrópicas del Ecuador, Ecuador; ²The Catholic University de Santiago in Guayaquil, Ecuador
- 247 *Illicit drug use in Nigeria: Recent findings from the National Survey on Alcohol and Drug Use*
A. Ogunwale, T. A. Adamson, A. O. Ogunlesi, A. O. Akinhanmi, P. O. Onifade, E. B. Somoye. Neuropsychiatric Hospital, Nigeria
- 248 *Use of marijuana and expression of antisocial behavior among young people in urban Nigeria*
M. O. Onoja¹; K. A. Raphael²; A. Okoh³; J. A. Ocheh⁴. ¹National Primary Health Care Development Agency, Nigeria; ²Dunamis Christian Academy, Nigeria; ³Paths Educational Centre, Nigeria; ⁴Young People’s Home, Nigeria
- 249 *Pattern of psychoactive substance use among long-distance commercial drivers in Calabar metropolis, Cross River State*
T. Onyuku. Federal Neuropsychiatric Hospital–Calabar Cross River State, Nigeria
- 250 *Drug use and injection practices in Tajikistan: Qualitative study in Kulob and Khorog*
D. Otiashvili¹, A. Latypov², U. Ibragimov³, I. Kirtadze¹, W. Zule⁴. ¹Addiction Research Center, Alternative Georgia, Georgia; ²Management Sciences for Health, Leadership, Management and Governance, Ukraine; ³Laney Graduate School, Emory University, United States; ⁴RTI International, United States
- 251 *Crack users with conduct disorder have greater association with violence, trauma, and psychiatric comorbidities*
M. P. Pachado, D. S. Souza, J. N. Scherer, F. Pechansky, F. H. P. Kessler, S. Faller. Center for Alcohol and Drugs Research, Federal University of Rio Grande do Sul, Brazil

- 252 *Cocaine base paste use in South America: Review of epidemiological and toxicological aspects.*
A. Pascale¹, M. Hynes², F. Cumsille², C. B. Bares³. ¹Red Latinoamericana de Investigadores en Drogas (REDLA) Network, Uruguay; ²Inter-American Observatory on Drugs, Inter-American Drug Abuse Control Commission, Organization of American States, United States; ³School of Social Work, Virginia Commonwealth University, United States
- 253 *Comparison of DUI prevalences among fatal, nonfatal, and roadside samples of Brazilian drivers*
F. P. Pechansky, L. Von Diemen, A. O. Sordi. Center for Drug and Alcohol Studies, Federal University of Rio Grande do Sul, Hospital de Clínicas de Porto Alegre, Brazil; Secretariat for Drug and Alcohol Policies (SENAD) Collaborating Center on Alcohol and Drugs, Brazil
- 254 *Transition from first substance use to crack cocaine: Predictors of faster addiction progression and clinical characteristics in crack cocaine adolescent users*
T. G. Pianca¹, R. L. Rosa², A. P. de Assis Begnis³, P. B. Ferronato¹, M. C. Jensen³, L. A. P. Rohde¹, F. Pechansky¹, C. M. Szobot¹. ¹Hospital de Clínicas de Porto Alegre, Universidade Federal do Rio Grande do Sul, Brazil; ²Hospital Psiquiátrico São Pedro, Brazil; ³Universidade Luterana do Brasil, Brazil
- 255 *Methamphetamine use among Iranian patients in methadone maintenance treatment: Is this a threat?*
S. R. Radfar^{1,2}, U. S. Warda¹, R. Rawson¹. ¹Integrated Substance Abuse Programs, University of California, Los Angeles, United States; ²Thought, Culture and Health (ROOZBEH) Institute, Iran
- 256 *Association of alcohol use with drug use and weapon carrying among Thai adolescents*
O. Saiphoklang^{1,2}, K. Wongboonsin^{1,2}, P. Wongboonsin¹, U. Perngarn¹, L. B. Cottler^{1,2}. ¹College of Population Studies, College of Public Health Sciences, Chulalongkorn University, Thailand; ²Substance Abuse Training Center in Public Health, University of Florida, United States

E. Ngjelina, A. Edwards, D. Pomm, K. Polak, C. Wagner, K. Kendler, D. Svikis. Virginia Commonwealth University, United States
- 534 *An Australian cohort of pharmaceutical opioid users in treatment*
S. Nielsen^{1,2}, B. Larance¹, N. Lintzeris^{2,3}, S. Holliday⁴, M. Vanderhaven¹, G. Lattas¹, A. Hordern¹, A. Dunlop^{4,5}, P. Haber^{3,6}, B. Murnion^{3,6}, C. Silsbury⁷, J. Johnson⁸, A. Demirko^{2,9}, C. Sadler^{4,5,9}, N. Phung⁷, L. Burns¹, R. Mattick¹, G. Campbell¹, M. Farrell¹, M. Cohen^{10,11}, R. Bruno¹², M. Hardy¹³, A. Brown⁴, J. Houseman¹³, L. Degenhardt¹. ¹National Drug and Alcohol Research Centre, University of New South Wales, Australia; ²The Langton Centre, South East Sydney Local Health District Drug and Alcohol Services, Australia; ³Discipline of Addiction Medicine, University of Sydney, Australia; ⁴Drug and Alcohol Clinical Services, Hunter New England Local Health District, Australia; ⁵University of Newcastle, Australia; ⁶Royal Prince Alfred Hospital, Australia; ⁷Drug Health Service, Western Sydney Local Health District, Australia; ⁸University Centre for Rural Health, Australia; ⁹Cavalry Mater Hospital, Australia; ¹⁰University of New South Wales, Australia; ¹¹St Vincent's Hospital, Australia; ¹²University of Tasmania, Australia; ¹³Drug and Alcohol Services, Northern Sydney Local Health District, Australia
- 535 *Does cue exposure treatment improve outcomes in smoking cessation treatment? A controlled trial*
I. Pericot-Valverde, O. García-Rodríguez, C. López-Núñez, S. Weidberg-López, R. Secades-Villa. University of Oviedo, Spain

- 536 *Early mortality after entering a methadone treatment program in Badalona, Spain*
I. Rivas¹, A. Sanvisens², E. Faure¹, D. Fuster², T. Muñoz¹, R. Manoli¹, R. Muga². ¹Municipal Center for Substance Abuse Treatment, IMSP, Spain; ²Department of Internal Medicine, Hospital Universitari Germans Trias i Pujol, Universitat Autònoma de Barcelona, Spain
- 537 *Overlap between food addiction and DSM-5 eating disorders in a treatment-seeking sample*
M. C. Rosa^{1,2}, J. Collombat², C. M. Denis^{2,3}, J. Alexandre², F. Serre², M. Auriacombe², M. Fatseas². ¹Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Brazil; ²Addiction Psychiatry, USR3413, CNRS, Université Bordeaux, France; ³University of Pennsylvania, United States
- 538 *Higher levels of brain-derived neurotrophic factor associated with inpatient treatment adherence of crack cocaine users*
J. N. Scherer, S. Schuch, F. Ornell, A. A. O. Sordi, F. H. P. Kessler, L. von Diemen, F. Pechansky. Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Hospital de Clínicas of Porto Alegre, Brazil
- 539 *Electronic tool for opioid substitution treatment (OST) data collection, processing, and analysis based on the data management platform "SYREX"*
A. Shost, Z. Islam, S. Filippovych, V. Kolomiets. ICF "International HIV/AIDS Alliance–Ukraine," Ukraine
- 540 *HIV/AIDS and opioid use: Current situation in Indonesia*
Z. Syarif¹, R. Sarasvita², M. Chawarski³. ¹Psychiatry Department, University of Indonesia, Indonesia; ²National Narcotics Board (BNN), Indonesia; ³Psychiatry Department, School of Medicine, Yale University, United States
- 541 *Guidelines for establishment and licensing of treatment and rehabilitation centers in Ghana*
F. K. Torkornoo. Demand Reduction Division, Narcotics Control Board, Ghana
- 542 *Opioid substitution treatment in Spain: 20 years of experience in harm reduction programs*
M. Torrens^{1,2,3}, F. Fonseca^{1,2}, C. Castillo^{1,2}, A. Domingo-Salvany². ¹Institut de Neuropsiquiatria i Addiccions–Parc de Salut Mar, Spain; ²Institut Hospital del Mar d'Investigacions Mèdiques, Spain; ³Psychiatry Department, Autonomous University of Barcelona, Spain
- 543 *Patient preference and willingness to pay for stand-alone, integrative, and satellite models of dispensing methadone for the treatment of opioid dependence in Vietnam*
B. X. Tran^{1,2}, C. A. Latkin². ¹Institute for Preventive Medicine and Public Health, Hanoi Medical University, Vietnam; ²Bloomberg School of Public Health, Johns Hopkins University, United States
- 544 *Effects of fixed or self-titrated dosages of Sativex on cannabis users*
J. M. Trigo¹, D. Lagzdins¹, J. Rehm², P. Selby³, I. Gamaledin¹, B. Fischer^{2,4}, A. J. Barnes¹, M. Huestis⁵, B. Le Foll^{1,3}. ¹Translational Addiction Research Laboratory, Campbell Family Mental Health Research Institute, Centre for Addiction and Mental Health (CAMH), Canada; ²Social and Epidemiological Research, CAMH, Canada; ³Ambulatory Care and Structured Treatments, CAMH; ⁴Faculty of Health Sciences, Simon Fraser University, Canada; ⁵National Institute on Drug Abuse, National Institutes of Health, United States
- 545 *Factors associated with illicit methadone injecting in a Canadian setting*
D. Tucker¹, M-J. Milloy^{1,2}, K. Hayashi^{1,2}, R. Lung¹, P. Nguyen¹, T. Kerr^{1,2}, E. Wood^{1,2}. ¹British Columbia Centre for Excellence in HIV/AIDS, St. Paul's Hospital, Canada; ²Department of Medicine, University of British Columbia, Canada

- 546 *Cannabidiol attenuates the increased susceptibility to false memories produced by tetrahydrocannabinol*
M. Valle¹, L. C. Martial¹, M. Garrido¹, A. Rodríguez-Fornells², M. Punes¹, R. M. Antonijoan³, J. Claramunt¹, D. Martínez¹, M. González¹, M. Martínez¹, J. Pérez de los Cobos³, J. Riba¹.
¹Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau, Spain; ²Universidad de Barcelona, Spain; ³Hospital de la Santa Creu i Sant Pau, Spain
- 547 *Aripiprazole and risperidone in treatment of methamphetamine-associated psychosis in China: A pilot randomized study*
G. Wang¹, Y. Zhang², S. Zhang², H. Chen², Z. Xu², W. Hao¹, M. C. Chawarski³. ¹Mental Health Center, The Second Xiangya Hospital, China; ²Wuhan Mental Health Center, China; ³Department of Psychiatry, School of Medicine, Yale University, United States
- 548 *Take-home naloxone training: Comparing the effects on knowledge and attitudes between family members and drug users*
A. V. Williams, J. Marsden, J. Strang. Institute of Psychiatry, Psychology and Neuroscience, Department of Addictions, King's College London, United Kingdom
- 549 *Cognitive impairments and psychological well-being of methamphetamine addicts*
N. Zhong, H. Jiang, J. Du, Y. Zhao, C. Li, W. Zhuang, X. Li, W. Wang, M. Zhao. Shanghai Mental Health Center, School of Medicine, Shanghai Jiaotong University, China

CPDD/INRC Plenary

**AZ Biltmore Ballroom
8:00 - 9:00 AM**

Drug abuse and addiction research: progress, priorities and challenges
Nora Volkow, Director, National Institute on Drug Abuse

INRC Session 1

**Grand Ballroom
9:00 - 10:00 AM**

ADDICTION TO PRESCRIPTION OPIOIDS

Chair: Fred Nyberg

Prescription opioid abuse and dependence in Scandinavian Countries
Thomas Clausen, University of Oslo, Norway, Sweden

Addiction and diversion of prescription opioids in Europe
Gabriele Fischer, Medical University of Vienna, Norway, Sweden

Nonmedical prescription opioid use in North America
Pauline Voon, St. Paul's Hospital, Vancouver, BC, Canada

Policy Forum

**AZ Biltmore Ballroom
9:30 - 11:30 AM**

Chairs: William L. Dewey and Martin Y. Iguchi

Introduction:
William L. Dewey, VCU, Richmond, VA

Speaker: Update from Capitol Hill
Ed Long, Van Scoyoc Associates, Washington, DC

Overdose prevention: Community-driven policy change
Fred Wells Brason, II, Project Lazarus, Moravian Falls, NC

**Poster Session II
(Lunch)**

**Frank Lloyd Wright Ballroom
11:30 - 1:30 PM**

**Odd-numbered posters manned first hour;
Even-numbered, second hour**

Set-up time begins Monday 3:00 PM

Must be removed at 2:00 PM Tuesday

GENETICS

- 1 *Functional and behavioral consequences of DRD4 genetic variation in macaques*
E. J. Vallender^{2,4}, L. M. Ogawa^{3,4}, L. J. Lynch⁴, J. L. Schimmel⁴, G. M. Miller^{1,4},
¹Pharmaceutical Sciences, Northeastern University, Boston, MA, ²Psychiatry and Human
Behavior, University of Mississippi Medical School, Jackson, MS, ³Yale University,
New Haven, CT, ⁴New England Primate Research Center, Harvard Medical School,
Southborough, MA

- 2 *Clinical characteristics and genotype frequencies of the dopamine transporter gene (DAT1/SLC6A3) 3'UTR variable number of tandem repeats in crack-cocaine users*
A. R. Stolf³, G. Akutagava-Martins², D. Müller², L. Guimarães³, F. P. Pechansky¹, T. Roman², F. Kessler³, ¹Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil, ²Department of Genetics, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ³Center for Drug and Alcohol Research, UFRGS, Porto Alegre, Brazil
- 3 *Dopaminergic genetic variation moderates effect of nicotine on cigarette reward self-report*
P. T. Harrell¹, H. Lin^{1,2}, J. Y. Park^{1,2}, D. J. Drobos^{1,2}, D. E. Evans^{1,2}, ¹Moffitt Cancer Center, Tampa, FL, ²University of South Florida, Tampa, FL
- 4 *A non-parametric method finds genetic etiology of nicotine dependence differs in males and females*
Q. Lu¹, C. Wei², R. C. Elston³, O. Vsevolozhskaya¹, ¹Department of Epidemiology and Biostatistics, Michigan State University, East Lansing, MI, ²Department of Biostatistics and Epidemiology, University of North Texas Health Science Center, Fort Worth, TX, ³Department of Epidemiology and Biostatistics, Case Western Reserve University, Cleveland, OH
- 5 *Intrinsic clustering of treatment outcome in recovery from opioid use disorder: Results from Starting Treatment with Agonist Replacement Therapies*
S. Luo¹, J. Goldsmith¹, R. Crist³, W. Berritini³, A. Saxon⁴, W. Ling², M. P. Hillhouse², E. V. Nunes¹, ¹Columbia University, New York, NY, ²Integrated Substance Abuse Programs, University of California, Los Angeles, Los Angeles, CA, ³Psychiatry, University of Pennsylvania, Philadelphia, PA, ⁴Veterans Affairs Puget Sound Health Care System, Seattle, WA

SEX DIFFERENCES

- 6 *Sex difference in behavioral effects of the THC agonist CP55,940*
H. T. French^{1,2}, A. Klambatsen^{1,2}, C. Chan², S. Jenab^{1,2}, V. Quinones-Jenab^{1,2}, ¹Psychology, Graduate Center of the City University of New York, New York, NY, ²Psychology, Hunter College CUNY, New York, NY
- 7 *Sex differences in dopamine and serotonin activation of brain pathways in adolescent rats exposed to social partners or amphetamine*
V. G. Weiss¹, R. S. Hofford¹, J. R. Yates², M. T. Bardo¹, ¹University of Kentucky, Lexington, KY, ²Northern Kentucky University, Newport, KY
- 8 *Sex differences in reinstatement of cocaine-seeking in rats after acute treatment of progesterone and atomoxetine*
N. Swalve¹, N. Zlebnik¹, H. Veglahn¹, M. E. Carroll², ¹Psychiatry, Univ of Minnesota, Minneapolis, MN, ²University of Minnesota, Mahtomedi, MN
- 9 *Age and gender effects on subjective drug effect of d-amphetamine*
R. Pang¹, M. Kirkpatrick³, N. Goldenson¹, C. Guillot¹, A. Leventhal¹, ¹University of Southern California, Los Angeles, CA, ²Department of Preventive Medicine, University of Southern California, Azusa, CA, ³Preventive Medicine, University of Southern California, Los Angeles, CA
- 10 *Gender differences in associations between neurocognitive impairment and cocaine use among high-risk cocaine-dependent methadone-maintained patients*
R. Shrestha¹, T. B. Huedo-Medina², M. Copenhaver², ¹Community Medicine & Health Care, University of Connecticut Health Center, Farmington, CT, ²Allied Health Sciences, University of Connecticut, Storrs, CT

- 11 *Sex differences in intrinsic connectivity during fMRI Stroop in cocaine-dependent and healthy comparison subjects*
M. R. Mitchell¹, E. E. DeVito¹, I. Balodis¹, C. Lacadie², D. Scheinost³, R. Constable², R. Malison¹, K. M. Carroll¹, M. N. Potenza¹, ¹Psychiatry, Yale University School of Medicine, New Haven, CT, ²Diagnostic Radiology, Yale University School of Medicine, New Haven, CT, ³Biomedical Engineering, Yale University School of Medicine, New Haven, CT
- 12 *Gender differences in Stroop performance following guanfacine versus placebo in early abstinent cocaine-dependent men and women*
V. Milivojevic¹, N. Jayaram-Lindstrom², R. Sinha¹, H. C. Fox¹, ¹Psychiatry, Yale University School of Medicine, New Haven, CT, ²Karolinska Institute, Solna, Sweden
- 13 *Impact of yohimbine and cocaine-cues on executive function in cocaine-dependent men and women*
M. Moran-Santa Maria¹, K. T. Brady^{2,3}, A. McRae-Clark², J. Prisciandaro², N. Baker⁴, ¹Psychiatry and Behavioral Sciences, MUSC, Charleston, SC, ²Psychiatry, Medical University of South Carolina, Charleston, SC, ³Ralph H Johnson VAMC, Charleston, SC, ⁴Department of Public Health Sciences, Medical University of South Carolina, Charleston, SC
- 14 *Gender differences in methamphetamine use in a Mexico-U.S. border city*
O. Loza¹, J. Ferreira-Pinto³, R. Ramos², M. Ramos Rodriguez⁴, ¹Public Health Sciences, UT El Paso, El Paso, TX, ²Alliance of Border Collaboratives (ABC), El Paso, TX, ³UTEP College of Health Sciences, El Paso, TX, ⁴Programa Compañeros, A.C., Ciudad Juárez, Mexico
- 15 *The Israeli club drug culture: A qualitative examination of gender differences in substance use and sexual risk behaviors*
M. Lawental¹, S. P. Kurtz³, M. E. Buttram², ¹School of Social Work, University of Haifa, Haifa, Israel, ²Center for Applied Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL, ³ARSH: Center for Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL
- 16 *Risk of sexual abuse among ecstasy users differs by gender and other drug use*
S. R. Khan², C. W. Striley², J. Copeland³, S. P. Kurtz¹, L. Cottler², ¹ARSH: Center for Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL, ²Epidemiology, University of Florida, Gainesville, FL, ³NCPIC, University of NSW, Sydney, NSW, Australia
- 17 *Substance use outcomes of girls with ADHD in a 10-year follow-up of a prospective longitudinal study*
K. Belendiuk¹, S. Hinshaw^{1,2}, ¹University of California, Berkeley, CA, ²University of California, San Francisco, CA
- 18 *Liability for violence in young women*
M. D. Reynolds, S. P. Knopf, L. Kirisci, R. E. Tarter, School of Pharmacy, University of Pittsburgh, Pittsburgh, PA
- 19 *Prevalence and correlates of spousal sexual violence against married women in India*
V. Murugan, Social Work, Washington University St. Louis, Ladue, MO
- 20 *Gender differences among MST survivors on chronic opioid therapy*
S. Lin, D. Plott, Mental Healthcare Line, Cincinnati VAMC, Cincinnati, OH
- 21 *Gender differences in mortality among treated opioid-dependent patients*
E. Evans², L. Li², J. Min¹, D. Y. Huang², D. Urada², Y. Hser², B. Nosyk¹, ¹BC Centre for Excellence in HIV/AIDS, Vancouver, BC, Canada, ²UCLA Integrated Substance Abuse Programs, Los Angeles, CA

- 22 *Sex differences in alcohol use disorders and risky drinking among chronic non-cancer pain patients receiving opioid therapy*
B. Larance¹, A. Peacock², G. Campbell¹, R. Bruno², N. Lintzeris³, M. Cohen¹, S. Nielsen¹, W. Hall⁴, R. P. Mattick¹, L. Degenhardt¹, ¹National Drug and Alcohol Research Centre, University of New South Wales, Sydney, NSW, Australia, ²School of Psychology, University of Tasmania, Hobart, TAS, Australia, ³Langton Centre, South Eastern Sydney and Illawarra Local Health District, Sydney, NSW, Australia, ⁴University of Queensland, Brisbane, QLD, Australia
- 23 *The gendered risk environment for injection drug use: An event specific analysis of injection risk behavior*
P. Janulis, Department of Epidemiology and Biostatistics, Michigan State University, Lansing, MI
- 24 *Medical and mental health needs of lesbian, gay, and bisexual clients in substance abuse treatment*
A. Flentje¹, N. Livingston², J. Roley³, J. Sorensen¹, ¹University of California, San Francisco, San Francisco, CA, ²University of Montana, Missoula, MT, ³Drexel University, Philadelphia, PA

PHARMACOKINETICS

- 25 *Heroin metabolism in blood and not in brain is critical to its acute effects*
F. Boix Escolan, J. M. Andersen, I. Bogen, A. Gottås, J. G. Mørland, Division for Forensic Sciences, Norwegian Institute of Public Health, Oslo, Norway
- 26 *Do they really inject heroin? A study on the possible changes in opioid content during heroin preparation for intravenous injection*
J. G. Mørland, J. M. Andersen, I. Bogen, R. Karinen, G. Brochman, E. L. Øiestad, V. Vindenes, F. Boix Escolan, Division of Forensic Sciences, Norwegian Institute of Public Health, Oslo, Norway
- 27 *Pharmacokinetics of bupropion sustained release in pregnancy and postpartum at steady state*
V. M. Fokina^{1,3}, X. Wang¹, E. Rytting¹, M. S. Ahmed¹, C. Oncken², G. Hankins¹, T. Nanovskaya¹, ¹OB&GYN, UTMB, Galveston, TX, ²Medicine, University of Connecticut Health Center, Farmington, CT, ³Pharmacology & Toxicology, UTMB, Galveston, TX
- 28 *Modulation of buprenorphine partial agonism by the opioid antagonist samidorphan: A mechanistic PK/PD model*
R. Turncliff, W. I. Li, Translational Medicine, Alkermes, Inc., Waltham, MA
- 29 *Oral human abuse potential of Oxycodone DETERx: An abuse-deterrent, extended-release formulation in recreational opioid users*
E. A. Kopecky, A. B. Fleming, M. O'Connor, R. K. Varanasi, Collegium Pharmaceutical, Inc., Canton, MA
- 30 *Single-center, randomized, double-blind crossover study evaluation of the abuse potential, PK, and safety of crushed and intranasally administered immediate release oxycodone tablets in recreational opioid users*
S. Colucci¹, S. Harris¹, K. Friedman¹, M. Shram², ¹Purdue Pharma L.P., Stamford, CT, ²Alteos Research Partners, Toronto, ON, Canada
- 31 *Impact of CYP2D6 phenotype on response to methamphetamine in healthy volunteers*
A. Oliveto¹, B. Gurley², H. Hendrickson², W. B. Gentry², J. D. Thostenson², M. J. Mancino¹, ¹Psychiatry, University of Arkansas for Medical Sciences, Little Rock, AR, ²University of Arkansas for Medical Sciences, Little Rock, AR

- 32 *The role of carbonyl reductases in biotransformation of bupropion and 4-methylnitrozamino-1-(3-pyridyl)-1-butanone by human placenta*
T. Nanovskaya¹, V. M. Fokina^{1,2}, X. Wang¹, C. Oncken³, M. S. Ahmed¹, G. Hankins¹,
¹OB&GYN, UTMB, Galveston, TX, ²Pharmacology & Toxicology, UTMB, Galveston, TX,
³Medicine, University of Connecticut Health Center, Farmington, TX
- 33 *Does electronic cigarette liquid nicotine concentration and user experience influence plasma nicotine concentration?*
C. Ramoa, T. Spindle, K. Osei, B. Kilgalen, A. Breland, T. Eissenberg, Psychology, VCU,
Richmond, VA
- 34 *Physical and self-reported response and the pharmacokinetics of e-cigarettes compared to cigarettes in substance-abusing participants*
O. Brooks¹, C. Lederhos¹, A. Lamp¹, D. Howell¹, J. White¹, J. Padowski², M. Layton¹,
D. Moody³, J. M. Roll¹, S. McPherson¹, ¹Program of Excellence in Addictions Research
(PEAR), Washington State University, Spokane, WA, ²Washington State University,
Spokane, WA, ³University of Utah, Salt Lake City, UT
- 35 *Nicotine dependence, nicotine metabolism, and the extent of compensation in response to reduced nicotine content cigarettes*
K. Ross¹, F. Bandiera², S. Taghavi³, K. Delucchi¹, R. Tyndale³, N. Benowitz¹, ¹Center for
Tobacco Control, Research, & Education, University of California, San Francisco, San
Francisco, CA, ²University of Texas, Dallas, Dallas, TX, ³University of Toronto, Toronto, ON,
Canada
- 36 *Financial incentives promote smoking abstinence among patients with pulmonary disease*
A. C. Meyer, J. M. Streck, T. A. Ochalek, B. Hruska, C. C. Teneback, A. E. Dixon,
S. C. Sigmon, University of Vermont, Burlington, VT
- 37 *Migration and time to first tobacco cigarette after waking*
W. Xue¹, J. C. Anthony², ¹Michigan State University, East Lansing, MI, ²Epidemiology and
Biostatistics, Michigan State University, East Lansing, MI

NICOTINE TREATMENT

- 38 *Smoking and cardiac rehabilitation program completion*
D. Gaalema¹, A. Cutler¹, S. T. Higgins¹, P. Savage², P. Ades^{1,2}, ¹University of Vermont,
Burlington, VT, ²University of Vermont Medical Center, Burlington, VT
- 39 *Cigarette craving is associated with blunted reward processing in nicotine-dependent smokers*
A. L. Peechatka^{1,2}, A. E. Whitton¹, S. L. Farmer¹, D. A. Pizzagalli¹, A. Janes¹, ¹McLean
Hospital/ Harvard Medical School, Belmont, MA, ²Psychology, Suffolk University,
Boston, MA
- 40 *Does craving intensity influence cue exposure reports? An Ecological Momentary Assessment study in patients with alcohol, tobacco, cannabis and heroin use disorder*
F. Serre¹, M. Fatseas¹, J. Swendsen², M. Auriacombe¹, ¹Addiction Psychiatry (CNRS USR
3413), Universite Bordeaux, Bordeaux, France, ²CNRS UMR 5284 INCIA Univ. Bordeaux,
Bordeaux, France
- 41 *Cigarette smoking trajectories among comorbid cocaine-dependent and attention deficit/hyperactivity-disorder individuals treated with extended-release mixed amphetamine salts*
B. Sou¹, A. Glass², D. J. Brooks³, A. Mahony⁵, J. J. Mairani³, J. Grabowski⁴, F. R. Levin³, ¹The
Sophie Davis School of Biomedical Education, New York, NY, ²Biostatistics, New York State
Psychiatric Institute, New York, NY, ³New York State Psychiatric Institute, New York, NY,
⁴Psychiatry, University of Minnesota, Minneapolis, MN, ⁵New York State Psychiatric
Institute, New York, NY

- 42 *Does cue exposure treatment improve outcomes in smoking cessation treatment? A controlled trial*
I. Pericot-Valverde¹, O. Garcia-Rodriguez¹, C. López-Núñez², S. Weidberg¹, R. Secades-Villa², ¹Psychology, University of Oviedo, Oviedo, Spain, ²University of Oviedo, Oviedo, Spain
- 43 *Episodic future thinking reduces delay discounting in cigarette smokers*
J. S. Stein¹, T. O. Daniel², L. H. Epstein², W. K. Bickel¹, ¹Addiction Recovery Research Center, Virginia Tech Carilion Research Institute, Roanoke, VA, ²Department of Pediatrics, University at Buffalo, Buffalo, NY
- 44 *Treating smokers in substance treatment with contingent vouchers, nicotine replacement and brief advice adapted for sobriety settings*
R. A. Martin¹, D. Rohsenow^{1,2}, J. W. Tidey¹, S. Colby¹, P. Monti¹, ¹Center for Alcohol and Addiction Studies, Brown University, Providence, RI, ²Providence Veterans Affairs Medical Center, Providence, RI
- 45 *Incremental cost-effectiveness of a voucher-based CM protocol added to a CBT for smoking cessation*
C. López-Núñez¹, F. Alonso Pérez², S. E. Weidberg¹, I. Pericot-Valverde¹, R. Secades-Villa¹, ¹Psychology, University of Oviedo, Oviedo, Spain, ²Psychology, University of Oviedo, Oviedo, Asturias, Spain
- 46 *Smoking status on day 3 of a quit attempt predicts future smoking outcomes*
B. Hruska¹, A. C. Meyer², S. C. Sigmon², ¹Psychiatry, The University of Vermont, Burlington, VT, ²Psychiatry, University of Vermont, Burlington, VT
- 47 *A comparison of the behavioral effects of electronic and tobacco cigarettes following 24-hr tobacco deprivation*
A. Harvanko^{1,2}, C. A. Martin³, J. S. Fogel^{2,1}, J. Lile^{1,2,3}, T. H. Kelly^{1,2,3}, ¹Behavioral Science, University of Kentucky, Lexington, KY, ²Psychology, University of Kentucky, Lexington, KY, ³Psychiatry, University of Kentucky, Lexington, KY
- 48 *WITHDRAWN*
- 49 *Treatment expectations predict quit attempts, reduction in cigarettes per day, and readiness to quit in smokers who were not ready to quit*
E. M. Klemperer, J. Hughes, Psychiatry, University of Vermont, Burlington, VT
- 50 *A tobacco cessation readiness group increases initiation of quitting in residential treatment patients*
J. Guydish¹, V. Gruber¹, T. Le¹, B. Tajima¹, B. Andrews¹, H. Leo², J. Tsoh¹, ¹University of California San Francisco, San Francisco, CA, ²Yale University, New Haven, CT
- 51 *The role of smoking-specific experiential avoidance in the relation between perceived stress and tobacco use among treatment-seeking smokers*
L. Garey¹, M. J. Zvolensky¹, N. B. Schmidt², ¹Department of Psychology, University of Houston, Houston, TX, ²Department of Psychology, Florida State University, Tallahassee, FL
- 52 *Long-term follow-up of psilocybin-facilitated smoking cessation: Abstinence outcomes and qualitative analysis of participant accounts*
A. P. Garcia-Romeu¹, T. Noorani³, R. R. Griffiths², M. W. Johnson¹, ¹Psychiatry and Behavioral Sciences, Johns Hopkins University, Baltimore, MD, ²Departments of Psychiatry and Neuroscience, Johns Hopkins University School of Medicine, Baltimore, MD, ³Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD

- 53 *Validation of the revised Mystical Experiences Questionnaire in experimental sessions with psilocybin*
F. S. Barrett², M. W. Johnson², R. R. Griffiths^{2,1}, ¹Department of Neuroscience, Johns Hopkins University School of Medicine, Baltimore, MD, ²Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine, Baltimore, MD
- 54 *The brain mind connection: Effect of trait mindfulness on responses to real-time fMRI feedback in nicotine-dependent smokers*
K. Hartwell^{1,2}, M. Canterberry¹, X. Li¹, M. Moran-Santa Maria¹, C. A. Hanlon¹, M. George^{1,2}, K. T. Brady^{1,2}, ¹Medical University of South Carolina, Charleston, SC, ²Ralph H Johnson VAMC, Charleston, SC
- 55 *Acceptance as a relevant mindfulness facet for cigarette smokers*
C. Vinci², M. R. Peltier¹, C. A. Spears³, A. L. Copeland¹, ¹Louisiana State University, Baton Rouge, LA, ²UT MD Anderson Cancer Center, Houston, TX, ³The Catholic University of America, Washington, D.C., DC
- 56 *Smoking cessation intervention on Facebook: Which content generates the best engagement?*
J. Thrull¹, A. B. Klein^{1,2}, D. Ramo¹, ¹UCSF, San Francisco, CA, ²University of California, Berkeley, Berkeley, CA
- 57 *Association between tobacco smoking and death by suicide: A competing risks hazard analysis in a large twin cohort with 35-year follow up*
A. Evins^{1,2}, T. Korhonen^{3,4,5}, T. H. Kinnunen^{2,6}, J. Kaprio^{3,5,7}, ¹Psychiatry, Massachusetts General Hospital, Boston, MA, ²Harvard Medical School, Boston, MA, ³Public Health, University of Helsinki, Helsinki, Finland, ⁴Public Health and Clinical Nutrition, University of Eastern Finland, Kuopio, Finland, ⁵National Institute for Health and Welfare, Helsinki, Finland, ⁶Behavioral Science Consulting, Hopkinton, MA, ⁷Institute for Molecular Medicine (FIMM), University of Helsinki, Helsinki, Finland

PRESCRIPTION OPIOIDS

- 58 *Using behavioral economics to predict opioid use during prescription opioid dependence treatment*
M. Worley¹, S. Shoptaw¹, W. K. Bickel², W. Ling³, ¹University of California, Los Angeles, Los Angeles, CA, ²Addiction Recovery and Research Center, Virginia Tech Carilion Research Institute, Roanoke, VA, ³UCLA, Integrated Substance Abuse, Los Angeles, CA
- 59 *Correlates of prescription opioid legitimacy estimations among community pharmacists in Tennessee*
N. E. Hagemeyer¹, A. Alamian², M. M. Murawski³, R. P. Pack⁴, ¹Pharmacy Practice, East Tennessee State University, Johnson City, TN, ²Biostatistics and Epidemiology, East Tennessee State University, Johnson City, TN, ³Pharmacy Administration, Purdue University, West Lafayette, IN, ⁴Community and Behavioral Health, East Tennessee State University, Johnson City, TN
- 60 *Opioid prescribing practices of members of the National Dental Practice-Based Research Network*
J. L. McCauley¹, V. V. Gordan², J. L. Riley², R. B. Fillingim², S. K. Makhija³, K. T. Brady¹, N. Dental PBRN Collaborative Group³, ¹Psychiatry, Medical University of South Carolina, Charleston, SC, ²University of Florida, Gainesville, FL, ³University of Alabama at Birmingham, Birmingham, AL
- 61 *Trends in prescription opioid misuse among young adult multidrug users in Miami, 2006-2014*
M. E. Buttram¹, S. P. Kurtz², ¹Center for Applied Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL, ²ARSH: Center for Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL

- 62 *Potential determinants of unique and co-occurring major depression and nonmedical use of prescription opioids*
D. S. Fink¹, R. Hu¹, M. Cerda¹, K. Keyes¹, B. D. Marshall², S. Galea¹, S. S. Martins¹,
¹Epidemiology, Columbia University, New York, NY, ²Epidemiology, Brown University,
Providence, RI
- 63 *Preliminary reliability and validity of an opioid overdose risk behavior scale in a community-based sample of recent veterans*
E. R. Pouget, A. S. Bennett, L. Elliott, A. Golub, A. Rosenblum, NDRI, New York City, NY
- 64 *An online national survey and the Crime Survey for England and Wales: Are the data comparable?*
J. L. Green¹, P. I. Dargan², D. M. Wood², A. C. Besharat¹, E. M. Martinez¹, R. C. Dart¹,
¹Rocky Mountain Poison & Drug Center, Denver, CO, ²Guy's and St. Thomas' NHS
Foundation Trust and King's Health Partners, London, United Kingdom
- 65 *Changes in abuse prevalence of prescription opioids and heroin across six years in the ASI-MV network for different patient subgroups*
S. F. Butler¹, T. A. Cassidy¹, S. H. Budman¹, ¹Inflexxion, Inc, Newton, MA
- 66 *Evaluation of relative intranasal abuse potential of a hydrocodone extended-release tablet formulated with abuse-deterrence technology in nondependent, recreational opioid users*
K. Schoedel³, L. Rabinovich-Guilatt¹, M. Gasior¹, R. Malamut¹, Y. Ma¹, L. Webster²,
M. Bond¹, ¹Teva, Frazer, PA, ²PRA Health Sciences, Salt Lake City, UT, ³Altreos Research
Partners, Toronto, NU, Canada
- 67 *Evaluation of the abuse potential of an hydrocodone extended-release bitartrate tablet formulated with abuse-deterrence technology in nondependent, recreational opioid users*
M. Bond¹, M. Darwish², Y. Ma¹, L. Webster³, ¹Teva, Frazer, PA, ²Sci-Med Bridge,
Malvern, PA, ³PRA, Salt Lake City, UT
- 68 *Long-term outcomes from the National Drug Abuse Treatment Clinical Trials Network Prescription Opioid Addiction Treatment Study*
R. Weiss^{1,2}, J. S. Potter^{3,1,2}, M. L. Griffin^{1,2}, S. Provost¹, G. Fitzmaurice^{1,2,4}, K. McDermott¹,
E. Srisarajivakul¹, D. Dodd¹, J. A. Dreifuss^{1,2}, K. McHugh^{1,2}, K. M. Carroll⁵, ¹McLean
Hospital, Belmont, MA, ²Harvard Medical School, Boston, MA, ³UT Health Science Center,
San Antonio, TX, ⁴Department of Biostatistics, Harvard School of Public Health, Boston, MA,
⁵Psychiatry, Yale University School of Medicine, West Haven, CT

PROGRAM DESCRIPTION

- 69 *Opioid substitution treatment in Spain: 20 years of experience in harm reduction programs*
M. Torrens^{1,2,3}, F. Fonseca^{1,2}, C. Castillo^{1,2}, A. Domingo-Salvany², ¹INAD- Parc de Salut Mar,
Barcelona, Spain, ²IMIM (Institut Hospital del Mar d'Investigacions Mèdiques), Barcelona,
Spain, ³Psychiatry Department, Autonomous University of Barcelona, Barcelona, Spain
- 70 *Regulatory challenges in evaluating the abuse-deterrent properties of novel opioid products*
S. N. Calderon^{3,1}, M. Klein^{2,1}, J. M. Tolliver^{3,1}, ¹CDER/CSS, Food and Drug Administration,
Silver Spring, MD, ²CDER, FDA, Silver Spring, MD, ³FDA, HHS, Silver Spring, MD
- 71 *Curbing the rising heroin epidemic in Colombia: Methadone-assisted treatment programs*
G. Gonzalez^{1,2,3}, L. Giraldo⁴, G. DiGirolamo^{1,5}, M. Romero-Gonzalez^{1,3}, ¹Division of Addiction
Psychiatry, University of Massachusetts, Worcester, MA, ²VA Central Western Massachusetts
Healthcare System, Northampton, MA, ³Mayu of New England, New Haven, CT, ⁴ESE
Hospital CARISMA, Medellin, Colombia, ⁵College of the Holy Cross, Worcester, MA

- 72 *Women's Intervention to Stop HIV/HCV (WISH)*
M. Staton-Tindall⁵, M. Webster³, C. Leukefeld², J. R. Havens⁴, C. B. Oser¹, ¹Sociology, Univ of Kentucky, Lexington, KY, ²University of Kentucky, Lexington, LA, ³Behavioral Science, University of Kentucky, Lexington, KY, ⁴Center on Drug and Alcohol Research, University of Kentucky, Lexington, KY, ⁵Social Work, University of Kentucky, Lexington, KY
- 73 *A tribal community-wide intervention for addiction*
B. Gillette¹, A. A. Forcehimes^{3,2}, K. Venner⁴, ¹Circle of Life, Three Affiliated Tribes, New Town, ND, ²Train for Change, Inc., Carson City, NV, ³Psychiatry, University of New Mexico, Albuquerque, NM, ⁴Psychology, University of New Mexico, Albuquerque, NM
- 74 *Multi-Component Tobacco-Free Workplace Program in community mental health settings: The role of providers' training in tobacco dependence treatment*
V. Correa Fernández², L. R. Reitzel¹, W. T. Wilson³, B. A. Kyburz³, T. Stacey³, J. Garza¹, C. Lam², ¹University of Houston, Houston, TX, ²UT MD Anderson Cancer Center, Houston, TX, ³Austin Travis County Integral Care, Austin, TX
- 75 *A computerized system for entering and summarizing Timeline Followback information on multiple substances*
S. K. McWilliams, C. Thurstone, P. D. Riggs, S. K. Mikulich-Gilbertson, Univ. of Colorado, Aurora, CO
- 76 *Using cellphone technology to monitor and increase dosing adherence*
M. Oyama¹, M. P. Hillhouse¹, C. Thomas¹, J. Annon¹, A. Hasson¹, L. Mooney¹, R. Walker², L. Chang³, S. Sparenborg⁴, W. Ling¹, ¹UCLA, Los Angeles, CA, ²UT Southwestern Medical Center, Dallas, TX, ³University of Hawaii, Honolulu, HI, ⁴Center for the Clinical Trials Network, National Institute on Drug Abuse, Bethesda, MD
- 77 *The Parent's Modular Toolkit: Development of an online CRAFT program for parents of emerging adults with SUD*
E. Bresani¹, K. C. Kirby^{1,2}, R. J. Meyers³, T. Case¹, T. G. Miller¹, D. Festinger¹, B. Serna³, S. Grasso¹, ¹Treatment Research Institute, Philadelphia, PA, ²Psychiatry, University of Pennsylvania, Philadelphia, PA, ³Robert J. Meyers, Ph.D. & Associates, Albuquerque, NM
- 78 *A new study methodology: ADAPT, The short, staged trial*
J. Annon¹, M. Hillhouse¹, C. Thomas¹, L. Mooney¹, A. Hasson¹, R. Walker², L. Chang³, S. Sparenborg⁴, R. Lindblad⁵, P. VanVeldhuisen⁵, W. Ling¹, ¹UCLA, Los Angeles, CA, ²UT Southwestern, Dallas, TX, ³University of Hawaii, Honolulu, HI, ⁴National Institute on Drug Abuse, Bethesda, MD, ⁵EMMES Corp., Rockville, MD
- 79 *International standards on the treatment of drug use disorders*
A. Busse², G. Gerra¹, I. Koutsenok², E. Saenz², ¹Drug Prevention and Health Branch, UNODC, Vienna, Austria, ²Prevention, Treatment and Rehabilitation Section (PTRS), United Nations Office on Drugs and Crime (UNODC), Vienna, Austria
- 80 *Current drug scheduling reviews of synthetic cathinones by the U.S. Drug Enforcement Administration*
C. Prioleau, S. R. Tella, M. Walker, S. Ghosland, L. Fang, J. Trecki, A. S. Bale, A. R. Polk, D. Willenbring, L. L. Wong, T. L. Boos, Office of Diversion Control, Drug Enforcement Administration, Springfield, VA
- 81 *Early Career Award in Chemistry of Drug Abuse and Addiction*
K. J. Bough, R. Rapaka, D. A. White, J. Rutter, National Institute on Drug Abuse, Rockville, MD

STIMULANTS - HUMANS

- 82 *Learning of fine motor skills is not impaired in individuals with a history of illicit stimulant use*
G. Todd, V. Pearson-Dennett, S. C. Flavel, M. Haberfield, H. Edwards, J. White, School of Pharmacy and Medical Sciences and Sansom Institute, University of South Australia, Adelaide, SA, Australia
- 83 *Hand function is altered in individuals with a history of illicit stimulant use*
V. Pearson-Dennett¹, S. C. Flavel¹, R. A. Wilcox², D. Thewlis⁴, A. Vogel³, J. White¹, G. Todd¹, ¹School of Pharmacy & Medical Sciences, Sansom Institute, University of South Australia, Adelaide, SA, Australia, ²Department of Neurology, Flinders Medical Centre, Adelaide, SA, Australia, ³Speech Neuroscience Unit, University of Melbourne, Melbourne, VIC, Australia, ⁴School of Health Sciences, Sansom Institute, University of South Australia, Adelaide, SA, Australia
- 84 *The brain structural changes associated with stages of cocaine abstinence*
Y. Hser¹, Q. He², M. Schulte¹, A. Bechara², ¹UCLA, La, CA, ²USC, La, CA
- 85 *Emotional traits predict individual differences in amphetamine-induced positive mood*
M. Kirkpatrick¹, N. Goldenson¹, C. W. Kahler³, H. de Wit², R. Swift³, J. McGeary³, A. Leventhal¹, ¹University of Southern California, Los Angeles, CA, ²University of Chicago, Chicago, IL, ³Brown University, Providence, RI
- 86 *Neuropsychological effects of placebo stimulants in college students*
S. J. Lookatch², T. Moore¹, E. C. Katz¹, ¹Psychology, University of Tennessee, Knoxville, TN, ²Psychology, Towson University, Towson, MD
- 87 *Personality risk for crack cocaine initiation*
W. C. Pedersen¹, D. G. Fisher², G. L. Reynolds², A. J. Roberts¹, J. Davis³, ¹Psychology, California State University, Long Beach, CA, ²Center for Behavioral Research & Services, California State University, Long Beach, Long Beach, CA, ³Sociology, California State University, Long Beach, CA
- 88 *Changes in P300 event-related potentials vary with changes in craving among methamphetamine-dependent patients followed at 3 and 6 months after cessation*
H. Jiang, ¹Integrated Substance Abuse Programs, UCLA, Los Angeles, CA, ²Shanghai Mental Health Center, Shanghai Jiao Tong University School Of Medicine, Shanghai, China
- 89 *Methylphenidate for methamphetamine use disorders in participants with and without ADHD*
A. Ang, M. Hillhouse, J. Jenkins, S. Reed, W. Ling, UCLA, Los Angeles, CA
- 90 *Varenicline for the treatment of methamphetamine dependence*
M. Briones¹, M. Worley¹, D. DeYoung¹, A. Swanson², K. G. Heinzerling¹, S. Shoptaw¹, ¹Department of Family Medicine, UCLA, Los Angeles, CA, ²Stanford University, Stanford, CA
- 91 *The acquisition of coping skills from computerized cognitive behavioral therapy for substance use disorders: It's all where you start*
B. D. Kiluk, E. E. DeVito, M. Buck, C. Nich, K. M. Carroll, Psychiatry, Yale School of Medicine, West Haven, CT
- 92 *Laboratory drug administration does not increase use in the natural ecology immediately following study discharge*
K. R. Marks^{1,3}, A. Lemons III¹, W. W. Stoops^{1,3,2}, J. A. Lile^{1,3,2}, C. R. Rush^{1,3,2}, ¹Behav. Science, Univ. Kentucky, Lexington, KY, ²Psychiatry, Univ. Kentucky, Lexington, KY, ³Psychology, Univ. Kentucky, Lexington, KY

- 93 *Alternative endpoints based on health outcomes in stimulant users trials*
J. May¹, P. VanVeldhuisen¹, C. Allen¹, R. Lindblad¹, L. Hu¹, B. Tai³, A. J. Rush², ¹The EMMES Corporation, Rockville, MD, ²Duke University, Durham, NC, ³NIDA CCTN, Bethesda, MD
- 94 *Higher levels of BDNF are associated with inpatient treatment adherence of crack-cocaine users*
J. N. Scherer, S. Schuch, F. Ornell, A. O. Sordi, F. H. Kessler, L. von Diemen, F. P. Pechansky, Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil
- 95 *Efficacy and tolerability of doxazosin in psychostimulant-dependent patients*
M. J. Mancino¹, J. McGaugh¹, J. D. Thostenson², J. Guise¹, T. Kosten³, A. Oliveto¹, ¹Psychiatry, University of Arkansas for Medical Sciences, Little Rock, AR, ²University of Arkansas for Medical Sciences, Little Rock, AR, ³Psychiatry, Baylor College of Medicine and Michael E DeBakey VA Medical Center, Houston, TX
- 96 *Treatment satisfaction in the CTN Cocaine Use Reduction with Buprenorphine study*
C. Thomas, M. Hillhouse, A. Ang, J. Annon, L. Mooney, A. Hasson, W. Ling, UCLA, Los Angeles, CA
- 97 *Opioid use severity and treatment outcomes in cocaine-dependent participants with a history of opioid abuse/dependence*
M. P. Hillhouse¹, A. Ang¹, C. Thomas¹, S. Nielsen⁵, R. Walker⁴, J. Potter², G. Brigham³, S. Stout⁶, M. Weimer⁷, T. Winhusen⁸, ¹UCLA, Los Angeles, CA, ²UT Health Science Center, San Antonio, TX, ³ADAPT, Roseburg, OR, ⁴UT Southwestern, Dallas, TX, ⁵U of New South Wales, Sydney, NSW, Australia, ⁶Atlanta VA, Atlanta, GA, ⁷Portland VA, Portland, OR, ⁸U of Cincinnati, Cincinnati, OH
- 98 *Influence of bupirone maintenance on the pharmacodynamic effects of cocaine and sexual risk taking in cocaine users*
B. L. Bolin¹, J. A. Lile^{1,2,3}, K. R. Marks², C. R. Rush^{1,2,3}, W. W. Stoops^{1,2,3}, ¹Behavioral Science, University of Kentucky, Lexington, KY, ²Psychology, University of Kentucky, Lexington, KY, ³Psychiatry, University of Kentucky, Lexington, KY
- 99 *Contingency management vs. non-contingent rewards: Intervention response patterns among stimulant-using MSM*
J. B. Fletcher¹, R. J. Landovitz³, C. J. Reback^{1,2}, ¹Friends Research Institute, Inc., Los Angeles, CA, ²Integrated Substance Abuse Programs, UCLA, Los Angeles, CA, ³Center for Clinical AIDS Research & Education, UCLA, Los Angeles, CA
- 100 *Making the most of mindfulness: Which specific mindfulness deficits might be targeted to optimize addiction treatment?*
J. Ury, D. Flack, E. Dakwar, NYSPI, New York City, NY
- 101 *Failure to get into drug treatment*
L. D'Anna¹, D. G. Fisher², G. L. Reynolds², D. Hosmer³, K. Hardan-Khalil⁴, ¹Center for Health Equity, California State University, Long Beach, CA, ²Center for Behavioral Research & Services, California State University, Long Beach, Long Beach, CA, ³Department of Mathematics and Statistics, University of Vermont, Stowe, VT, ⁴School of Nursing, California State University, Long Beach, CA

ADOLESCENT I

- 102 *Amphetamine exposure during adolescence alters behavior, dopamine receptors and medial prefrontal cortex function in adulthood*
J. M. Gulley, L. Sherrill, Psychology and Neuroscience, University of Illinois, Urbana-Champaign, Champaign, IL
- 103 *Energy drink compounds differentially affect anxiety, locomotion, depression and cognition in adolescent and adult female rats*
K. Chauhan¹, S. Perez², M. Chrisphonte¹, M. Evelyn¹, M. Guzman¹, D. Woo¹, U. Akpara¹, H. Saleh¹, A. Alexander-Street², K. Salas-Ramirez¹, ¹Physiology, Pharmacology and Neuroscience, The City College of New York, New York, NY, ²Biology, Lehman College, CUNY, Bronx, NY
- 104 *Dysregulation in the cholinergic system after adolescent nicotine is reversed by dietary choline*
E. Holliday, C. Oliver, T. Gould, Psychology, Temple University, Philadelphia, PA
- 105 *A test of the aversive versus the rewarding effects of nicotine in rats neonatally treated with quinpirole*
S. Kirby, E. D. Cummins, D. J. Peterson, L. Kassem, R. W. Brown, Psychology, East Tennessee State University, Johnson City, TN
- 106 *The role of the $\alpha 7$ and $\alpha 4\beta 2$ nicotinic receptors in nicotine sensitization and neural plasticity of adolescent rats neonatally treated with quinpirole*
D. J. Peterson, C. M. Bardo, E. D. Cummins, R. W. Brown, Psychology, East Tennessee State University, Johnson City, TN
- 107 *Genetic and environmental influences on initiation and heaviness of smoking from adolescence to adulthood*
C. B. Bares, K. S. Kendler, H. Maes, Virginia Commonwealth University, Richmond, VA
- 108 *Predictors of early relapse in adolescent crack users after hospital discharge*
H. F. Moura¹, R. L. Rosa¹, F. H. Kessler¹, T. G. Pianca¹, L. S. Guimarães³, P. B. Ferronato¹, E. Pagnussat⁴, F. P. Pechansky², L. von Diemen¹, ¹Center for Drug and Alcohol Research, Federal University of Rio Grande do Sul, Porto Alegre, Brazil, ²Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil, ³CPAD, Porto Alegre, Brazil, ⁴Pontifical Catholic University of Rio Grande do Sul, Porto Alegre, Brazil
- 109 *Predictors of e-cigarette use among adolescents*
S. Krishnan-Sarin², G. Kong², D. R. Camenga¹, D. A. Cavallo², P. Simon², C. Connell², R. Wu², M. E. Morean², ¹Pediatrics, Yale School of Medicine, New Haven, CT, ²Department of Psychiatry, Yale University School of Medicine, New Haven, CT
- 110 *The impact of e-cigarette advertisements on e-cigarette initiation among middle and high school students*
K. M. Gutierrez, D. R. Camenga, G. Kong, D. A. Cavallo, P. Simon, R. Wu, C. Connell, S. Krishnan-Sarin, Yale University, New Haven, CT
- 111 *Socioeconomic disparities in electronic cigarette use among adolescents*
P. Simon, D. R. Camenga, G. Kong, D. A. Cavallo, C. Connell, K. M. Gutierrez, S. Krishnan-Sarin, Yale School of Medicine, New Haven, CT
- 112 *Factors contributing to tobacco use and cessation in Hispanic adolescents*
S. E. Gomez Luna¹, D. A. Cavallo², G. Kong², J. Knight³, S. Krishnan-Sarin², ¹School of Medicine, Yale, New Haven, CT, ²Psychiatry, Yale University, New Haven, CT, ³School of Medicine, Harvard, Boston, MA

- 113 *Is cannabis smoking harmful? A microscope view discloses patterned maturation of youthful risk perceptions*
M. Chandra, S. M. Hughes, J. C. Anthony, Department of Epidemiology & Biostatistics, Michigan State University, East Lansing, MI
- 114 *Negative affect mediates relations between anxiety sensitivity and substance use problems in adolescents*
C. Guillot¹, R. Pang¹, M. Kirkpatrick¹, A. Leventhal², ¹Department of Preventive Medicine, University of Southern California, Azusa, CA, ²Departments of Preventive Medicine and Psychology, University of Southern California, Los Angeles, CA
- 115 *Relationship between changes in cannabis use and anxiety among adolescents*
J. C. Duperrouzel, J. M. Ross, R. Gonzalez, Psychology, Florida International University, Miami, FL
- 116 *Moderating effects of decision-making on cannabis use and body mass index among adolescents*
J. M. Ross, P. Graziano, J. C. Duperrouzel, I. Gonzalez, R. Gonzalez, Psychology, Florida International University, Miami, FL
- 117 *School context and marijuana use among Maryland high school students*
E. Parker¹, R. M. Johnson¹, S. Lindstrom Johnson², C. Bradshaw^{3,4}, ¹Department of Mental Health, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD, ²Department of Pediatrics, Johns Hopkins School of Medicine, Baltimore, MD, ³Curry School of Education, University of Virginia, Charlottesville, VA, ⁴Johns Hopkins Center for the Prevention of Youth Violence, Baltimore, MD
- 118 *Cannabis smoking clusters within secondary schools: Results from the United States Monitoring the Future Study 1976-2013*
M. A. Parker, J. C. Anthony, Epidemiology & Biostatistics, Michigan State University, East Lansing, MI
- 119 *Adolescent substance use and specificity of association with educational attainment in young adulthood*
E. Silins¹, L. J. Horwood², D. Fergusson², G. Patton³, C. Olsson³, D. Hutchinson¹, L. Degenhardt¹, R. P. Mattick¹, ¹University of NSW, Sydney, NSW, Australia, ²University of Otago, Christchurch, New Zealand, ³University of Melbourne, Parkville, VIC, Australia
- 120 *Developing a multidimensional measure of marijuana-specific communication with friends*
J. A. Kam, Communication, UC Santa Barbara, Santa Barbara, CA
- 121 *Identifying treatment response subgroups for adolescent cannabis use disorders*
S. F. Babbin, C. Stanger, A. J. Budney, Department of Psychiatry, Geisel School of Medicine at Dartmouth, Lebanon, NH

EPIDEMIOLOGY I

- 122 *Are early-onset users of inhalants at excess risk of developing inhalants dependence soon after onset of inhalant use: Estimates for the United States, 2002-2011*
R. Brosig, J. C. Anthony, Michigan State University, Rochester, MI
- 123 *A rapidly changing recreational drug market: Findings from the Canadian Community Epidemiology Network on Drug Use*
M. M. Young, Canadian Centre on Substance Abuse, Ottawa, ON, Canada

- 124 *Novel psychoactive substance use in the European Union*
S. P. Novak¹, A. Hakansson², J. Reimer⁵, J. Martinez-Raga⁴, J. Lorvick³, ¹Behavioral Epidemiology, RTI International, Research Triangle Park, NC, ²Division of Psychiatry, U of Lund, Lund, Sweden, ³RTI International, RTI, San Francisco, CA, ⁴Teaching Unit of Psychiatry and Psychological Medicine, U of Valencia, Valencia, Spain, ⁵Centre for Interdisciplinary Addiction Research, Hamburg Medical, Hamburg, Germany
- 125 *The use of new psychoactive substances amongst a sample of regular psychostimulant users, 2010-2014*
R. Sutherland², L. Burns¹, ¹NDARC, UNSW, Sydney, NSW, Australia, ²National Drug & Alcohol Research Centre, University of New South Wales, Sydney, NSW, Australia
- 126 *Patterns of performance and image-enhancing drug use among men accessing needle and syringe programs in Sydney, Australia*
R. Rowe, I. Berger, Drug and Alcohol Multicultural Education Centre, Sydney, NSW, Australia
- 127 *Combined and independent relationships between current marijuana and cigarette use and cardiometabolic disease risk among United States emerging adults: Results from the National Health and Nutrition Examination Surveys 2007-2012*
D. C. Vidot¹, G. Prado¹, K. Arheart¹, W. Hlaing¹, A. Acheampong², S. Messiah¹, ¹University of Miami Miller School of Medicine, Miami, FL, ²University of Florida, Gainesville, FL
- 128 *Marijuana use trajectories during college predict health outcomes nine years post-matriculation*
A. M. Arria¹, K. M. Caldeira¹, B. A. Bugbee¹, K. B. Vincent¹, K. E. O'Grady², ¹Univ. of Maryland School of Public Health, College Park, MD, ²Dept. of Psychology, Univ. of Maryland, College Park, MD
- 129 *Up in Smoke?: Marijuana initiation and prevalence trends in Colorado: 2008 to 2014*
T. A. Cassidy, T. Green, P. Garg, S. F. Butler, Inflexxion, Inc., Newton, MA
- 130 *Are medical marijuana users different than recreational marijuana users?*
S. S. Martins², J. Santaella¹, L. R. Pacek³, K. Keyes², M. Cerda², D. S. Hasin², S. Galea², ¹Columbia University, New York, NY, ²Epidemiology, Columbia University, New York City, NY, ³Psychiatry and Behavioral Sciences, Johns Hopkins University, Baltimore, MD
- 131 *Characteristics and consequences of adults who use cannabis as their first drug*
B. J. Fairman, R. M. Johnson, C. M. Furr-Holden, Mental Health, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
- 132 *Associations between age and cannabis use problems among medical cannabis patients*
K. Bohnert^{1,2}, M. A. Ilgen^{1,2}, ¹Psychiatry, University of Michigan, Ann Arbor, MI, ²VA Ann Arbor, Ann Arbor, MI
- 133 *Estimated probability of becoming a case of drug dependence in relation to duration of drug-taking experience: A functional approach*
O. Vsevolozhskaya², J. C. Anthony¹, ¹Michigan State University, East Lansing, MI, ²Epidemiology and Biostatistics, Michigan State University, East Lansing, MI
- 134 *Cannabis smoking, cardiometabolic health, and cardiovascular disease: United States NHANES, 2005-2010*
O. Alshaarawy, J. C. Anthony, Department of Epidemiology and Biostatistics, Michigan State University, East Lansing, MI

- 135 *Is marijuana use associated with less opioid use among people who inject drugs?*
A. Kral¹, L. Wenger¹, S. P. Novak², K. F. Corsi³, R. Bluthenthal⁴, ¹RTI International, San Francisco, CA, ²Behavioral Epidemiology, RTI International, Research Triangle Park, NC, ³Psychiatry, University of Colorado Denver, Denver, CO, ⁴Preventive Medicine, University of Southern California, Los Angeles, CA
- 136 *Parallel development of longitudinal tobacco smoking and alcohol consumption: The Amsterdam Growth and Health Longitudinal Study*
C. Lederhos, O. Brooks, A. Lamp, C. Barbosa-Leiker, T. Hoekstra, S. Murphy, M. Layton, J. Roll, S. McPherson, Program of Excellence in Addictions Research (PEAR), Washington State University, Spokane, WA
- 137 *Perceived approval of substance use in soldiers vs. civilians*
G. G. Homish, D. Homish, K. Cummings, S. A. Cercone, E. Read, R. Daws, D. Saltino, Community Health & Health Behavior, State University of New York at Buffalo, Buffalo, NY
- 138 *E-cigarettes in Baltimore alcohol outlets: Geographic and demographic correlates of availability*
D. O. Fakunle, Mental Health, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
- 139 *Cigarette smoking and food insecurity in socioeconomically disadvantaged young adults*
J. E. Kim, J. Tsoh, Psychiatry, University of California San Francisco, San Francisco, CA
- 140 *Mental health among smokers in the U.S. from 2008 to 2013: Diverging trends by socioeconomic status*
R. Goodwin^{1,2}, M. Wall³, M. Hu³, M. J. Zvolensky⁴, D. S. Hasin², ¹Psychology, City University of New York, Queens, NY, ²Epidemiology, Columbia University, New York, NY, ³Biostatistics, Columbia University, New York, NY, ⁴Psychology, University of Houston, Houston, TX
- 141 *Cigarette smoking and risk of substance use and substance use disorder relapse among adults in recovery*
A. H. Weinberger², J. Platt³, S. Galea³, R. Goodwin^{1,3}, ¹Psychology, City University of New York, Queens, NY, ²Psychiatry, Yale University School of Medicine, New Haven, CT, ³Epidemiology, Columbia University, New York, NY
- 142 *An epidemiological test of the Kandel-Kandel hypothesis of Sept 2014: U.S. 2002-13*
K. Alcover, J. C. Anthony, Epidemiology & Biostatistics, Michigan State University, East Lansing, MI
- 143 *Crack, powdered cocaine, both or neither: A generalized logit analysis of a community-based sample*
G. L. Reynolds^{1,2}, D. G. Fisher¹, E. Erlyana², ¹Center for Behavioral Research and Services, California State University, Long Beach, Long Beach, CA, ²Health Care Administration, California State University, Long Beach, Long Beach, CA
- 144 *Social rank and cocaine dependence: Estimates for the United States, 2005-2013*
A. M. Mohammed, J. C. Anthony, Epidemiology and Biostatistics, Michigan State University, East Lansing, MI
- 145 *Estimated rapid transition from first stimulant use until onset of stimulant dependence: Larger for methamphetamine users?*
O. J. Santiago Rivera¹, J. C. Anthony², ¹Epidemiology, Michigan State University, Okemos, MI, ²Epidemiology and Biostatistics, Michigan State University, East Lansing, MI

- 146 *Prevalence and correlates of simultaneous heroin and methamphetamine injection in two parallel cohorts of PWID in San Diego, CA, and Tijuana, BC, Mexico*
M. C. Meacham^{1,2}, R. Armenta^{1,2}, R. Garfein¹, J. Cuevas-Mota¹, P. Gonzalez Moreno-Zuniga¹, S. Strathdee¹, ¹University of California San Diego, La Jolla, CA, ²San Diego State University, San Diego, CA
- 147 *Characteristics and predictors of naloxone utilization in a community-based overdose prevention program*
P. O. Coffin^{1,2}, C. Rowe¹, G. Santos¹, E. Vittinghoff³, E. Wheeler⁴, ¹Substance Use Research, San Francisco Department of Public Health, San Francisco, CA, ²HIV/AIDS, University of California San Francisco, San Francisco, CA, ³University of California San Francisco, San Francisco, CA, ⁴Harm Reduction Coalition, Oakland, CA

Symposium VI

**AZ Biltmore Ballroom
1:30 - 3:30 PM**

MINDFULNESS-BASED APPROACHES: FROM NEUROBIOLOGICAL MECHANISMS TO TREATMENT

Chairs: David Shurtleff and Emmeline Edwards

- 1:30 *Neurobiological mechanisms of mindfulness meditation*
Judson Brewer, University of Massachusetts Medical School, New Haven, MA
- 1:55 *Pharmacological facilitation of mindfulness training*
Elias Dakwar, New York State Psychiatric Institute, New York, NY
- 2:20 *Applying yoga to smoking cessation interventions*
Beth Bock, Miriam Hospital, Providence, RI
- 2:45 *Mindfulness-based relapse prevention: Theoretical and empirical foundations for treatment of addictive behaviors*
Sarah Bowen, University of Washington, Portland, OR
- 3:10 *DISCUSSANT:*
David Shurtleff, National Institutes of Health, Bethesda, MD

Symposium VII

**McArthur Ballroom 1/2
1:30 - 3:30 PM**

BEHAVIORAL ECONOMICS OF HEALTH DISPARITIES IN ADDICTION

Chairs: Adam Leventhal and Stephen T. Higgins

- 1:30 *Behavioral economic sources of disparities in addiction*
Adam Leventhal, University of Southern California Keck School of Medicine, Los Angeles, CA
- 1:55 *The behavioral economics of tobacco use among people with serious mental illness*
Jennifer W. Tidey, Brown University, Providence, RI
- 2:20 *Behavioral economics: Improving outcomes among disadvantaged women and infants*
Stephen T. Higgins, University of Vermont, Burlington, VT
- 2:45 *Behavioral economic incentives for drug abstinence in low-income adults at risk for HIV*
Kenneth Silverman, Johns Hopkins University School of Medicine, Baltimore, MD

3:10 *DISCUSSANT: Therapeutic opportunities for health disparities: Change and the limits of change*

Warren K. Bickel, Virginia Tech Carilion Research Institute, Roanoke, VA

Oral Communications 8

McArthur Ballroom 4

1:30 - 3:30 PM

MOMMAS WHO ABUSE: PERINATAL DRUG ABUSE

Chairs: Sarah H. Heil and Sarah A. Cercone

1:30 *Correspondence between self-reported and biochemical measures of cigarette smoking in pregnant women*

S. H. Heil, L. J. Solomon, J. M. Skelly, I. M. Bernstein, S. T. Higgins, Vermont Center on Behavior and Health, University of Vermont, Burlington, VT

1:45 *Individual characteristics and social process in influencing maternal smoking behavior: A longitudinal analysis of a national birth cohort*

W. Liu, E. Mumford, Public Health, NORC at University of Chicago, Bethesda, MD

2:00 *Prenatal tobacco exposure predicts child's internalizing behavior*

S. A. Cercone¹, G. G. Homish¹, R. D. Eiden², J. L. Derrick², ¹Community Health & Health Behavior, State University of New York at Buffalo, Buffalo, NY, ²Research Institute on Addictions, Buffalo, NY

2:15 *Second-hand smoke exposure during pregnancy and anxiety disorder in children at age 11-13*

J. Liu, H. Liu, W. Liu, School of Nursing, University of Pennsylvania, Philadelphia, PA

2:30 *Hospital admissions for alcohol use disorders in pregnancy*

C. L. Breen¹, F. Xu², L. Burns¹, ¹NDARC, UNSW, Sydney, NSW, Australia, ²UNSW, Simpson Centre for Health Services Research, Sydney, NSW, Australia

2:45 *Prevalence and predictors of antenatal alcohol use prior to awareness of pregnancy*

C. McCormack¹, D. Hutchinson¹, L. Burns¹, J. Wilson¹, E. Elliott², S. Allsop³, J. Najman⁴, C. Olsson⁵, S. Jacobs⁶, A. Bartu⁷, R. P. Mattick¹, ¹National Drug and Alcohol Research Centre, University of New South Wales, Sydney, NSW, Australia, ²Paediatrics and Child Health, Sydney Medical School, University of Sydney, Sydney, NSW, Australia, ³National Drug Research Institute, Curtin University of Technology, Perth, WA, Australia, ⁴Queensland Alcohol and Drug Research Education Centre, University of Queensland, Brisbane, QLD, Australia, ⁵Centre for Social and Early Emotional Development, Deakin University, Melbourne, VIC, Australia, ⁶Department of Obstetrics, Royal Prince Alfred Hospital, Sydney, NSW, Australia, ⁷School of Nursing and Midwifery, Curtin University, Perth, WA, Australia

3:00 *Prevalence of heavy fetal alcohol exposure during pregnancy in Canada: A population-based meconium study*

K. Delano^{1,2}, E. Pope^{2,3}, B. Kapur², G. Koren^{1,2}, ¹Pharmacology and Toxicology, The University of Toronto, Toronto, ON, Canada, ²Clinical Pharmacology and Toxicology, Hospital for Sick Children, Toronto, ON, Canada, ³Health Sciences, McMaster University, Hamilton, ON, Canada

3:15 *Maternal age and trajectories of marijuana use over 17 years*

N. De Genna¹, L. Goldschmidt², N. Day¹, M. Cornelius¹, ¹Psychiatry, University of Pittsburgh School of Medicine, Pittsburgh, PA, ²Western Psychiatric Institute and Clinic (WPIC), University of Pittsburgh Medical Center (UPMC), Pittsburgh, PA

Oral Communications 9**McArthur Ballroom 5/6
1:30 - 3:30 PM****MISTY ASPIRATIONS: VAPING**

Chairs: Olga Rass and Michael A. Taffe

- 1:30 *Use patterns, perceptions of relative harm, and gender effects in dual users of electronic and tobacco cigarettes*
O. Rass, L. R. Pacek, P. S. Johnson, M. W. Johnson, Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine, Baltimore, MD
- 1:45 *Use of electronic cigarettes among smokers in addiction treatment*
N. R. Gubner¹, T. Le², B. Tajima², B. Andrews², E. Passalacqua², J. Guydish², ¹CTCRE, UCSF, San Francisco, CA, ²IHPS, UCSF, San Francisco, CA
- 2:00 *Predictors of youth use of e-cigarettes for smoking cessation*
D. R. Camenga, G. Kong, D. A. Cavallo, C. Connell, K. M. Gutierrez, P. Simon, S. Krishnan-Sarin, Yale School of Medicine, New Haven, CT
- 2:15 *Informing the regulation of e-cigarettes to restrict youth access*
G. Kong², D. A. Cavallo², M. E. Morean³, D. R. Camenga¹, S. Krishnan-Sarin², ¹Pediatrics, Yale School of Medicine, New Haven, CT, ²Psychiatry, Yale University, New Haven, CT, ³Oberlin College, Oberlin, OH
- 2:30 *ECIG-induced suppression of nicotine/tobacco abstinence symptoms*
A. A. Lopez, M. Hiler, T. Ratner, K. Pettaway, A. Breland, T. Eissenberg, Psychology, Virginia Commonwealth University, Richmond, VA
- 2:45 *Efficacy of electronic cigarettes for smoking cessation in veterans*
J. Eisenhofer¹, T. Makanjuola¹, V. Martinez¹, D. G. Thompson-Lake¹, C. Rodgman², D. S. DeBrule², D. P. Graham², R. De La Garza, II¹, ¹Baylor College of Medicine, Houston, TX, ²Michael E. DeBakey VA Medical Center, Houston, TX
- 3:00 *Development and validation of a device for the intrapulmonary delivery of Δ^9 -tetrahydrocannabinol to rats*
M. A. Taffe, S. M. Aarde, M. Cole, CNAD, The Scripps Research Institute, La Jolla, CA
- 3:15 *Characterizing vaporizer use among cannabis users*
D. C. Lee², B. S. Crosier¹, A. J. Budney², ¹Center for Technology and Behavioral Health, Dartmouth College, West Windsor, VT, ²Psychiatry, Geisel School of Medicine at Dartmouth, Lebanon, NH

**Please be advised that no photographing of presentations or data is permitted.
Badges must be worn at all times and are required for admission into all events
and sessions.**

Symposium VIII

**McArthur Ballroom 1/2
3:45 - 4:45 PM**

USING TRANSLATIONAL RESEARCH TO DEVELOP INTERVENTIONS FOR STIMULANT USE DISORDERS: NONHUMAN PRIMATE, HUMAN LABORATORY AND CLINICAL TRIAL FINDINGS

Chairs: William W. Stoops and Paul W. Czoty

- 3:45 *Enhancing the predictive validity of laboratory animal drug self-administration procedures by incorporating clinically relevant variables*
Paul W. Czoty, Wake Forest School of Medicine, Winston-Salem, NC
- 4:10 *Utility and predictive validity of human laboratory drug self-administration measures for stimulant treatment development*
William W. Stoops, University of Kentucky, Lexington, KY
- 4:35 *Are new clinical trial designs needed for the successful translation of research into an effective medication for stimulant dependence?*
Keith Heinzerling, University of California-Los Angeles, Los Angeles, CA

Oral Communications 10

**McArthur Ballroom 5/6
3:45 - 4:45 PM**

MALLEABLE AGE: INFANTS AND CHILDREN

Chairs: Loretta Finnegan and Jillian Hardee

- 3:45 *Surveying lactation professionals regarding breastfeeding and marijuana use*
C. L. Bergeria^{3,2}, S. H. Heil^{3,1,2}, ¹Psychiatry, University of Vermont, Burlington, VT, ²Psychology, University of Vermont, Burlington, VT, ³Vermont Center on Behavior and Health, Burlington, VT
- 4:00 *Gender differences in the development of emotion circuitry in youth at risk for substance abuse: A longitudinal fMRI study*
J. Hardee, L. M. Cope, R. Zucker, M. Heitzeg, Psychiatry, University of Michigan, Ann Arbor, MI
- 4:15 *Drug- and alcohol-exposed pregnancies: Maternal and infant outcomes*
M. Tuten¹, S. Moore¹, H. Fitzsimons², M. Velez³, M. S. Chisolm², L. Jansson³, H. E. Jones⁴, ¹School of Social Work, UMB, Baltimore, MD, ²Psychiatry and Behavioral Sciences, JHU, Baltimore, MD, ³Pediatrics, JHU, Baltimore, MD, ⁴OB/GYN, UNC Chapel Hill, Chapel Hill, NC
- 4:30 *Gender differences in associations between childhood sexual abuse and illicit drug use in adulthood*
S. Gao¹, J. D. Scheidell², T. Champion¹, K. Vaddiparti¹, S. McGorray¹, M. R. Khan², ¹Colleges of Public Health & Health Professions and Medicine, University of Florida, Gainesville, FL, ²Population Health, New York University, New York, NY

Oral Communications 11

**AZ Biltmore Ballroom
3:45 - 5:45 PM**

MANAGING AGONY: OPIOIDS AND PAIN

Chairs: Silvia L. Cruz and Kate McHugh

- 3:45 *Adolescent oxycodone self administration alters subsequent antinociceptive effect of oxycodone in C57Bl/6J mice in adulthood*
J. H. Altschuler, K. Niikura, E. Butelman, M. Kreek, Y. Zhang, Laboratory of the Biology of Addictive Diseases, Rockefeller University, New York, NY
- 4:00 *Morphine and fentanyl chronic effects on lipopolysaccharide response and μ opioid receptor localization in mast cells*
S. L. Cruz, L. Molina, C. Gonzalez-Espinosa, Farmacobiología, Centro de Investigación y de Estudios Avanzados del IPN, Tlalpan, Mexico
- 4:15 *Inflammatory cytokines and pain in patients with opioid use disorders*
J. I. Tsui², M. C. Lira¹, D. M. Cheng³, M. R. Winter³, R. R. Edwards⁴, J. Mao⁵, J. Samet¹,
¹BU School of Medicine, Boston, MA, ²UW School of Medicine, Seattle, WA, ³BU School of Public Health, Boston, MA, ⁴Brigham and Women's Hospital, Chestnut Hill, MA, ⁵Mass General Hospital, Boston, MA
- 4:30 *Mortality and guideline-concordant long-term opioid therapy for pain*
J. R. Gaither¹, J. Goulet^{1,2}, W. Becker^{1,2}, S. Crystal³, E. Edelman¹, K. Gordon², R. Kerns^{1,2},
D. Rimland⁴, M. Skanderson², A. Justice^{1,2}, D. Fiellin¹, ¹Yale, New Haven, CT, ²VAHCS, West Haven, CT, ³Rutgers, New Brunswick, NJ, ⁴Emory, Atlanta, GA
- 4:45 *Predictors for high dose chronic opioid therapy*
D. Plott, S. Miller, MHCL, VHACIN, Cincinnati, OH
- 5:00 *Distress intolerance and prescription opioid abuse in chronic pain patients*
K. McHugh^{1,3}, R. R. Edwards^{2,3}, R. N. Jamison^{2,3}, M. C. Cornelius², R. Weiss^{3,1}, ¹McLean Hospital, Belmont, MA, ²Brigham and Women's Hospital, Boston, MA, ³Harvard Medical School, Boston, MA
- 5:15 *Pharmaceutical opioid use and dependence among people living with chronic pain: Associations observed within the Pain and Opioids In Treatment cohort*
G. Campbell², S. Nielsen², B. Larance², R. Bruno³, R. Mattick², W. Hall⁴, N. Lintzeris¹,
M. Cohen², K. Smith², L. Degenhardt², ¹Langton Centre, Sydney, NSW, Australia, ²National Drug and Alcohol Research Centre, University of NSW, Sydney, NSW, Australia, ³School of Psychology, University of Tasmania, Hobart, TAS, Australia, ⁴University of Queensland, Brisbane, QLD, Australia
- 5:30 *Examining DSM and ICD definitions of pharmaceutical opioid dependence in people taking opioids for chronic pain: Findings from the Pain and Opioids IN Treatment study*
L. Degenhardt², R. Bruno⁴, N. Lintzeris¹, W. Hall⁵, S. Nielsen², B. Larance³, M. Cohen³,
G. Campbell², ¹Langton Centre, Sydney, NSW, Australia, ²National Drug and Alcohol Research Centre, University of NSW, Sydney, NSW, Australia, ³University of New South Wales, Sydney, NSW, Australia, ⁴School of Medicine, University of Tasmania, Hobart, TAS, Australia, ⁵Centre for Youth Substance Abuse Research, University of Queensland, Brisbane, QLD, Australia

Oral Communications 12

**McArthur Ballroom 1/2
5:00 - 6:00 PM**

MECHANISMS OF ADDICTION

Chairs: Cassandra D. Gipson and Aron Lichtman

- 5:00 *The kappa opioid receptor agonist 16-bromosalvinorin A reduces cocaine seeking in rats*
A. Ewald², J. Miller², T. E. Prisinzano¹, B. M. Kivell², ¹Medicinal Chemistry, The University of Kansas, Lawrence, KS, ²Centre for Biodiscovery, Victoria University of Wellington, Wellington, New Zealand
- 5:15 *Disruption of cortical n-methyl-d-aspartate receptor tone governs impulsive action*
C. Krebs, N. C. Anastasio, C. Wood, Center for Addiction Research, University of Texas Medical Branch, Galveston, TX
- 5:30 *N-Acetylcysteine inhibits nicotine relapse-associated synaptic plasticity and restores glial glutamate transport in nicotine-withdrawn animals*
C. D. Gipson, S. Spencer, N. Stankeviciute, N. Allen, C. Garcia-Keller, P. W. Kalivas, Neurosciences, Medical University of South Carolina, Charleston, SC
- 5:45 *Dual blockade of endocannabinoid hydrolyzing enzymes reveal a CB₁ receptor-mediated interoceptive stimulus*
R. Owens¹, P. Beardsley¹, B. Cravatt³, A. Lichtman², ¹VCU, Richmond, VA, ²Virginia Commonwealth University, Richmond, VA, ³The Scripps Research Institute, La Jolla, CA

Symposium IX

**McArthur Ballroom 5/6
5:00 - 6:00 PM**

NEW PERSPECTIVES ON GENETICS AND METABOLOMICS OF NICOTINE DEPENDENCE AND SMOKING CESSATION: IMPLICATIONS FOR NICOTINE DEPENDENCE TREATMENT

Chair: Joni Rutter

- 5:00 *Genomic contributions to nicotine dependence: A meta-analysis*
Xiangning Chen, Virginia Commonwealth University, Richmond, VA
- 5:20 *Genetically variable pharmacokinetic influences on nicotine dependence: Implications for smoking cessation*
Meghan Chenoweth, University of Toronto, Toronto, ON, Canada
- 5:40 *Use of genomic and metabolomic data to increase smoking cessation success*
Li-Shiun Chen, Washington University School of Medicine, St. Louis, MO

Symposium X

**McArthur Ballroom 4
5:00 - 6:00 PM**

THE INTERPLAY OF PHARMACOKINETICS AND PHARMACODYNAMICS IN ABUSE POTENTIAL: MODELING MADNESS?

Chairs: Megan Shram and Sharon L. Walsh

- 5:00 *Pharmacokinetic and dynamic factors in abuse potential: Historical perspectives from research on opioids, stimulants and nicotine*
Jack Henningfield, The Johns Hopkins University School of Medicine, Bethesda, MD

5:20 *Drug metabolism within the brain alters drug response and abuse liability: Examples from propofol, codeine and nicotine in an animal model*

Rachel Tyndale, University of Toronto, Toronto, ON, Canada

5:40 *Use of PK-PD modeling to evaluate the impact of formulation on a subject's drug experience: Can we predict abuse potential?*

Megan Shram, University of Toronto, Toronto, ON, Canada

Workshop IX

McArthur Ballroom 1/2

7:00 - 9:00 PM

THE INTERTWINING EPIDEMICS OF DRUG USE AND HIV/AIDS: THE HIV/AIDS WORKGROUP

Chairs: Adam W. Carrico and Don C. Des Jarlais

Gender-specific HIV prevention interventions for women who use alcohol and other drugs: The evolution of the science and future directions

Wendee Wechsberg, Research Triangle Institute, Research Triangle Park, NC

Providing ART to HIV-seropositive persons who use drugs: Progress in New York City, prospects for "ending the epidemic"

Don C. Des Jarlais, Beth Israel Medical Center, New York, NY

Risk and protective factors associated with ARV adherence among aging, indigent, substance abusing people living with HIV

Maria A. Levi-Minzi, Nova Southeastern University, Miami, FL

Injection risk behavior and HIV and HCV prevalence among young opioid injectors in New York City

Pedro Mateu-Gelabert, National Development and Research Institutes, New York, NY

Longitudinal associations between the dissolution of committed partnerships that occurs during incarceration and post-release HIV risk among African-American men released from prison in North Carolina

Maria R. Khan, New York University, New York, NY

Two-year trajectories of HIV sexual risk behaviors among adolescents and emerging adults who use drugs

Erin E. Bonar, University of Michigan, Ann Arbor, MI

Development and factor analysis of a comprehensive behavioral risk assessment for infectious diseases

Evan S. Herrmann, Johns Hopkins University, Baltimore, MD

Theory-based text-messaging to reduce methamphetamine use and sex risks among men who have sex with men

Cathy J. Reback, Friends Research Institute, Los Angeles, CA

Modifying effects of HIV-status on correlates of smoking and vaping among men who have sex with men in San Francisco

Glenn-Milo Santos, University of California, San Francisco, San Francisco, CA

Substance use and delayed HIV testing among young black men who have sex with men

Adam W. Carrico, University of California, San Francisco, San Francisco, CA

Workshop X

**AZ Biltmore Ballroom
7:00 - 9:00 PM**

MARIJUANA LAWS: THE CHANGING LEGAL LANDSCAPE AND ITS CONSEQUENCES

Chair: Marsha Lopez

Medical marijuana laws and U.S. adolescent marijuana use: Results over 20 years

Deborah S. Hasin, Columbia University, New York, NY

Adolescent substance use and related risk factors in the context of changes in marijuana-related legislation in Washington and other states

Katarina Guttmanova, University of Washington, Seattle, WA

Science in the Federal courthouse: Marijuana rescheduling in a court case in California

Bertha Madras, Harvard Medical School, Belmont, MA

Health conditions and patterns of marijuana use among young adult medical marijuana patients in Los Angeles

Stephen Lankenau, Drexel University School of Public Health, Philadelphia, PA

Examining length of time between waking and first use of marijuana for the day in adult medical marijuana patients

Mark Ilgen, University of Michigan, Ann Arbor, MI

DISCUSSANT: Legalizing and regulating marijuana: Should we be worried?

Priscilla Hunt, Rand Corporation, Santa Monica, CA

Workshop XI

**McArthur Ballroom 4
7:00 - 9:00 PM**

21ST ANNUAL CONTINGENCY MANAGEMENT WORKING GROUP

Chairs: Kelly E. Dunn and Diann Gaalema

Open to all meeting attendees. For description, see back of book.

Workshop XII

**McArthur Ballroom 5/6
7:00 - 9:00 PM**

CULTURALLY ADAPTED SUBSTANCE ABUSE TREATMENTS FOR RACIAL/ETHNIC MINORITIES: CURRENT PERSPECTIVES AND FUTURE DIRECTIONS

Chairs: Kathleen Burlew and Carmen L. Masson

The research and practice of culturally adapting substance abuse treatments for Latino adolescents

Jason Burrow-Sanchez, University of Utah, Salt Lake City, UT

Considerations in the treatment of API: Counselor and patient perspectives

Martin Y. Iguchi, Georgetown University, Washington, DC

How improving substance use treatment with racial/ethnic minorities can inform treatment for all

Kamilla Venner, University of New Mexico, Albuquerque, Mexico

Grant-Writing Workshop (Pre-Registrants Only)

**AZ Biltmore Ballroom
8:00 - 12:00 PM**

Town Hall Industry/Academia Forum

**McArthur Ballroom 4
8:00 - 10:00 AM**

EVALUATION OF SOCIETAL AND ECONOMIC BURDEN OF PRESCRIPTION OPIOID ABUSE

Chairs: Beatriz Rocha and Beatrice Setnik

FDA's perspective on prescription drug abuse

Michael Klein, Food and Drug Administration, Silver Spring, MD

Societal impact of Rx opioid abuse from poison center and emergency medicine

Richard C. Dart, Rocky Mountain Poison and Drug Center - A Division of Denver Health, Denver, CO

An industry perspective on reducing the abuse of opioid medications

J. David Haddox, Purdue Pharma L.P., Stamford, CT

Abuse of prescription medicines: The primary care perspective

William McCarberg, American Academy in Pain Medicine, Poway, CA

Big data, crowdsourcing and harm reduction

Nabarun Dasgupta, University of North Carolina at Chapel Hill, Chapel Hill, NC

2015 Outreach Event

**UMOM New Day Center
9:00 - 12:00 PM**

Organized by Colleen Hanlon

Animals in Research Forum

**McArthur Ballroom 1/2
10:00 - 12:00 PM**

Chairs: Marilyn E. Carroll and Bert Weiss

Animal Forum

Defending scientific research in an age of extremism

J. David Jentsch, UCLA, Los Angeles, CA

The use of both female and male animals in NIH-funded research

Cora Lee Wetherington, NIDA, Bethesda, MD

**Please be advised that no photographing of presentations or data is permitted.
Badges must be worn at all times and are required for admission into all events
and sessions.**

Poster Session III

(Lunch)

Odd-numbered posters manned first hour;
Even-numbered, second hour

Frank Lloyd Wright Ballroom

12:00 - 2:00 PM

Set-up time begins Tuesday 3:00 PM

Must be removed at 2:00 PM Wednesday

CLUB DRUGS

- 1 *Repeated exposure to the 5-HT_{1B/1A} agonist, RU 24969, facilitates the acquisition of MDMA self-administration*
D. Aronsen, N. Bukholt, S. Schenk, Psychology, Victoria University of Wellington, Wellington, New Zealand
- 2 *The differential role of DA and 5-HT in the discriminative stimulus properties of high vs. low doses of \pm 3,4-methylenedioxymethamphetamine*
J. Webster, S. Schenk, D. Harper, Psychology, Victoria University of Wellington, Wellington, New Zealand
- 3 *Abuse liability evaluation of mephedrone in humans*
M. Farre¹, C. Pérez-Mañá¹, J. Mateus¹, M. Pujadas¹, F. Fonseca², M. Torrens², R. De la Torre³, E. Papaseit¹, ¹Human Pharmacology and Neurosciences, IMIM-UAB, Barcelona, Spain, ²Institut de Neuropsiquiatria i Addiccions (INAD), Parc de Salut Mar, Barcelona, Spain, ³Human Pharmacology and Neurosciences, IMIM-UPF, Barcelona, Spain
- 4 *Recent trend of drug-arrested charges and hospital visits in Taiwan: 2009-2013*
J. Hsu¹, C. Yu¹, S. Lee¹, W. Tsay¹, C. Chen², ¹Food and Drug Administration, Ministry of Health and Welfare, Taipei, Taiwan, ²Institute of Public Health, School of Medicine, National Yang-Ming University, Taipei, Taiwan
- 5 *Decreased thalamocortical connectivity in chronic ketamine users*
Y. Liao, J. Tang, Mental Health Institute, the Second Xiangya Hospital, Central South University, Changsha, China
- 6 *Comparative phenomenology of psilocybin experiences in research and non-research settings*
T. M. Carbonaro², M. Klinedinst², M. W. Johnson², R. R. Griffiths¹, ¹Departments of Psychiatry and Neuroscience, Johns Hopkins University School of Medicine, Baltimore, MD, ²Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine, Baltimore, MD
- 7 *Correlates between Brazilian club drug users men who have sex with men, psychiatric vulnerabilities and multiple sexual partners*
L. S. Remy², H. Surratt¹, S. Kutz¹, F. P. Pechansky², ¹Center for Applied Research on Substance Use and Health Disparities, Nova Southeastern University, Miami, FL, ²Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil
- 8 *Prevalence and patterns of the use of novel psychoactive substances, “kiken drugs”, among younger adults at dance parties in Japan*
T. Shimane¹, K. Wada¹, Y. Hidaka², M. Funada¹, ¹Drug Dependence Research, NIMH, NCNP, Kodaira, Japan, ²Takarazuka University School of Nursing, Osaka, Japan

PSYCHIATRIC COMORBIDITY

- 9 *Aripiprazole and risperidone in treatment of methamphetamine associated psychosis in China: A pilot randomized study*
G. Wang¹, Y. Zhang³, S. Zhang³, H. Chen³, Z. Xu³, W. Hao¹, M. C. Chawarski², ¹Mental Health Center, The Second Xiangya Hospital, Changsha, China, ²Psychiatry, Yale University School of Medicine, New Haven, CT, ³Wuhan Mental Health Center, Wuhan, China
- 10 *Psychiatric symptoms and treatment outcomes in cocaine-dependent adults treated with buprenorphine and long-acting naltrexone*
L. Mooney¹, M. P. Hillhouse², C. Thomas¹, A. Ang¹, A. Hasson¹, J. Annon¹, S. Reed¹, W. Ling¹, ¹UCLA, Los Angeles, CA, ²Integrated Substance Abuse Programs, UCLA, Los Angeles, CA
- 11 *Mindfulness-based relapse prevention improves stimulant use among adults with major depression and generalized anxiety disorder*
S. Glasner-Edwards³, L. Mooney¹, A. Ang¹, H. Chokron Garneau³, E. E. Hartwell³, M. Brecht², R. Rawson¹, ¹UCLA, Los Angeles, CA, ²Integrated Substance Abuse Programs, UCLA, Los Angeles, CA, ³Psychiatry, UCLA Integrated Substance Abuse Programs, Los Angeles, CA
- 12 *Mirtazapine pilot trial in comorbid MDD/SUD: Long-term follow-up results*
J. R. Cornelius¹, A. Douaihy¹, D. Daley¹, T. Chung¹, M. A. Wesesky¹, D. S. Wood¹, ¹Psychiatry, University of Pittsburgh, Pittsburgh, PA
- 13 *The interrelationship of culture and depression in the barrio*
Y. Villarreal¹, T. Luis², P. Bordnick², ¹Family & Community Medicine, University of Texas Medical School, Houston, TX, ²Graduate College of Social Work, University of Houston, Houston, TX
- 14 *Anhedonia, depression, anxiety, and craving for opiates in opiate addicts stabilized on oral naltrexone and long-acting naltrexone implant*
E. Krupitsky¹, E. Zvartau¹, E. Blokhina¹, E. Verbitskaya¹, V. Palatkin³, A. Tyurina², T. Yaroslavtseva³, N. Bushara³, A. Pecoraro⁴, G. E. Woody⁴, ¹St. Petersburg Pavlov State Medical University, St. Petersburg, Russian Federation, ²First Pavlov State Medical University, St. Petersburg, Russian Federation, ³St. Petersburg Bekhterev Research Psychoneurological Institute, St. Petersburg, Russian Federation, ⁴Psychiatry, University of Pennsylvania, Philadelphia, PA
- 15 *Incentivizing attendance to prolonged exposure in methadone maintenance*
J. M. Peirce¹, R. L. Schacht², R. K. Brooner¹, V. L. King¹, M. S. Kidorf¹, ¹Psychiatry and Behavioral Sciences, Johns Hopkins University, Baltimore, MD, ²Psychology, University of Maryland, Baltimore County, Baltimore, MD
- 16 *Factors associated with history of drug and psychiatric treatment among active heroin users*
J. J. Atchison², J. D. Jones¹, S. D. Comer¹, ¹Psychiatry, Columbia University and NYSPI, New York, NY, ²Psychology, City College of New York, New York, NY
- 17 *The impact of co-morbid Borderline Personality Disorder and Substance Use Disorder on HPA axis reactivity to social stressors*
R. Browne¹, E. Fertuck^{1,2}, B. Stanley², ¹The City College of New York (CUNY), Jamaica, NY, ²New York State Psychiatric Institute, New York, NY

- 18 *Gender influence on comorbidity and clinical features of cocaine-dependent patients*
C. Roncero^{1,3,2}, C. Daigre^{1,2}, L. Grau-López^{1,2,3}, E. Ros-Cucurull^{1,2,3}, L. Rodríguez-Cintas^{1,2,3},
C. Barral^{1,2,3}, N. Martínez-Luna^{1,2,3}, J. Pérez-Pazos^{1,2,3}, A. Egido^{1,2}, M. Prat^{1,2,3}, J. Gonzalez⁵,
A. Alfonso⁴, J. Alvarós^{1,2}, N. Tarifa^{1,2}, M. Casas^{2,3}, ¹Outpatient Drug Clinic, ASPB, Barcelona,
Spain, ²Psychiatry, Hospital Vall Hebron, Barcelona, Spain, ³Psychiatry, Universidad
Autónoma de Barcelona, Barcelona, Spain, ⁴Psychiatry, Universidad Nacional de Asunción,
Asunción, Paraguay, ⁵Psychiatry, Centro de Investigaciones del SNC, Bogota, Colombia
- 19 *Comorbidity and functioning of substance-dependent women with sexual abuse history in the
Stage II Women's Recovery Group therapy trial*
D. E. Sugarman^{1,2}, B. Iles², S. F. Greenfield^{1,2}, ¹Harvard Medical School/McLean Hospital,
Belmont, MA, ²Division of Alcohol and Drug Abuse; Division of Women's Mental Health,
McLean Hospital, Belmont, MA
- 20 *Shared and distinct neural mechanisms of inhibitory control in individuals with a history of a
substance use disorder and depression*
N. A. Crane¹, L. Gabriel¹, K. K. Meyers², A. L. Weldon¹, M. T. Kassel¹, R. J. Mermelstein¹,
J. Zubieta², S. A. Langenecker¹, ¹UIC, Chicago, IL, ²UM, Ann Arbor, MI
- 21 *Patterns of behavioral health services provided in a 2012 national sample of U.S. outpatient
substance use disorder treatment facilities: Implications for the treatment of co-occurring
disorders*
P. M. Mauro, C. M. Furr-Holden, R. Mojtabai, Department of Mental Health, Johns Hopkins
Bloomberg School of Public Health, Baltimore, MD
- 22 *Applying SBIRT to new settings: Preliminary findings of substance use disorder risk in
community mental health settings*
S. E. Spear², M. Karno³, S. Glasner-Edwards³, R. Rawson³, R. Saitz¹, B. Dominguez³,
¹Community Health Sciences, Boston University and Boston Medical Center, Boston, MA,
²Health Sciences, California State University, Northridge, Northridge, CA, ³Psychiatry, UCLA
Integrated Substance Abuse Programs, Los Angeles, CA
- 23 *Social support, cannabis misuse, and post-deployment depression in returning veterans*
M. B. Benz¹, J. Metrik^{1,2}, B. Borsari^{1,2}, ¹Behavioral and Social Sciences, Brown University,
Providence, RI, ²Providence VA Medical Center, Providence, RI
- 24 *Black-white disparities in risk for cannabis use and problems in women: The role of early
tobacco use, trauma type and psychiatric pathology*
K. B. Werner¹, V. V. McCutcheon², C. E. Sartor³, E. C. Nelson², A. C. Heath², K. K. Bucholz²,
¹Social Work, Washington University (WU), St. Louis, MO, ²Psychiatry, WU School of
Medicine, St. Louis, MO, ³Psychiatry, Yale School of Medicine, West Haven, CT
- 25 *The impact of nicotine dose assignment on affect and depression during extended exposure to
experimental Spectrum cigarettes: Findings from CENIC Project 1 Study 1*
L. R. Pacek³, R. Vandrey², J. W. Tidey¹, D. J. Drobes⁵, J. Koopmeiners⁶, A. Umbricht⁴,
D. Hatsukami⁷, E. Donny⁸, ¹Center for Alcohol & Addictions Studies, Brown University,
Providence, RI, ²Johns Hopkins University, Baltimore, MD, ³Psychiatry and Behavioral
Sciences, Johns Hopkins University, Baltimore, MD, ⁴Johns Hopkins University School
of Medicine, Baltimore, MD, ⁵Department of Health Outcomes and Behavior, Moffitt
Cancer Center, Tampa, FL, ⁶Division of Biostatistics, University of Minnesota School
of Public Health, Minneapolis, MN, ⁷Department of Psychiatry, University of Minnesota
Medical School, Minneapolis, MN, ⁸Department of Psychology, University of Pittsburgh,
Pittsburgh, PA

- 26 *Dimensional and categorical phenotypes using Tobacco Use Disorder criteria: Investigating socio-demographic, psychiatric and clinical correlates*
J. M. Castaldelli-Maia^{1,2}, L. H. Andrade¹, A. Andrade^{1,2}, S. S. Martins³, ¹Department of Psychiatry, University of São Paulo Medical School, São Paulo, Brazil, ²Department of Neuroscience, Fundação do ABC Medical School, Santo André, Brazil, ³Epidemiology, Columbia University, New York City, NY
- 27 *Cigarette smoking and the onset and persistence of panic attacks during mid-adulthood in the United States: 1994-2005*
J. Bakhshaie², M. J. Zvolensky², R. Goodwin¹, ¹Queens College, City University of New York, Flushing, NY, ²Psychology, University of Houston, Houston, TX

ADOLESCENT II

- 28 *The relationship between risky substance use and friends' use of nicotine, alcohol, and other drugs in an adolescent sample*
S. M. Kelly¹, K. O'Grady², J. Gryczynski¹, S. G. Mitchell¹, A. Kirk³, R. P. Schwartz¹, ¹Friends Research Institute, Baltimore, MD, ²Univ. of Maryland, College Park, MD, ³Total Health Care, Baltimore, MD
- 29 *Transition from first substance use to crack-cocaine: Predictors of faster addiction progression, and clinical characteristics in crack-cocaine adolescents users*
T. G. Pianca², R. L. Rosa³, A. P. Begnis⁴, P. B. Ferronato⁵, M. Jensen⁴, F. P. Pechansky¹, L. A. Rohde², C. Szobot², ¹Psychiatry, Center for Drug and Alcohol Studies at HCPA/UFRGS, Porto Alegre, Brazil, ²Child & Adolescent Psychiatry Service, Universidade Federal do Rio Grande do Sul, Porto Alegre, Brazil, ³Hospital Psiquiátrico São Pedro, Porto Alegre, Brazil, ⁴ULBRA, Canoas, Brazil, ⁵Universidade Federal do Rio Grande do Sul, Porto Alegre, Brazil
- 30 *Alcohol and tobacco use among Brazilian high school students: The role of psychiatric symptomatology*
T. M. Fidalgo², Z. M. Sanchez³, S. Caetano², E. Carlini³, S. S. Martins¹, ¹Epidemiology, Columbia University, New York City, NY, ²Psychiatry, Federal University of Sao Paulo, Santos, Brazil, ³Preventive Medicine, Universidade Federal de Sao Paulo, Sao Paulo, Brazil
- 31 *Association of alcohol use with drug use and weapon carrying among Thai adolescents*
O. Saiphoklang¹, K. Wongboonsin¹, P. Wongboonsin¹, U. Perngparn³, L. Cottler², ¹College of Population Studies, Chulalongkorn University, Bangkok, Thailand, Patumwan, Thailand, ²Epidemiology, University of Florida, Gainesville, FL, ³College of Public Health Sciences, Chulalongkorn University, Patumwan, Thailand
- 32 *Effectiveness of suicide prevention programs with high-risk adolescent alcohol users*
S. Fernández-Artamendi², S. Al-Halabi², P. Burón², E. Díaz-Mesa², M. Garrido², G. Galván², J. Rancaño², R. Secades-Villa¹, P. García-Portilla², P. Sáiz², J. Bobes², ¹Addictive Behaviors Research Group. Department of Psychology, University of Oviedo, Oviedo, Spain, ²Department of Psychiatry - University of Oviedo, Biomedical Networking Research Centre for Mental Health (CIBERSAM), Oviedo, Spain
- 33 *A prospective study of alcohol advertisement on alcohol experiences among adolescents in Taiwan*
H. Huang¹, K. Chen¹, F. Tseng¹, W. Chen², C. Chen^{1,3}, ¹Institute of Public Health, National Yang-Ming University, Taipei, Taiwan, ²College of Public Health, National Taiwan University, Taipei, Taiwan, ³Center for Neuropsychiatric Research, National Health Research Institutes, ZuNan, Taiwan
- 34 *Reducing underage drinking through comprehensive community interventions: The Strategic Prevention Framework*
K. D. Anderson-Carpenter, UCLA Integrated Substance Abuse Programs, Los Angeles, CA

- 35 *Underage drinking diversion: Characterizing risk with latent class analysis*
N. Mendoza, E. Anthony, D. Row-Sepowitz, Arizona State University, Phoenix, AZ
- 36 *Adolescent substance use: Latent class and transition analysis*
J. R. Temple², H. Choi², M. T. Schulte¹, M. S. Ahmed³, T. Nanovskaya², ¹UCLA Integrated Substance Abuse Programs, Los Angeles, CA, ²Ob/Gyn, UTMB Health, Galveston, TX, ³OB/GYN Maternal Fetal Medicine, University of Texas Medical Branch, Galveston, TX
- 37 *Daily patterns of substance use and sexual behavior among urban adolescents and emerging adults*
E. E. Bonar³, M. Walton¹, E. Austic¹, F. Blow³, B. M. Booth², A. Buu⁴, R. M. Cunningham¹, ¹Univ Michigan, Ann Arbor, MI, ²Psychiatry, Univ. Ark Med Sciences, Little Rock, AR, ³Psychiatry, Building 16, University of Michigan; North Campus Research Complex, Ann Arbor, MI, ⁴Indiana University, Bloomington, IN

Symposium XI
CPDD/INRC Joint Symposium

AZ Biltmore Ballroom
2:00 - 4:00 PM

NOVEL STRATEGIES FOR REDUCING OPIOID ABUSE

Chairs: Sandra Comer and Paul Pentel

- 2:00 *Prospects for serotonin therapeutics in addictive disorders*
Kathryn A. Cunningham, University of Texas Medical Branch, Galveston, TX
- 2:30 *Development of vaccines for opioid abuse*
Marco Pravetoni, University of Minnesota, Minneapolis, MN
- 3:00 *Assessing the ability of glial inhibitors to alter the abuse liability of opioids using laboratory models in humans*
Jermaine D. Jones, Columbia University, New York, NY
- 3:30 *Epidemiology on the impact of opioid abuse-deterrent medications on opioid abuse in the community*
Ted Cicero, Washington University, St. Louis, MO

Symposium XII

McArthur Ballroom 1/2
2:00 - 4:00 PM

**ENVIRONMENTAL AND SOCIAL INFLUENCES ON DRUG-TAKING:
THE GOOD, THE BAD AND THE UGLY**

Chairs: Minda Lynch and Michael T. Bardo

- 2:00 *Differential effects of enrichment on stimulant reward in males and females*
Sari Izenwasser, University of Miami Miller School of Medicine, Miami, FL
- 2:25 *Anti-craving effects of environmental enrichment: Generalization to different drugs of abuse*
Marcello Solinas, University of Poitiers, Poitiers Cedex, France
- 2:50 *The influence of social learning on drug self-administration*
Mark A. Smith, Davidson College, Davidson, NC
- 3:15 *Dyadic social interaction as an alternative reward to cocaine*
Gerald Zernig, Medical University of Innsbruck, Innsbruck, ACT, Australia
- 3:40 *DISCUSSANT: The translational puzzle: Fitting the pieces*
Michael T. Bardo, University of Kentucky, Lexington, KY

Symposium XIII

McArthur Ballroom 4
2:00 - 4:00 PM

**CANNABIS USE IN YOUTH: NEUROCOGNITIVE EFFECTS,
GENETIC MODERATORS, AND EPIGENETIC FINDINGS**

Chair: Krista Lisdahl

- 2:00 *Half baked? Exploring the impact of early onset marijuana use on brain structure and function*
Staci A. Gruber, McLean Hospital - CCNC, Belmont, MA
- 2:25 *Endocannabinoid genetics moderate the impact of regular cannabis use on cognition and brain structure in adolescents and emerging adults*
Krista Lisdahl, UW-Milwaukee, Milwaukee, WI

- 2:50 *Genetic modulators of marijuana's effects on brain morphometry*
Francesca Filbey, University of Texas at Dallas, Dallas, TX
- 3:15 *Methylation patterns in adolescent cannabis use symptoms: A preliminary investigation*
Sarah Feldstein Ewing, University of New Mexico, Albuquerque, NM
- 3:40 *DISCUSSANT: Cannabis science: Information needed to inform policy*
Krista Lisdahl, UW-Milwaukee, Milwaukee, WI

Oral Communications 13

McArthur Ballroom 5/6
2:00 - 4:00 PM

MULTIPLE ADVERSITIES: COMORBIDITY

Chairs: Kristen D. Seay and Steven L. Batki

- 2:00 *A comparison of male and female caregivers: Caregiver depression as a mediator in the pathway from caregiver problematic drug use to child internalizing behaviors*
K. D. Seay, College of Social Work, The University of South Carolina, Columbia, SC
- 2:15 *Retention in a methadone maintenance treatment: Impact of comorbidity*
F. Fonseca^{2,3}, C. Castillo^{2,3}, D. Martinez-Sanvisens^{2,3}, P. Rossi^{2,3}, A. Roquer², M. Farre^{3,1}, M. Torrens^{2,3,4}, ¹Human Pharmacology and Neurosciences, IMIM-UAB, Barcelona, Spain, ²Institut de Neuropsiquiatria i Addiccions (INAD), Parc de Salut Mar, Barcelona, Spain, ³IMIM (Institut Hospital del Mar d'Investigacions Mèdiques), Barcelona, Spain, ⁴Psychiatry Department, Autonomous University of Barcelona, Barcelona, Spain
- 2:30 *Association between morningness/eveningness, addiction severity and psychiatric disorders among individuals with addictions*
C. Kervran¹, R. Debrabant², J. Taillard², P. Philip², M. Auriacombe¹, M. Fatseas¹, ¹Addiction Psychiatry (CNRS USR 3413), Université Bordeaux, Bordeaux, France, ²Sanpsy CNRS USR 3413, Sleep Research, Bordeaux, France
- 2:45 *Association between drug use and suicidal ideation and attempt among at-risk primary care patients*
L. Ashrafioun², W. R. Pigeon², K. R. Conner², T. M. Bishop², S. Leong¹, D. W. Oslin¹, ¹Philadelphia VA, Philadelphia, PA, ²VISN 2 Center of Excellence for Suicide Prevention, Canandaigua, NY
- 3:00 *A comparison of attempted suicide rates by methylphenidate exposure in adult and adolescent populations*
E. M. McRae, M. C. Le Lait, N. West, R. C. Dart, RMPDC, Denver, CO
- 3:15 *Borderline personality disorder diagnosis, diagnostic criteria, and criterion count as predictors of regularly drinking alcohol before sex among adults in the United States*
R. G. Thompson², N. R. Eaton³, M. Hu⁴, D. S. Hasin¹, ¹Epidemiology, Columbia University, New York, NY, ²Psychiatry, Columbia University, New York, NY, ³Psychology, Stony Brook University, Stony Brook, NY, ⁴Columbia University, New York, NY
- 3:30 *ADHD and substance use disorders: Subtype and gender differences*
H. Hurmic, R. Debrabant, C. Kervran, F. Serre, M. Auriacombe, M. Fatseas, Addiction Psychiatry (CNRS USR 3413), Université Bordeaux, Bordeaux, France
- 3:45 *Smoking and non-alcohol substance use in veterans with PTSD and alcohol use disorder*
S. L. Batki^{1,2}, D. Pennington², B. Lasher², E. Herbst², E. Schrodek², S. Yohannes², J. McDonald², B. Schmeling², T. Wong², ¹UCSF, San Francisco, CA, ²SFVAMC, San Francisco, CA

Wednesday, June 17, 2015

Late-Breaking Research

**AZ Biltmore Ballroom
4:15 - 5:15 PM**

Business Meeting
(MEMBERS ONLY)

**AZ Biltmore Ballroom
5:15 - 6:00 PM**

DINNER AND DANCING
BADGES MUST BE WORN FOR ADMISSION

**McArthur Ballroom 1/2
7:30 - 10:30 PM**

**Please be advised that no photographing of presentations or data is permitted.
Badges must be worn at all times and are required for admission into all events
and sessions.**

Poster Session IV

(Breakfast)

Odd-numbered posters manned first hour;
Even-numbered, second hour

Frank Lloyd Wright Ballroom

8:00 - 10:00 AM

Set-up time begins Wednesday 3:00 PM

Must be removed at 12:00 Noon Thursday

BENZODIAZEPINE, INHALANTS

- 1 *Gender effects on zolpidem efficacy and safety*
T. Roehrs^{1,2}, T. Roth^{1,2}, ¹Sleep Disorders Center, Henry Ford Health System, Detroit, MI, ²Dept of Psychiatry, Wayne State University, School of Medicine, Detroit, MI
- 2 *WITHDRAWN*
- 3 *Reinstatement of drug-seeking behavior in rats trained to self-administer intravenous injections of midazolam*
B. W. Gunter¹, D. Platt¹, D. Rueedi-bettschen¹, K. Freeman¹, J. Rowlett^{1,2}, ¹Psychiatry and Human Behavior, Univ. Mississippi Medical Center, Jackson, MS, ²Tulane National Primate Research Center, Covington, LA
- 4 *Problematic pregabalin and gabapentin use: Results from the Canada Vigilance Adverse Reaction Online Database*
M. Zhang^{1,2}, B. Sproule^{1,2}, ¹Centre for Addiction and Mental Health, Toronto, ON, Canada, ²University of Toronto, Toronto, ON, Canada
- 5 *Evidence for sedative effects of benzodiazepines involving unexpected GABA_A receptor subtypes*
J. Rowlett^{2,1,3}, A. N. Duke^{4,1}, D. Platt^{2,1}, O. A. Namjoshi⁵, M. Poe⁶, P. Tiruveedhula⁶, J. Cook⁶, ¹NEPRC, Harvard Med Sch, Southborough, MA, ²University of Mississippi Medical Center, Jackson, MS, ³TNPRC, Tulane Univ, Covington, LA, ⁴Wake Forest Medical Center, Winston-Salem, NC, ⁵Discovery Sciences, RTI International, Research Triangle Park, NC, ⁶University of Wisconsin-Milwaukee, Milwaukee, WI
- 6 *Oral midazolam consumption using a two-bottle choice procedure in C57BL/6J mice*
M. E. Follett¹, J. Rowlett^{1,2}, ¹University of Mississippi Medical Center, Jackson, MS, ²Tulane National Primate Research Center, Covington, LA
- 7 *Cardiovascular toxicity of single and repeated inhalation of “Kolla” – A locally abused Egyptian glue*
A. A. Elkoussi, Pharmacology, Assiut College of Medicine, Assiut, Egypt

ABUSE LIABILITY

- 8 *Designing a human abuse potential study for a drug with a novel mechanism of action*
K. Bonson, M. Klein, Controlled Substance Staff, Food and Drug Administration, Silver Spring, MD
- 9 *Abuse potential of oral phendimetrazine in cocaine-dependent individuals*
W. W. Stoops^{1,2,3}, B. L. Bolin¹, J. P. Sites⁴, C. R. Rush^{1,2,3}, ¹Behavioral Science, University of Kentucky, Lexington, KY, ²Psychology, University of Kentucky, Lexington, KY, ³Psychiatry, University of Kentucky, Lexington, KY, ⁴College of Medicine, University of Kentucky, Lexington, KY

- 10 *Assessment of human abuse potential of dasotraline compared to methylphenidate and placebo in recreational stimulant users*
K. S. Koblan¹, S. S. Hopkins¹, K. Sarma¹, N. Senmartin¹, N. Levy-Cooperman², K. Schoedel², A. Loebel¹, ¹Sunovion Pharmaceuticals, Inc, Marlborough, MA, ²Altreos Research Partners, Toronto, ON, Canada
- 11 *An exploratory human abuse potential assessment of centanafadine, a novel triple reuptake inhibitor*
M. Shram^{1,3}, K. Schoedel¹, N. Chen⁴, D. Kelsh⁵, C. O'Brien², B. Robertson², T. Hsu², ¹Altreos Research Partners, Inc., Toronto, ON, Canada, ²Neurovance, Inc., Cambridge, MA, ³Department of Pharmacology and Toxicology, University of Toronto, Toronto, ON, Canada, ⁴Alstat, Toronto, ON, Canada, ⁵Vince and Associates Clinical Research, Overland Park, KS
- 12 *New epidemiological evidence on coca leaf chewing and a dependence syndrome in 2008*
V. Cruz^{1,3,2}, J. C. Anthony^{1,3}, ¹Epidemiology, Michigan State University, East Lansing, MI, ²Peruvian National Institute of Mental Health, Lima, Peru, ³School of Public Health, Cayetano Heredia University, Lima, Peru
- 13 *Changes in the pain analgesic and heroin epidemiology*
J. C. Maxwell, Addiction Research Institute, University of Texas at Austin, Austin, TX
- 14 *Abuse liability of controlled-release oxycodone formulations*
B. Rafat^{1,2}, A. Smith¹, K. Farid Araki¹, A. Furlan^{3,2}, B. Sproule^{1,2}, ¹Centre for Addiction and Mental Health, Toronto, ON, Canada, ²University of Toronto, Toronto, ON, Canada, ³University Health Network, Toronto, ON, Canada
- 15 *Individual difference in opioid response*
K. E. Dunn³, B. Brands^{1,4}, D. Marsh^{5,6}, G. Bigelow², ¹Health Canada, Toronto, ON, Canada, ²Psychiatry & Behavioral Sciences, Johns Hopkins Medical School, Baltimore, MD, ³Johns Hopkins School of Medicine, Baltimore, MD, ⁴University of Toronto, Toronto, ON, Canada, ⁵Northern Ontario School of Medicine, Sudbury, ON, Canada, ⁶Laurentian University, Sudbury, ON, Canada
- 16 *Subjective and objective evidence of low abuse potential of the peripherally acting kappa opioid, CR845, compared with pentazocine*
J. W. Stauffer¹, F. Menzaghi¹, L. R. Webster², R. H. Spencer¹, N. E. Abrouk³, M. Lewis¹, D. Chalmers¹, ¹Cara Therapeutics, Shelton, CT, ²PRA, Salt Lake City, UT, ³Innovex, Mountain View, CA
- 17 *Prevalence of opioid misuse in cancer survivors in palliative medicine clinic at a tertiary cancer center*
N. Moryl, A. Wiesenthal, T. Nikolova, Medicine, Memorial Sloan Kettering Cancer Center, New York, NY
- 18 *Opioid therapy for chronic non-cancer pain: Does typology of risk predict aberrant behaviour?*
A. Peacock¹, L. Degenhardt³, N. Lintzeris², B. Larance³, G. Campbell³, S. Nielsen³, M. Cohen³, R. Bruno¹, ¹UTAS, Hobart, TAS, Australia, ²Langton Centre, Sydney, NSW, Australia, ³UNSW, Sydney, NSW, Australia
- 19 *The abuse liability of buprenorphine is blocked by samidorphan, a novel opioid modulator, in rats tested in the intracranial self-stimulation paradigm*
M. S. Todtenkopf, K. O'Neill, D. Deaver, Life Sciences, Alkermes, Inc., Cambridge, MA
- 20 *Locomotor depression and THC-like discriminative stimulus effects of three novel synthetic cannabinoids: ADBICA, THJ-2201, and ADB-PINACA*
S. Dolan, M. J. Forster, M. B. Gatch, Pharmacology & Neuroscience, UNT Health Science Center, Fort Worth, TX

THC

- 21 *Cytotoxicity of synthetic cannabinoids on primary neuronal cells of the forebrain*
M. Funada, K. Tomiyama, K. Wada, Drug Dependence Research, NIMH, NCNP, Kodaira, Japan
- 22 *Cannabidiol and tetrahydrocannabinol interactions on antinociception in male and female rats*
S. Britch, Psychology, Washington State University, Pullman, WA
- 23 *Effects of norbinaltorphimine pretreatment on THC-induced place and taste avoidance in Sprague-Dawley rats*
S. M. Flax¹, A. G. Wakeford¹, K. Rice^{2,3}, A. Riley¹, ¹Psychology, American University, Washington, DC, ²Chemical Biology and Research Branch, National Institute on Drug Abuse, Bethesda, MD, ³National Institute on Alcohol Abuse and Alcoholism, Bethesda, MD
- 24 *Multidimensional assessment of cue-elicited increases in incentive salience for marijuana*
J. Metrik¹, E. Aston¹, C. W. Kahler¹, D. Rohsenow¹, J. McGeary¹, V. Knopik¹, J. MacKillop², ¹Brown University, Providence, RI, ²McMaster University, Hamilton, ON, Canada
- 25 *Magnitude and duration of cue-induced craving for marijuana in volunteers with cannabis use disorder*
L. H. Lundahl², M. Greenwald¹, ¹Psychiatry, Wayne State University, Detroit, MI, ²Psychiatry and Behavioral Neuroscience, Wayne State University School of Medicine, Detroit, MI
- 26 *Effects of repeated cue exposure on cannabis craving*
J. S. Fogel², T. H. Kelly^{2,1}, A. M. Harvanko², J. Lile¹, ¹Behavioral Science, University of Kentucky, Lexington, KY, ²Psychology, University of Kentucky, Lexington, KY
- 27 *Eye tracking measures of attentional bias to individually calibrated marijuana cues*
J. H. Yoon, A. Vujanovic, M. Weaver, R. Suchting, C. Green, J. Schmitz, S. D. Lane, Psychiatry and Behavioral Sciences, University of Texas Health Science Center - Houston, Houston, TX
- 28 *Cannabis use, schizotypy, and attentional inhibition*
L. Albertella¹, M. Le Pelley², J. Copeland¹, ¹National Cannabis Prevention and Information Centre, UNSW Medicine, Sydney, NSW, Australia, ²Psychology, UNSW, Sydney, NSW, Australia
- 29 *ADHD and the risk of initiation of marijuana use among a national sample of youth 10 to 18 years of age*
C. Okafor, S. O. Lasopa, C. W. Striley, R. Cook, L. Cottler, Epidemiology, University of Florida, Gainesville, FL
- 30 *Methods for associating trajectories of comorbidities: ADHD and substance use*
S. K. Mikulich-Gilbertson, B. D. Wagner, P. D. Riggs, S. K. McWilliams, G. O. Zerbe, Univ. of Colorado, Aurora, CO
- 31 *Mixed-amphetamine salts increase abstinence from marijuana in patients with co-occurring attention-deficit/hyperactivity disorder and cocaine dependence*
D. Notzon³, J. J. Mariani², M. Pavlicova¹, A. Glass⁵, A. Mahony³, D. J. Brooks⁴, J. Grabowski⁶, F. R. Levin², ¹Martina Pavlicova, Columbia University, New York, NY, ²Psychiatry/Division on Substance Abuse, Columbia University/New York State Psychiatric Institute, New York, NY, ³Division on Substance Abuse, NY State Psychiatric Institute, New York, NY, ⁴Substance Abuse, NYSPI, New York, NY, ⁵Biostatistics, New York State Psychiatric Institute, New York, NY, ⁶Psychiatry, University of Minnesota, Minneapolis, MN

- 32 *Cannabidiol attenuates the increased susceptibility to false memories produced by tetrahydrocannabinol*
M. Valle², L. C. Martial², M. Garrido², A. Rodríguez-Fornells³, M. Punes⁴, R. M. Antonijoan¹, J. Claramunt⁴, D. Martínez⁴, M. González⁴, M. Martínez⁴, J. Pérez de los Cobos¹, J. Riba⁴, ¹Hospital de la Santa Creu i Sant Pau, Barcelona, Spain, ²Pharmacokinetic and pharmacodynamic modeling and simulation, Institut de Recerca HSCSP, Barcelona, Spain, ³IDIBELL, Hospitalet de Llobregat, Spain, ⁴Institut de Recerca HSCSP, Barcelona, Spain
- 33 *Examination of the behavioral effects of oral cannabidiol alone and in combination with smoked marijuana*
S. Babalonis¹, M. R. Lofwall¹, P. A. Nuzzo¹, C. Elayi², R. J. Malcolm³, M. Haney⁴, S. L. Walsh¹, ¹Behavioral Science and Center on Drug and Alcohol Research, Univ of Kentucky, Lexington, KY, ²Internal Medicine, Univ of Kentucky, Lexington, KY, ³Psychiatry and Behavioral Sciences, Medical Univ of South Carolina, Charleston, SC, ⁴Psychiatry, Columbia University, New York, NY
- 34 *The point of a joint: A multivariate classification of marijuana use motives*
A. Ketcherside, F. Filbey, Behavior and Brain Sciences, University of Texas at Dallas, Dallas, TX
- 35 *Acute effects of cannabis on young drivers' performance of driving-related skills*
J. Burston^{2,1}, R. Mann^{1,2}, B. Le Foll^{1,2}, G. Stoduto¹, C. Wickens^{1,2}, J. Pan^{2,1}, M. A. Huestis³, B. Brands^{4,1,2}, ¹Centre for Addiction and Mental Health, Toronto, ON, Canada, ²University of Toronto, Toronto, ON, Canada, ³IRP, Chemistry and Drug Metabolism, National Institute on Drug Abuse, Baltimore, MD, ⁴Health Canada, Ottawa, ON, Canada
- 36 *Preliminary report on the residual effects of cannabis on young drivers' performance of driving-related skills*
J. Pan^{2,1}, R. Mann¹, B. Brands^{3,1,2}, G. Stoduto¹, C. Wickens¹, J. Burston^{2,1}, M. A. Huestis⁴, B. Le Foll^{1,2}, ¹Centre for Addiction and Mental Health, Toronto, ON, Canada, ²Pharmacology and Toxicology, University of Toronto, Toronto, ON, Canada, ³Health Canada, Ottawa, ON, Canada, ⁴IRP, Chemistry and Metabolism, National Institute on Drug Abuse, Baltimore, MD
- 37 *Physiologic effects of dronabinol during opioid withdrawal in humans*
P. A. Nuzzo¹, M. R. Lofwall¹, S. Elayi², K. Gill¹, S. Babalonis¹, S. L. Walsh¹, ¹Behavioral Science, Center on Drug and Alcohol Research, Univ. of Kentucky, Lexington, KY, ²Internal Medicine, Univ. of Kentucky, Lexington, KY
- 38 *Effects of fixed or self-titrated dosages of Sativex on cannabis users*
J. M. Trigo¹, D. Lagzdins¹, J. Rehm², P. Selby³, I. Gamaledin¹, B. Fischer^{2,4}, A. Barnes⁵, M. Huestis⁵, B. Le Foll¹, ¹Translational Addiction Research Laboratory, Centre for Addiction and Mental Health, Toronto, ON, Canada, ²Social and Epidemiological Research, Centre for Addiction and Mental Health, Toronto, ON, Canada, ³Ambulatory Care and Structured Treatments, Centre for Addiction and Mental Health, Toronto, ON, Canada, ⁴Faculty of Health Sciences, Simon Fraser University, Vancouver, BC, Canada, ⁵National Institute on Drug Abuse, Baltimore, MD
- 39 *A randomized delayed implementation trial of computerized brief intervention for drug misuse*
R. P. Schwartz¹, J. Gryczynski¹, S. G. Mitchell¹, K. O'Grady³, S. Ondersma², ¹Friends Research Institute, Baltimore, MD, ²Wayne State, Detroit, MI, ³University of Maryland, College Park, MD
- 40 *Do alcohol-focused interventions reduce marijuana use in mandated college students?*
A. Yurasek², A. Fernandez², M. Miller², J. Metrik¹, B. Borsari², ¹Behavioral and Social Sciences, Brown University, Providence, RI, ²Public Health, Brown University, Providence, RI

- 41 *A very brief intervention for cannabis users in an emergency department setting*
L. Webb, N. Clement, E. Matalon, T. Joel, J. Copeland, National Cannabis Prevention and Information Centre, UNSW Medicine, Sydney, NSW, Australia
- 42 *Development of a brief cannabis use disorder screening tool: The CUDIT Short-Form*
M. O. Bonn-Miller^{2,3,4}, A. Heinz³, E. Smith⁵, R. Bruno¹, S. Adamson⁶, ¹School of Psychology, University of Tasmania, Hobart, TAS, Australia, ²Center of Excellence in Substance Abuse Treatment and Education, VA Palo Alto Health Care System, Menlo Park, CA, ³National Center for PTSD, VA Palo Alto Health Care System, Menlo Park, CA, ⁴Department of Psychiatry, University of Pennsylvania, Philadelphia, PA, ⁵Department of Educational Psychology, University of Illinois at Chicago, Chicago, IL, ⁶National Addiction Centre, University of Otago, Christchurch, New Zealand
- 43 *Challenges encountered while recruiting frequent marijuana smokers for an outpatient laboratory study*
V. R. Votaw, S. Babalonis, M. R. Lofwall, P. A. Nuzzo, S. L. Walsh, Behavioral Science and Center on Drug and Alcohol Research, Univ. of Kentucky, Lexington, KY

IMAGING

- 44 *Neuroimaging and cognitive abnormalities in anabolic androgenic steroid abusers*
M. Kaufman, E. Jensen, A. Janes, J. Hudson, G. Kanayama, A. Kerrigan, H. Pope, McLean Hospital, Belmont, MA
- 45 *Impact of adolescent marijuana use on emotion processing: An fMRI study*
L. M. Cope, J. Hardee, M. E. Martz, R. Zucker, M. Heitzeg, University of Michigan, Ann Arbor, MI
- 46 *Correlation between PFC gyrification and white matter integrity in young cannabis users*
S. G. Shollenbarger², J. S. Price¹, K. E. Maple², K. M. Lisdahl², ¹McLean Hospital - Harvard Medical School, Belmont, MA, ²Psychology, University of Wisconsin-Milwaukee, Milwaukee, WI
- 47 *Cortical thinning in adolescent females with substance and conduct problems*
P. Boulos¹, M. Dalwani¹, J. Tanabe¹, S. K. Mikulich-Gilbertson¹, M. T. Banich², T. J. Crowley¹, J. Sakai¹, ¹University of Colorado, Aurora, CO, ²University of Colorado Boulder, Boulder, CO
- 48 *Sleep quality does not predict frontolimbic white matter integrity in young marijuana users*
K. E. Maple, S. G. Shollenbarger, E. R. Gilbert, K. M. Lisdahl, Psychology, University of Wisconsin-Milwaukee, Milwaukee, WI
- 49 *Neural activation to social influence in young adult cannabis users*
J. Gilman^{1,2}, M. Curran¹, V. Calderon¹, A. Evins^{1,2}, ¹Massachusetts General Hospital, Boston, MA, ²Harvard Medical School, Boston, MA
- 50 *Neural correlates of attentional bias for cannabis cues: Influence of sex*
T. Franklin¹, R. R. Wetherill¹, K. Jagannathan¹, N. Hager¹, J. Suh¹, A. Childress¹, ¹Psychiatry, Perelman School of Medicine at the University of Pennsylvania, Philadelphia, PA
- 51 *Cannabis users show increased susceptibility to false memories*
J. Riba¹, F. Sampedro², A. Rodríguez-Pujadas², S. Martínez-Horta¹, J. Kulisevsky¹, J. Pérez-de-los-Cobos¹, A. Rodríguez-Fornells¹, M. Valle¹, ¹Hospital Sant Pau, Barcelona, Spain, ²University of Barcelona, Barcelona, Spain
- 52 *Regional grey matter volume and externalizing score: Not yet related in middle childhood*
J. Sakai¹, M. Dalwani¹, M. A. McMahon¹, S. K. Mikulich-Gilbertson¹, J. Tanabe¹, S. K. McWilliams¹, K. Raymond¹, M. T. Banich², T. J. Crowley¹, ¹University of Colorado, Aurora, CO, ²University of Colorado Boulder, Boulder, CO

- 53 *Positive association between cingulate brain volume and sensation seeking in young adults*
T. H. Kelly¹, M. J. Wesley¹, C. E. Emurian¹, C. A. Martin¹, J. E. Joseph², J. A. Lile¹,
¹University of Kentucky, Lexington, KY, ²Medical University of South Carolina,
Charleston, SC
- 54 *Inhibitory control: A brain connectivity study comparing cocaine-dependent subjects and controls*
L. Ma¹, J. L. Steinberg¹, K. A. Cunningham², S. D. Lane³, J. M. Bjork¹, P. A. Narayana³,
T. Kosten⁴, A. Bechara⁵, F. Moeller¹, ¹Virginia Commonwealth University Institute for Drug
and Alcohol Studies, Richmond, VA, ²University of Texas Medical Branch, Galveston, TX,
³University of Texas Health Science Center, Houston, TX, ⁴Baylor College of Medicine,
Houston, TX, ⁵University of Southern California, Los Angeles, CA
- 55 *Influence of dorsolateral prefrontal cortex and ventral striatum on risk avoidance in addiction: A mediation analysis*
D. Yamamoto¹, C. Woo², T. Wager², J. Tanabe¹, ¹Radiology, University of Colorado Denver,
Aurora, CO, ²Psychology and Neuroscience, University of Colorado Boulder, Boulder, CO
- 56 *Aberrant brain function as at-risk children make risky decisions*
T. J. Crowley¹, M. Dalwani¹, S. Mikulich-Gilbertson¹, J. Sakai¹, S. Young¹, K. Raymond¹,
S. K. McWilliams¹, M. T. Banich^{1,2}, ¹Univ. of Colorado Denver, Aurora, CO, ²Univ. of

Symposium XIV

INRC/CPDD Joint Symposium

AZ Biltmore Ballroom
10:00 - 12:00 PM

CANNABINOID MECHANISMS AND INTERVENTIONS

Chair: Todd Vanderah

- 10:00 *Therapeutic interventions through the modulation of CB1/CB2 cannabinoid receptor function*
Alexandros Makriyannis, Northeastern University, Boston, MA
- 10:30 *Inhibition of the 2-AG biosynthetic enzyme diacylglycerol lipase beta: Antinociception through a cannabinoid receptor independent pathway*
Aron Lichtman, Virginia Commonwealth University, Richmond, VA
- 11:00 *Synergistic actions of opioid/cannabinoid agents for discrete pain etiologies*
Todd Vanderah, University of Arizona-Tucson, Tucson, AZ
- 11:30 *The therapeutic promise of nonpsychoactive cannabinoid analgesics*
Andrea G. Hohmann, Indiana University, Indianapolis, IN

Oral Communication 14

McArthur Ballroom 1/2

10:00 - 12:00 PM

MEDICATIONS FOR ABUSE—LATEST FINDINGS: TREATMENTS FOR STIMULANT ABUSE

Chairs: Sally L. Huskinson and Stephanie M. Groman

- 10:00 *Impact of an exercise intervention on methamphetamine use outcomes post residential treatment care*
R. Rawson¹, J. Chudzynski¹, R. Gonzales-Castaneda^{2,1}, A. Ang¹, D. Dickerson¹, L. Mooney¹, J. Penate¹, B. Salem¹, B. Dolezal³, C. Cooper³, ¹Integrated Substance Abuse Programs, UCLA, Los Angeles, CA, ²Psychology, Azusa Pacific University, Azusa, CA, ³Exercise Physiology Research Laboratory, UCLA, Los Angeles, CA
- 10:15 *The cocaine use reduction with buprenorphine study: Cocaine use findings*
L. Walter¹, M. Hillhouse¹, A. Saxon², L. Mooney¹, C. Thomas¹, A. Ang¹, A. Hasson¹, J. Annon¹, C. Study Group³, ¹UCLA, Los Angeles, CA, ²VA Puget Sound Health Care System, Seattle, WA, ³CTN, Bethesda, MD

10:00 - 12:00 PM**

**MEDICATIONS ANTIRETROVIRAL LEVELS AND
FUNCTIONALITY: HIV/AIDS**

Chairs: Richard Saitz and David S. Festinger

- 10:00 *The microbiota-gut-brain axis as a potential therapeutic approach for HIV-1+ cocaine abuse*
S. B. Harrod, S. J. Bertrand, C. F. Mactutus, D. Booze, Psychology, University of South Carolina, Columbia, SC
- 10:15 *Exposure to HIV-1 Tat protein potentiates the rewarding effects of morphine and reinstates extinguished conditioned place preference*
J. P. McLaughlin², M. L. Ganno², J. J. Paris², Y. Zhang¹, M. J. Kreek¹, ¹The Laboratory of the Biology of the Addictive Diseases, The Rockefeller University, New York, NY, ²Torrey Pines Institute for Molecular Studies, Port St. Lucie, FL
- 10:30 *The North-South divide: Substance use risk, care engagement, and viral suppression among hospitalized HIV-infected patients in 11 U.S. cities*
M. Philbin¹, D. Feaster^{2,3}, L. Gooden^{2,3}, Y. Pan³, M. Das², R. Pati², G. Lucas², H. Coley², A. Nijhawan², J. Jacobson², R. Mandler², E. Daar², D. McMahon², C. del Rio², L. Metsch^{1,2,3}, ¹Columbia University, New York, NY, ²NIDA Clinical Trials Network, Bethesda, MD, ³University of Miami, Miami, FL
- 10:45 *Childhood parental incarceration and HIV-related drug and sex risk over the young adult life course*
M. R. Khan¹, S. McGorray², J. D. Scheidell¹, K. Vaddiparti², L. M. Brotman¹, ¹Population Health, New York University, New York, NY, ²Colleges of Public Health & Health Professions and Medicine, University of Florida, Gainesville, FL
- 11:00 *The effects of opioid substitution treatment and highly active antiretroviral therapy on the cause-specific risk of mortality among opioid-dependent individuals with HIV/AIDS*
B. Nosyk^{1,4,3}, J. Min¹, E. Evans², L. Li³, L. Liu⁵, V. D. Lima¹, E. Wood¹, J. Montaner¹, ¹BC Centre for Excellence in HIV/AIDS, Vancouver, BC, Canada, ²UCLA, Los Angeles, CA, ³UCLA Integrated Substance Abuse Programs, Los Angeles, CA, ⁴Faculty of Health Sciences, Simon Fraser University, Vancouver, BC, Canada, ⁵Northwestern University, Chicago, IL
- 11:15 *Is opioid use associated with T cell dysfunction?*
K. Armah², E. J. Edelman¹, D. M. Cheng², M. Doyle⁴, S. Coleman², C. Bridden², N. Gnatenko², D. Lioznov³, E. Blokhina³, B. Emu¹, M. Freiberg⁵, E. Krupitsky³, J. Samet², ¹Yale, New Haven, CT, ²Boston University, Boston, MA, ³First Pavlov State Medical University of St. Petersburg, St. Petersburg, Russian Federation, ⁴UVM, Colchester, VT, ⁵Vanderbilt, Nashville, TN
- 11:30 *Substance dependence criteria, not substance use, associated with HIV virologic control*
S. Nolan¹, A. Walley², T. Heeren², G. Patts², A. S. Ventura², M. Sullivan², J. Samet², R. Saitz², ¹Department of Medicine, University of British Columbia, Vancouver, BC, Canada, ²Boston University, Boston, MA
- 11:45 *Delivering HIV prevention services to drug court clients*
D. Festinger, K. L. Dugosh, Section on Law and Ethics, Treatment Research Institute, Philadelphia, PA

Symposium XV

**McArthur Ballroom 4
10:00 - 11:00 AM**

**A TRIO OF TRANSLATIONAL PROJECTS: BIOMARKERS,
BIOIMMUNOLOGY, AND BEHAVIOR IN RODENTS AND HUMANS**

Chairs: Karran A. Phillips and Kenzie L. Preston

- 10:00 *Identification of novel lipid biomarkers of cocaine use in humans*
Brian Cummings, University of Georgia, Athens, GA
- 10:20 *A novel mechanism of levamisole-induced autoimmunity in cocaine use*
Peter Grayson, National Institute of Arthritis and Musculoskeletal and Skin Diseases, National Institutes of Health, Bethesda, MD
- 10:40 *Buprenorphine plus clonidine increases time to lapse and reduces heroin craving at low-to-moderate stress levels*
Kenzie L. Preston, National Institute on Drug Abuse, National Institutes of Health, Baltimore, MD

Symposium XVI

**McArthur Ballroom 4
11:15 - 12:15 PM**

**NEW STRATEGIES TO IDENTIFY THE GENETICS OF
ADDICTION-RELATED BEHAVIORS IN MICE**

Chair: J. David Jentsch

- 11:15 *Impulsivity and cocaine reinforcement: Identifying genetic relationships in inbred mice*
J. David Jentsch, University of California at Los Angeles, Los Angeles, CA
- 11:35 *Initial sensitivity to cocaine in genetically diverse inbred mouse strains*
Lisa Tarantino, University of North Carolina, Chapel Hill, NC
- 11:55 *Behavioral predictors of drug self-administration in diversity outbred mice*
Elissa J. Chesler, The Jackson Laboratory, Bar Harbor, ME

**BRUNCH WITH CHAMPIONS
(PRE-REGISTRANTS ONLY)**

**Aztec
12:15 - 1:15 PM**

Oral Communications 16

**McArthur Ballroom 1/2
1:30 - 2:30 PM**

LATE-NIGHT FUNKADELICS: CLUB DRUGS

Chairs: Ryan A. Gregg and Michael S. Placzek

- 1:30 *Effects of the GLT-1 activator ceftriaxone on the rewarding and locomotor activating effects of 'bath salt' compound 3,4-methylenedioxypyrovalerone in rats*
R. A. Gregg¹, C. S. Tallarida¹, S. Rawls¹, ¹Center for Substance Abuse Research, Temple University School of Medicine, Philadelphia, PA

- 1:45 *Self-administration of second-generation synthetic cathinones in rats*
J. Naylor¹, E. Townsend¹, K. Freeman¹, J. Rowlett², B. E. Blough³, S. L. Huskinson¹,
¹Psychiatry and Human Behavior, The University of Mississippi Medical Center, Jackson, MS,
²University of Mississippi Medical Center, Jackson, MS, ³Center for Drug Discovery,
Research Triangle Institute, Research Triangle Park, NC
- 2:00 *Immediate and persistent effects of salvinorin A on the kappa opioid receptor in rodents, monitored in vivo with PET*
M. S. Placzek^{2,1}, G. C. Van de Bittner¹, H. Wey¹, S. E. Lukas², J. M. Hooker¹, ¹Martinos Center for Biomedical Imaging, Department of Radiology, Massachusetts General Hospital, Harvard Medical School, Boston, MA, ²Psychiatry, McLean Hospital/Harvard Medical School, Belmont, MA
- 2:15 *Body temperature and cardiovascular effects of some synthetic cannabinoids found in “spice” products*
C. W. Schindler¹, Z. Justinova¹, E. B. Thorndike¹, S. R. Goldberg¹, M. H. Baumann²,
¹Preclinical Pharmacology, NIH/NIDA Intramural Research, Baltimore, MD, ²Designer Drug Research, NIH/NIDA Intramural Research, Baltimore, MD

Oral Communications 17

McArthur Ballroom 4
1:30 - 2:30 PM

MALADAPTIVE ALCOHOL LIBATIONS AND FIREWATER: ALCOHOL ABUSE

Chair: Elizabeth J. Santa Ana

- 1:30 *Early parental supply of alcohol and alcohol consumption in mid-adolescence: A longitudinal study*
R. P. Mattick¹, M. Wadolowski¹, A. Aiken¹, J. Najman³, K. Kypri⁴, T. Slade¹, D. Hutchinson¹,
R. Bruno², N. McBride⁵, ¹National Drug & Alcohol Research Centre, University of New South Wales, Sydney, NSW, Australia, ²School of Psychology, University of Tasmania, Hobart, TAS, Australia, ³School of Public Health, University of Queensland, Brisbane, QLD, Australia, ⁴Centre for Clinical Epidemiology & Biostatistics, School of Medicine & Public Health, University of Newcastle, Newcastle, NSW, Australia, ⁵National Drug Research Institute, Curtin University, Perth, WA, Australia
- 1:45 *Delay discounting and alcohol abuse among early adolescents*
C. Lopez-Nuñez, S. Weidberg, V. Martinez-Loredo, I. Pericot-Valverde, R. Secades-Villa, J. Fernández-Hermida, Department of Psychology, University of Oviedo, Oviedo, Spain
- 2:00 *6-month follow-up of baclofen treatment in patients with alcohol use disorder and other psychiatric comorbidities*
B. Gelot¹, M. Fatseas¹, F. Serre¹, C. M. Denis^{2,1}, J. Dubernet³, S. Sarram³, M. Auriacombe¹,
¹Addiction Psychiatry (CNRS USR 3413), Université Bordeaux, Bordeaux, France,
²University of Pennsylvania, Philadelphia, PA, ³Addiction Psychiatry, CH Ch Perrens/CHU Bordeaux, Bordeaux, France
- 2:15 *Impact of telehealth in-home-messaging devices on alcohol use in dually diagnosed veterans*
E. J. Santa Ana¹, S. Martino², M. Gebregziabher¹, ¹Charleston VAMC and Medical University of South Carolina, Charleston, SC, ²Yale University School of Medicine, West Haven, CT

Oral Communications 18

**McArthur Ballroom 5/6
1:30 - 2:30 PM**

MUST ACT, LITTLE FORETHOUGHT: IMPULSIVITY

Chair: Ayca Coskunpinar

- 1:30 *The effects of mirtazapine on pramipexole-induced riskiness in a rat model of Parkinson's disease*
N. A. Holtz², S. E. Tedford², A. Persons¹, C. Napier¹, ¹Rush University Medical Center, Chicago, IL, ²Pharmacology, Rush University Medical Center, Chicago, IL
- 1:45 *The protective effect of enrichment on drug abuse vulnerability may reflect a decrease in mood-based impulsivity using a rat model of negative urgency*
D. B. Vazquez-Sanroman^{1,2}, M. T. Bardo^{1,2}, ¹Psychology, University of Kentucky, Lexington, KY, ²Center for Drug Abuse Research Translation, Lexington, KY
- 2:00 *Nicotine shows a therapeutic effect on impulsivity through a different mechanism from that of paroxetine*
H. Miyata¹, N. Murota², K. Sawa³, N. Hironaka⁴, K. Nakayama¹, ¹Psychiatry, Jikei University School of Medicine, Tokyo, Japan, ²Pharmacology, Ina-Research, Tokyo, Japan, ³Graduate School of Humanity, Senshu University, Kawasaki, Japan, ⁴Pharmacology, Mitsubishi Chemical Medience Corp, Udo, Japan
- 2:15 *Sex differences in effects of trait impulsivity on vulnerability to substance dependence*
A. Coskunpinar³, J. Vassileva², E. Martin¹, ¹Psychiatry, Rush University Medical Center, Chicago, IL, ²Virginia Commonwealth University, Richmond, VA, ³Behavioral Sciences, Rush University Medical Center, Chicago, IL

SWEEPSTAKES DRAWING

**McArthur Ballroom 4
2:45 - 3:15 PM**

***YOU MUST BE SEATED IN ONE OF THE SESSIONS
STARTING AT 1:30 PM IN ORDER TO HAVE YOUR BADGE
COLLECTED FOR THE DRAWING***

HAVE A SAFE TRIP HOME!

SEE YOU IN LA QUINTA, CA, JUNE, 11-16, 2016

SYMPOSIA

Sunday, June 14

I. Females and Flowers: Sex Differences in the Dependence-Related Effects of Δ^9 -THC

Chairs: Jenny Wiley and Cora Lee Wetherington

Cannabis continues to be the most frequently used illicit substance in the U.S., with user numbers expected to increase as a result of the growing movement to decriminalize/legalize recreational use and the push for acceptance of medicinal use for a wide variety of putative therapeutic indications. While the number of male recreational users still exceeds that of female users, this gender gap is steadily decreasing. In addition, some of the disorders for which the use of medicinal cannabis is promoted (e.g., multiple sclerosis, chronic pain) may disproportionately affect women. This upward trend for cannabis use among females is particularly disconcerting, as previous research has shown that women tend to exhibit a faster progression from substance use to abuse. Further, the limited extant laboratory research has demonstrated sex differences in the effects of Δ^9 -tetrahydrocannabinol (Δ^9 -THC), the primary psychoactive constituent of marijuana, in humans and in animals, with females tending to be more sensitive. In concordance with the NIH initiative mandating consideration of both sexes in clinical *and* preclinical research, the primary goal of this symposium is to present the latest data from studies in humans and rodents on gender/sex differences in the subjective, neurocognitive, antinociceptive, and dependence-related effects of Δ^9 -THC. Mechanistic underpinnings of observed sex differences in behavior will be explored in the rodent models, with an emphasis on the modulatory role of gonadal hormones. Implications of these findings will form the basis for a lively audience discussion with the speaker panel.

II. Naloxone for Overdose Prevention: Expansion to Multiple Settings and Populations

Chairs: Caleb Banta-Green and Phillip Coffin

Naloxone for lay opioid overdose reversal has rapidly been gaining favor nationwide as a key response to the opioid overdose epidemic. Initially developed for heroin users and largely distributed through low-threshold drug service programs such as syringe exchange, naloxone is now also being dispensed through multiple venues, such as primary care, emergency medicine, retail pharmacies, substance use disorder treatment programs, and prisons. Speakers will review several modalities of naloxone provision, including implementation and initial outcome data from several state, local, private and NIDA-funded research studies. The development and refinement of interventions will be discussed including how to engage health care and other service providers, potential overdose victims and community responders. Measurement of intermediate and ultimate outcomes will be discussed including implications, findings and advancing the science in this arena. In addition to implementation issues within clinical and non-clinical settings, the rationale and strategies for working with relevant community partners such as law enforcement will be examined.

SYMPOSIA

Monday, June 15

III. Posttraumatic Stress and Substance Use Disorders: Treatment Initiatives and Challenges

Chairs: Anka A. Vujanovic and Joy M. Schmitz

Posttraumatic stress disorder (PTSD) co-occurs at high rates with substance use disorders (SUD) and is a significant risk factor for poorer SUD treatment outcomes (e.g., stronger cravings, faster time to relapse). Individuals with PTSD often use substances to escape/avoid aversive PTSD symptoms and regulate negative emotional states, thus underscoring the transactional nature of this comorbidity. Diverse integrated treatments that address both aspects of this highly prevalent and difficult-to-treat comorbidity are imperative for improving treatment outcomes and thus alleviating the related public health burden. This symposium aims to elucidate clinical research advances in this domain by showcasing novel SUD treatments for individuals with PTSD that incorporate biological and technological innovations as well as evidence-based psychosocial interventions. Speakers will present an integrated treatment for PTSD and alcohol use disorder that incorporates antidepressant medication and cognitive behavioral therapy (CBT); research integrating mobile technologies in the treatment of comorbid PTSD and SUD; results of randomized controlled trials (RCTs) of integrated treatment for PTSD-SUD that combine CBT for SUD with prolonged exposure therapy for PTSD; and preliminary findings of a RCT of an integrated treatment for PTSD-SUD that combines elements of relapse prevention with cognitive therapy and written exposure for PTSD. The importance of SUD treatment for populations with multiple psychiatric conditions will be discussed highlighting gains, challenges, and future directions.

IV. Emerging Evidence on Opioid-related Overdose Risk and Intervention

Chairs: Howard Chilcoat and Nabarun Dasgupta

Opioid-related fatal and non-fatal overdoses have increased several-fold over the last decade. The emergence of this public health problem requires greater knowledge of the factors influencing overdose risk with the goal of developing strategies to reduce this risk in patients prescribed opioids as well those who abuse opioids. Recent epidemiologic research has begun to shed light on risk factors for opioid overdose, which in turn has influenced prescribing policies. However, in order to develop policies and practice guidelines that can be most effective in reducing overdose risk and ensure effective treatment for patients, a deeper understanding of the causal influences on overdose is needed. To address this need, we examine data from epidemiologic studies on factors that impact opioid risk in patients as well as in non-patients who abuse these drugs, and we consider their implications for policy and practice. These include findings from epidemiologic studies from the US and UK on the relationship between opioid dose and overdose risk, and the role of factors such as sedative/hypnotics and prescriptions of multiple opioids as confounders of this association. We augment these findings with results from a qualitative study of individuals who experienced an overdose to examine the factors and circumstances that led up to overdose. Finally, we present findings from a community-based intervention that has been shown to reduce overdose fatalities. The discussion will consider the implications of these findings and how they can be used to guide strategies to reduce overdose risk among patients and those that use nonmedically.

SYMPOSIA

Monday, June 15

V. Cannabidiol and Drugs of Abuse: Preclinical and Clinical Studies of Cannabidiol and Cocaine, Ethanol, Opioids and Cannabinoids

Chairs: Margaret Haney and Yasmin Hurd

Cannabidiol (CBD), a nonpsychoactive constituent of cannabis has attracted recent attention in the scientific and popular press for its potential medical utility as an anticonvulsant or antipsychotic, as well as for its potential to reduce the abuse liability of drugs. Yet empirical evidence of CBD's effects is quite limited. The aim of this symposium to provide novel preclinical and clinical data on the effects of CBD administration in combination with cocaine, ethanol, opioids and cannabinoids. Speakers will describe preclinical studies demonstrating that transdermal CBD reduced ethanol and cocaine seeking in response to both drug-related cues and stressful stimuli; clinical studies showing that oral CBD was well tolerated when co-administered with i.v. fentanyl and that CBD may reduce craving in response to heroin-paired cues; describe a human laboratory study showing that i.v. CBD reduced i.v. THC-induced psychotomimetic effects in non-cannabis smokers but did not reduce THC intoxication and worsened THC-induced deficits in learning; and present data from a multi-site human laboratory study showing that oral CBD was well tolerated but did not reduce cannabis self-administration or its positive subjective effects relative to placebo. The Discussant will summarize the effects of CBD and will describe preclinical and clinical studies testing CBD for opioid dependence.

Tuesday, June 16

VI. Mindfulness-Based Approaches: From Neurobiological Mechanisms to Treatment

Chairs: David Shurtleff and Emmeline Edwards

Mindfulness – based therapies involve training individuals to non-judgmentally attend to, and be aware of thoughts and feelings on a moment-to-moment basis. The underlying principles for this approach involve perceptual distancing and acceptance leading to increased tolerance of symptoms, and maladaptive cognitive or emotional processes, greater self-awareness and self-motivation leading to improved coping strategies, and reduced autonomic arousal. At a basic level, researchers studying mindfulness-based interventions are gaining insight into the cognitive and neurobiological mechanisms associated with these approaches. At the applied level of research, mindfulness-based approaches are being studied and developed as therapies, and possible viable options for the treatment of many psychiatric disorders, including substance use disorder (SUD). Researchers are also exploring the use of medications to facilitate mindfulness-based training, which may improve its overall therapeutic effectiveness. This symposium will explore the underlying cognitive and neurobiological mechanism of mindfulness-based approaches as well as some of their practical uses and efficacy for both the proximal benefit and longer term sustainability of treatment gains for individuals suffering with chronic relapsing disorders, such as SUD.

SYMPOSIA

Tuesday, June 16

VII. Behavioral Economics of Health Disparities in Addiction

Chairs: Adam Leventhal and Stephen Higgins

Efforts to offset the public health burden of addiction have not equally benefited all members of society, leading to disparities among those facing disadvantages. Investigation of sources of addiction-related disparities has typically focused on sociopolitical factors without meaningfully incorporating behavioral science. Similarly, behavioral addiction science has often overlooked the socioenvironmental context. This symposium synthesizes these perspectives by discussing and integrating human laboratory, clinical, and epidemiological research that applies behavioral economic approaches to understand and eliminate health disparities in addiction. The symposium's overarching framework is that the biopsychosocial context surrounding disparities disproportionately amplifies the salience of behavioral economic mechanisms underlying drug use motivation for disparate populations by enhancing the reinforcing value of drugs and diminishing the value of healthy non-drug reinforcers. Laboratory and epidemiologic research demonstrating how and why disparate populations are vulnerable to imbalances in the relative reinforcing value of drug vs. non-drug alternatives will be reviewed, as will laboratory research on the behavioral economics of tobacco use among individuals with serious mental illness. Data from socioeconomically disadvantaged women illustrating how a behavioral economic framework enhances scientific understanding and suggests effective interventions for reducing smoking and promoting other healthy behaviors, and data that applies the behavioral economic framework to feasible interventions among chronically unemployed intravenous drug abusers will be presented. A discussion with a view toward forward translation to intervention and back translation to etiology will follow.

VIII. Using Translational Research to Develop Interventions for Stimulant Use

Disorders: Nonhuman Primate, Human Laboratory and Clinical Trial Findings

Chairs: William W. Stoops and Paul W. Czoty

Stimulant use disorders present a persistent and significant public health concern. Despite considerable efforts to identify a treatment that reduces or eliminates stimulant use, no pharmacotherapies have been approved, nor have effective behavioral treatments been widely adopted. One barrier to identification and dissemination of effective treatments for stimulant use disorder may be a lack of a translational "pipeline" that moves putative interventions from laboratory models into clinical trials. Research efforts to identify stimulant treatments may also be hampered by methodological problems within individual disciplines. The speakers in this mini-symposium will present innovative and translational treatment development research, moving from nonhuman primate studies to human laboratory studies to clinical trials, as a means of promoting a more deliberate system of stimulant treatment evaluation. Speakers will highlight areas of strength and provide recommendations for improving upon existing practices to guide future research in this arena. In total, this mini-symposium will move the field of stimulant treatment development forward by providing a forum for a translational range of researchers to present and discuss their work, as well as by articulating suggestions for enhancing the utility and predictive validity of existing strategies.

SYMPOSIA

Tuesday, June 16

IX. New Perspectives on Genetics and Metabolomics of Nicotine Dependence and Smoking Cessation: Implications for Nicotine Dependence Treatment

Chair: Joni L. Rutter

The hope of understanding the molecular basis of drug addiction is driven, in part, by the remarkable progress that has been made in the field of genetics during the past decade. Attributing to these successes is the notion that the addiction field benefits from a vast knowledge of a given drug's mechanism of action. Among these, for example, are genes encoding for enzymes involved with drug metabolism, such as cytochrome P450 2A6 that metabolizes nicotine at a rate driven by genetic variation and measured by the nicotine metabolite ratio (NMR), as well as gene variants that modulate the response to the rewarding or aversive effects of nicotine, such as the nicotinic subunit receptor cluster CHRNA5/A3/B4. In the United States, approximately 435,000 deaths are attributed to tobacco. Nearly half of the people who smoke want to stop; however most attempts fail. The more highly dependent smokers have greater difficulty quitting. Challenges remain in understating which and how these genetic variations contribute to nicotine addiction and to smoking cessation, and how to begin to apply current knowledge towards increasing and maintaining the quit rates. This mini-symposium will highlight the genetic and metabolomics science to date, and offer varying perspectives on the potential of this information for guiding treatment for nicotine dependence.

X. The Interplay of Pharmacokinetics and Pharmacodynamics in Abuse Potential: Modeling Madness?

Chairs: Megan Shram and Sharon Walsh

The aims of the symposium are to describe current knowledge of the pharmacokinetic-pharmacodynamic (PK-PD) relationship of abused drugs, factors that may influence this relationship, and how this might impact the future development of drug formulations. It is generally accepted that the rate of rise of drug concentrations contributes to the abuse potential of a drug; however, this relationship may vary by drug class. In addition, a number of non-PK factors can influence the subjective response to a drug, including prior drug experience, level of tolerance, measure and genetics; case examples will be presented to highlight some of these factors. Regarding development of formulations intended to deter prescription drug abuse, there is an increased need to understand the quantitative link between the PK of the drug formulation and the results of human abuse potential studies so that we may better predict outcomes based on the mechanism of deterrence. Questions will be raised for discussion with the audience.

SYMPOSIA

Wednesday, June 17

XII. Environmental and Social Influences on Drug-Taking: The Good, The Bad and The Ugly

Chairs: Minda Lynch and Michael Bardo

A host of environmental influences have been investigated for their impact on drug-taking and drug-seeking. These include physical and sensory enhancements (“enriched” environments, including exercise) *versus* impoverished, isolated or sedentary behavioral conditions, and social facilitation/interaction (play, social learning/imitation, and social hierarchies). This preclinical research mimics environmental influences on drug abuse vulnerability that have been well documented in human and clinical research and provides a rich translational opportunity for examining neurobiological mechanisms conveying risk and protection. Experimental designs model the prevention and treatment potential of varied manipulations and allow for mechanistic investigations of biological embedding – how external influences ‘get under the skin’ to affect learning and motivation through key prefrontal and limbic neurocircuitry. Moreover, sex differences have been observed in the effects of these external influences, paralleling significant gender differences in human drug abuse and addiction. Speakers will introduce environmental enrichment as a protectant against abuse, and discuss sex differences in the effects of physical and social environmental manipulations; present evidence for potential neurobiological mechanisms through which enrichment confers resilience; and present research on social facilitation using behavioral models of drug self-administration, where the converse -- enhanced vulnerability, has been observed in pair-trained animals; and offer a different perspective on the social environment, revealing that social influences can act as alternative rewards to attenuate abuse.

XIII. Cannabis Use in Youth: Neurocognitive Effects, Genetic Moderators, and Epigenetic Findings

Chairs: Krista Lisdahl

Cannabis is the second most used drug and national attitudes about dangerousness are decreasing as governments consider legalization (Johnston et al., 2013). Therefore, it continues to be a top public health priority to characterize the public health impact of cannabis exposure and to identify potential at-risk groups for greater neurocognitive deficits. Adolescence is a sensitive period that involves significant neurodevelopmental changes (Giedd et al., 1996; Sowell et al., 2004) and drug exposure during these years may result in increased neurocognitive deficits. Genetic differences may also place individuals at increased risk for these neurocognitive effects. Two candidate genes include *FAAH*, which regulates anandamide, and SNPs in the CB1 receptor gene (*CNRI*) (Ho & Hillard, 2005). Speakers will present data demonstrating that earlier age of cannabis use onset is associated with poorer white matter integrity and neuropsychological deficits compared to late onset, identifying adolescence as a sensitive period; a series of studies that demonstrate that individual genetics in endocannabinoid signaling (*FAAH* and *CNRI*) moderate the impact of cannabis use on the young brain and cognition; and address whether cannabis use is associated with DNA methylation (C-phosphate-G) changes in at-risk youth. Therefore, the symposium will present converging lines of evidence that adolescence is a sensitive period for cannabinoid exposure, further our understanding of the role of endocannabinoid genetics, and provide preliminary data regarding potential epigenetic changes associated with cannabis exposure in youth. Future directions, clinical, and policy implications will be discussed.

SYMPOSIA

Thursday, June 18

XV. A Trio of Translational Projects: Biomarkers, Bioimmunology, and Behavior in Rodents and Humans

Chair: Karran Phillips and Kenzie Preston

We will present three innovative translational research projects focusing on biomarkers, bioimmunology, and behavior in addiction. The biomarker research centers on cocaine-induced alterations of the blood lipidome, which were initially identified as markers of locomotor sensitization in rats, using a direct-infusion approach combined with electrospray-ionization mass spectrometry (ESI-MS). The analysis was subsequently applied to blood from human cocaine users, and it identified several specific phospholipids whose levels correlated not only with the use of cocaine, but also with route of administration (inhalation vs. smoking), time since last use, age at first use, number of lifetime uses, and a retrospective index of sensitization to cocaine's subjective effects. The bioimmunology research focuses on the common cocaine adulterant levamisole, an anti-helminth drug with immunostimulatory properties. Cocaine users exposed to levamisole can develop a clinical syndrome characterized by fever, cutaneous vasculitis, microthrombi, and generation of multiple different autoantibodies. This talk will focus on the effects of levamisole on neutrophils in humans and laboratory animals and will elucidate a novel mechanism of drug-induced autoimmunity that has implications across a spectrum of autoimmune diseases.

XVI. New Strategies to Identify the Genetics of Addiction-Related Behaviors in Mice

Chairs: J. David Jentsch

The precision and efficiency of mouse genetic analyses has increased remarkably over the past decade, allowing for their application to ever more sophisticated behavioral phenotypes. New, high-diversity genetic analyses reveal behavioral variation at an unprecedented range, and mapping methods and resources have accelerated the pace with which the trait-relevant loci can be identified. We will highlight three strategies, each highlighting the capabilities of mouse genetic resources for the characterization of exceptionally construct-valid measures of addiction-related behavior. Speakers will present new data gathered from a panel of inbred mouse strains indicating that impulsive responding in a reversal learning test is genetically correlated with intravenous cocaine self-administration behavior, and describe evidence that phasic dopamine transmission onto dopamine D2-like receptors is a key neurochemical mechanism that is intermediate between genetic variants of interest and the resulting behavioral phenotypes; present data on initial cocaine sensitivity and pharmacokinetics in a large panel of genetically diverse inbred mouse strains; discuss the utility of using expanded inbred strain data for identifying new models of addictive-like behavior and present follow-up linkage mapping and haplotype analysis of quantitative trait loci; highlight a new mouse population, the Diversity Outbred, in which high genetic diversity and precision enable the detection of a wide range of behavioral variation and co-variation; and present precise genetic mapping of behavior, specifically studies on the genetics of behavioral predictors of drug self-administration, including novelty seeking. These approaches reveal the power of mouse genetics to illuminate new biological influences on addictions.

WORKSHOPS

Sunday, June 14

*I. Epidemiology and Public Health Research Methods (Co-Sponsored by CPDD
International Programs Committee)*

Chairs: James Anthony and Jan Copeland

This year's annual workshop will again focus on methodological challenges in NIDA research in minority populations in the US and overseas, mindful of the meeting location in the American Southwest. Speakers will draw upon clinical research experiences working with Hispanic heritage families in Mexico and in the US, describing methods challenges faced in the intervention research context, including domestic violence and child protection issues, and will ask for workshop audience participation in discussion and feedback, with particular emphasis on workshop attendee experience in research ethics challenges that have been encountered in drug research with immigrant and transnational populations. US and international colleagues in the NIDA National Hispanic Science Network will be asked to share their related experiences in research with Hispanic heritage families. Audience comments and insights gained in research with non-Hispanic minority and diversity populations, not only in the US but also in other countries will be elicited. Methods issues faced when e-technology mobile or web-enabled applications are used to collect and monitor individual-level data on risky behaviors of individuals, with a focus on quantitation. Discussion about qualitative approaches that can be used in complement with the quantitative approaches will follow.

II. Turning Electronic Health Records into Actionable Knowledge in Addiction Research

Chairs: Yih-Ing Hser and Steven Sparenborg

Using data from electronic health records (EHR) for clinical and translational research is relatively new for addiction research in the United States. The recently enacted Affordable Care Act and the Federal Mental Health Parity and Addiction Equity Act are moving the substance use disorder (SUD) service delivery system toward greater integration with the primary care. The EHR system of these health care organizations offers opportunities for addiction research that can improve patient care, if related challenges can be overcome. This symposium examines the use of EHR for addiction research in several health care organizations: a private, integrated health care delivery system, a university-based medical hospital system, a health network system of Community Health Centers, and Taiwan's national health record system, and discusses the implications for clinical practice and policy. Speakers will describe prescription opioid use among members and associated risks and outcomes, based on EHR data from an integrated health care delivery system; the clinical course of patients diagnosed with marijuana use disorder to identify risk profiles and treatment use, based on a university-based medical hospital system; SUDs and HCV screening in CHARN (Community Health Applied Research Network) data among underserved populations.

WORKSHOPS

Sunday, June 14

III. Clinical Outcomes and Cost Evaluation in Clinical Trials: From Abstinence to Dollars and Cents

Chairs: Sterling McPherson and Susan Mikulich-Gilbertson

In this *First Annual Design and Analysis Workshop*, the primary goal is to expose attendees to a variety of design and analysis issues relevant to randomized clinical trials (RCTs) of promising substance use disorder (SUD) treatments. Our specific aims are to present overviews with real-world examples on the following topics: 1) how distributions for substance use outcomes are often non-normal with zero-inflation and how erroneous specification of those distributions in analyses can change conclusions regarding that outcome, 2) how a missing data sensitivity analysis is essential when evaluating clinical trials and can help reduce bias and increase confidence in final model selection, 3) how selection of instruments that have demonstrated critical psychometric invariance properties is critical when planning a RCT, and 4) economic evaluation techniques for RCTs. Each of these topics is of critical significance in the design and analysis of a SUD RCT, and we will present them in a non-technical, accessible fashion in order to generate discussion among the presenters and the audience around how such considerations are applicable to various research situations. The overall goal is to raise the level of quality in the design and analysis of clinical trials addressing substance use disorders by attending to key issues raised during this informal workshop and to empower other researchers by dissemination of real-world analysis examples.

IV. Navigating Key Stages of a Career in Addiction Science

Chairs: Denise C. Vidot and Cristina Bares

This workshop will focus on issues specific to three key stages in a researcher's career: 1) Pre-Doctoral, 2) Post-Doctoral, and 3) Early Career/Faculty. Each presentation will outline steps that can be taken to maximize their career stage-specific experience and make themselves competitive job applicants for the next stage. Examples of topics included are as follows: striking a balance between executing your mentors vision and demonstrating your capacity to be an independent scientist, publishing amidst other responsibilities and long-term studies, getting grant-writing experience, applying for awards, establishing your niche and conveying its importance to potential employers, collaborating and networking, deciding whether to teach, different NIH funding mechanisms most appropriate for early career investigators, how to find a set of mentors, how to narrow down an innovative and significant research question, how to begin writing your grant, and organizing your time. Each talk will have a centered theme of the value of having mentors help along the process and the importance of being receptive to incorporating mentor feedback at all career stages.

WORKSHOPS

Monday, June 15

V. The Case for Rescheduling Psilocybin as a Treatment Medication: Regulatory Rationale, Abuse Liability, Safety, and Treatment Efficacy

Chairs: Roland R. Griffiths and Matthew W. Johnson

Psilocybin, a 5-HT_{2A}R agonist, is under investigation for clinical efficacy in the treatment of various conditions including addictive disorders and anxiety and depression associated with cancer. If approved by FDA, psilocybin will need to be rescheduled from its current placement in Schedule I where it was placed in 1971 with passage of the Controlled Substances Act (CSA) because it was not approved for medicinal use and was presumed to have a high potential for abuse. This workshop will summarize recent research suggesting that the toxicity and abuse liability of psilocybin are lower than previously assumed, while also suggesting that psilocybin may have efficacy in treatment of addictions and psychological distress in cancer patients. Recent findings suggesting the efficacy of psilocybin in treatment of anxiety and depression associated with a life-threatening cancer diagnosis and the relative abuse potential of psilocybin in the context of the 8-Factor regulatory framework used by FDA, NIDA and DEA to make regulatory scheduling decisions under the CSA will be discussed. Speakers will present National Household Survey data on the suicide and mental health of psilocybin and related compounds and recent studies suggesting the efficacy of psilocybin in treatment of nicotine and alcohol addiction. A discussion of these new data and their implications for the possible rescheduling of psilocybin for medicinal use will follow.

VI. Use of SBIRT to Address Adolescent Drug Abuse

Chair: Ken Winters and Michael L. Dennis

An emerging intervention framework to address early-stage alcohol and other drug involvement for youth is SBIRT, a model that offers guidelines for the provision of Screening (S), Brief Intervention (BI) and Referral to Treatment (RT). Whereas there is a fairly rich literature on the efficacy of BIs for adults, the research on SBIRT for adolescents is still emerging. This workshop will focus on research programs and efforts that examine SBIRT, with a focus on the “BI”, in teenagers involved with drugs. Speakers will describe an SBIRT research program in a school setting; patient outcomes in a trial of different modalities of SBIRT for adolescents during primary care well-visits; research using an SBIRT intervention with a very high risk population of kids (13-19) that were referred for treatment; and findings from a meta-analysis summarizing the effectiveness of brief alcohol interventions for adolescents (age 11-18) and young adults (age 19-30). A discussion of challenges and of opportunities of adolescent-based SBIRT models in the continuum of treatment options will precede a brief business meeting.

WORKSHOPS

Monday, June 15

VII: Substance Abuse Treatment Clinical Trials: Does Gender Matter?

Chairs: Shelly Greenfield and Carmen Rosa

Evidence suggests gender differences in prevalence, progression and consequences of substance use disorders adversely affect treatment outcomes. Gender-related characteristics such as fewer mental health problems, less severe drug problems and social support are associated with better treatment outcomes. This workshop will present gender differences in four recent treatment trials and discuss their implications: (1) Exercise was implemented in a multisite sample of patients with stimulant use disorders. Gender differences in outcomes related to adherence to the prescribed exercise dose, reported barriers to exercise adherence; and differences in weight/BMI changes following the intensive phase of the exercise program are presented and discussed for gender-specific treatment adaptations. (2) Stimulant Abuse Treatment Groups to Engage in 12-Step, compared STAGE-12, an intervention to engage users in 12-Step support, to treatment-as-usual (TAU). Within STAGE-12, women had higher odds of during-treatment abstinence than men. However, in both groups, women attended outside 12-Step meetings less than men. (3) A web-based version of the Community Reinforcement Approach was compared to TAU among 507 (38% women) patients receiving outpatient treatment. Gender did not moderate the effect of treatment on outcome; however intervention acceptability was positively associated with abstinence, but only among women. (4) Patients endorsing problematic drug use during an emergency department visit received screening, assessment and referral to treatment (SAR) or SAR plus a brief intervention. Women reported more child custody and childcare barriers to treatment. Men were more likely to report poor treatment availability as a barrier. There were no gender differences in treatment utilization.

VIII. Intervention 2.0: Using Social Digital Tools to Reach Difficult-to-Treat Substance Users

Chairs: Danielle Ramo and Suzette Glasner-Edwards

With wide reach and engagement among users, digital social tools (the so-called “Web 2.0” environment) have the potential to change the face of addiction treatment by offering accessible strategies to monitor personal behaviors or extend clinician interventions. It is not clear, however, whether these strategies are successful at reaching substance users who are less likely to present for traditional treatment (e.g., young people) or have less successful treatment outcomes (e.g., those with health and/or mental health comorbidities). This workshop will bring together investigators who are using novel digital tools to reach traditionally hard-to-treat populations of substance users. The first study will be the first pilot randomized trial testing TXT-CBT, an integrated text-messaging intervention employing cognitive-behavioral therapy (CBT) to reduce substance use and improve antiretroviral adherence in HIV-infected substance users. The second study will be the first randomized controlled trial comparing online monitoring, online CBT and online social networking for comorbid binge drinking and depression in young adults. Moving into the social media space, the third study will compare Facebook and respondent-driven-sampling recruitment strategies for reaching parents of adolescents in Colorado and Washington State to complete a self-directed family program to prevent teen alcohol, tobacco, and marijuana use. The fourth study will present 1-year outcome data on feasibility and initial efficacy of the Tobacco Status Project, a motivationally tailored intervention to help young adults quit smoking on Facebook. Discussion will focus on the promise of Web 2.0 platforms for delivering addiction treatment to traditionally hard-to-reach populations, and areas of future investigation.

WORKSHOPS

Tuesday, June 16

IX. The Intertwining Epidemics of Drug Use and HIV/AIDS: The HIV/AIDS Workgroup

Chairs: Adam W. Carrico and Don C. Des Jarlais

Groundbreaking randomized controlled trials have demonstrated that expanded access to anti-retroviral therapy (ART) can decrease HIV incidence. Because drug users were excluded in many of these trials, there is a critical need for research to inform the integration of biological and behavioral approaches to HIV/AIDS prevention with drug users. The overarching goal of the workshop is to provide a forum to examine how clinical and translational drug abuse research can inform the development of bio-behavioral HIV/AIDS prevention interventions. Specifically, we will highlight clinical research to examine methods of optimizing health outcomes and decreasing HIV transmission risk among HIV-positive drug users. We will also examine cutting-edge bio-behavioral approaches to prevent HIV seroconversion in both injection and non-injection drug users. NIDA-funded investigators who are pursuing programs of research to address the intertwining epidemics of drug use and HIV/AIDS will present. Ultimately, this workgroup represents a critical opportunity to begin to bridge the boundaries that have divided substance use and HIV/AIDS prevention research in order to optimize bio-behavioral HIV/AIDS prevention efforts with drug users.

X. Marijuana Laws: The Changing Legal Landscape and Its Consequences

Chair: Marsha Lopez

Marijuana is still illegal under federal law, but over half the states in the US have decriminalized or legalized it in some form. The effects of these changes are highly controversial. Public opinion about marijuana use is rapidly becoming more permissive, while proliferating marijuana dispensaries for medical or recreational use are providing ways to consume marijuana not previously seen at this scale, including marijuana-infused food and beverage products, electronic delivery devices, and emerging marijuana tourism in states with legalized recreational use. Many questions remain unanswered about the impact of these developments on the risk for marijuana use and related problems, questions that are the focus of intense public and scientific debate as the public considers and votes on medical and recreational marijuana laws, and as clinicians and policy-makers seek guidance from research findings. This workshop brings together important new findings from studies of these issues, including information on the relationship of state medical marijuana laws and attitudes to national adolescent marijuana use since 1991; on health conditions and marijuana use patterns in adult medical marijuana patients in Michigan and California; on risk factors for adolescent marijuana use in Washington and other states; and on how variation across state medical marijuana laws influences their effects on adolescent or adult marijuana use.

WORKSHOPS

Tuesday, June 16

XI. 21st Annual Contingency Management Working Group
Chairs: Kelly Dunn and Diann Gaalema

The Contingency Management (CM) Working Group, held annually during the CPDD convention, is an opportunity for the discussion and dissemination of current research regarding the use of CM interventions to promote behavior change and reduce drug use. CM is a behavioral treatment strategy that has demonstrated consistent success in promoting abstinence from a wide-range of drugs and across many different treatment populations. It is also being used to promote change in behaviors impacting the course of other chronic diseases (e.g., obesity, diabetes). At the 21st annual meeting of the CM Working Group, junior and senior researchers will present preliminary data from ongoing studies involving CM. The goal for this working group is to provide an informal outlet for discussion of ongoing CM research, with an emphasis on developing or improving research strategies by seeking audience input, and providing opportunities for junior and senior researchers to interact.

*XII. Culturally Adapted Substance Abuse Treatments for Racial/Ethnic Minorities:
Current Perspectives and Future Directions*
Chairs: Kathleen Burlew and Carmen L. Masson

Numerous interventions exist with demonstrated efficacy for substance use prevention and treatment. However, different racial/ethnic groups bring meaningful differences (e.g., cultural identity, drug histories, access to addiction treatment, pathways to treatment, prior experience with social services) that affect response to substance abuse therapies. Accordingly, interventions yielding positive outcomes for one racial/ethnic group may not work as well with another group. Growing evidence suggests that culturally adapting substance use interventions for a specific target group can improve outcomes. The aim of this session is to share lessons learned within the Minority Interest Group of the NIDA Clinical Trials Network to improve treatment outcomes by culturally adapting substance use interventions. This workshop is significant because it will disseminate the latest research examining methods and outcomes for culturally adapting evidence-based substance use treatments. The workshop includes research on cultural adaptations of evidence-based interventions that improved outcomes for Latino, American Indian/Alaska Native (AIAN), Asian American and Pacific Islander (API), and Black/African American (AA) substance users will discuss interventions for Latino adolescents; the incorporation of spirituality, cultural identification and discrimination into AIAN interventions; approaches to attract and retain APIs in treatment; and promising procedures for adapting HIV prevention interventions for Black substance users. All speakers will describe cultural adaptation methods useful for future projects. Accordingly, the presentations will describe lessons learned regarding recruitment, retention, and improving substance use treatment outcomes for racial/ethnic minorities.
